NOTES AND COMMENTS.

The Warden of Simcoe when presiding at the county council sessions wears a gorgeour cocked but and silk gown, purchased at a cost of \$110. It is anderstood that the Queen, instead

of making a valuable wedding present to Princess Louise, paid for the greater of her tronsseau, which cost £4,000.

The Princess Louise of Wales is being overwhelmed with diamonds. If the Duke of Fife ever gets hard up his wife can help him out with the aid of his uncle.

The Halifax l'oice intimates that there will be a great prohibition convention of the Maritime Provinces at Moncton in the latter part of August or the 1st September.

Georgia has the largest watermelon patch in the world. It is owned by a company. and contains 800 acres. The company will ship about 400 cars, at a profit, it is claimed, of \$150 a car.

The fact that 116 members of the British House of Commons last night voted squarely against granting any marriage portions to the Queen's grand-children, shows clearly that public sentiment in Great Britisn s becoming adverse to such grants. The leaders of all the great parties voted for the government's proposal, yet 116 of the rankand file opposed it.

There is good news for the New York dermanic fugitives who tarry in Canada Recent trials of the boodle aldermen have all resulted in verdicts of acquittal, and the district attorney has abandoned the field as hopeless. Canada can easily spare not only the aldermanic fugitives but all the others boodlers who have found a refege here. Let them bold a " bee" and get out.

The State of Massachusetts recently authorised a loan of \$2,500,000 to run twenty years at three per cent. The State-Tress arer put \$1,500,000 of this amount on the New York market the other day, and it was disposed of as follows: \$500,000 at 105.37, equal to an annual interest of \$2.65 \$500,000 at 105.77, equal to \$2.624; \$500 000 at 106.17, equal to \$2.60.. This is borrowing money at a very fine figure.

In the course of his speech delivered on the occasion of the opening of the St. John summer carnival on Monday Sir Leonard Tilly referred to the fact that by means of electricity the Mayor of Vancouver, B. C., had fired the gup heralding the opening of the Exhibition. "Little did I think." said Sir Leonard, "when I visited the Mayor of Vancouver, a short time ago that he would be able to fire the opening gun of our Exhibition from Vanconver, but such is the progress of electricity."

There is one and only one great moral esson to be gained from the prize ring. When such a man as Sullivan, who had suffered from a career of much dissipation, was changed by a few weeks of severe physical discipline regular hours, judicious dies and absence from old associations, into a better man physically than he had been before, is it not probable that these are the most rational and efficacions means of restoring hundreds of less aggravated cases of dissapation? Muldoon's transing Sullivan shows what physical culture will do for a man who was scarcely more than an alcoholic wreck.

To the Editor of the FREE PRESS. DELE SIE:-In your last issue you point ed out some of the advantages, and also the duty of the citizens of Acton, in regard to the purchase of that beautiful piece of property owned by Mr. W. E. Smith, and at present used as a park. It is certainly the finest property that we can get for the purpose; and, as you showed, it would be no barden financially, but on the other hand could be made a source of revinue. It is the duty of every village to provide some suitable ground for the recreation of its inhabitants.
