HOME GLEANINGS
Which are Mostly of a Local Character and All Interesting.
Found Dead to Bed.
On Sunday morning of last week Mr. Wm. Featherston, an old, and respected resident of Waterdown was found dead in bed. The cause of death, it is supposed, was heart disease. The deceased was seventy years of age.

Didn't Know it was Loaded.
At St. Catharines, Ont., last week, a young lad named Frank Conroy, was amusing himself with "firing off" fireworks and becoming impatient over the slowness of one to operate, he looked into it to see if it was loaded, which fact it immediately demonstrated by an unexpected explosion, as a result of which poor Frank nearly lost his eyesight.

Managers' Wheat Yield.
It is estimated that the yield of wheat this year, throughout Manitoba and the North West provinces, will average about 15 bushels to the acre. Some land on which no rain has fallen for two months past is expected to produce 25 bushels to the acre. The comparatively low average is due more to careless and ignorant farming than to unfavorable weather.

The Canada Cup.
The Canada Cup, presented by the Canadian Club of London, Eng., to the member of the Canadian Wimbledon team who should make the highest aggregate score during the Wimbledon meeting, in the matches for which all the members of the team were regularly entered, was won by Quartermaster Sergeant J. O'Connell of the British Field Artillery, Guelph, who was also the winner in 1897.

Accident to a Juvenile Sportsman.
On Friday afternoon last, a lad named Fred Bancroft, of Guelph, went to a neighboring woods to shoot birds. While strolling through the woods his rifle, by some unsuspecting means, went off, the bullet lodging in his leg. He managed to make his way home, and medical assistance was summoned, but on probing the bullet could not be located. Young Bancroft will, however, in all probability be around again in a couple of weeks.

Fatally Injured.
On Saturday of last week a little five-year-old daughter of Mr. John Atkinson, York Road, was kicked on the forehead by a colt. Medical attention was procured, and on examination it was found that a portion of the skull, which was fractured, was pressing against the brain. The unfortunate child was placed under the influence of chloroform and a portion of the bone removed, but in spite of medical skill she succumbed to her serious injuries in a short time.

A Dartsday Acc.
Last week some fiddlers, or fends, deposit of pairs acted in the pasture fields of several respectable farmers in King township, and as a result several of the cattle were poisoned. Lancing would be too good for the miserable specimens of humanity who perpetrated this diabolical act, but have not yet been apprehended, although the North York Protection Society, and the Corporation of King have each offered \$50.00 reward for information which will lead to their arrest.

Georgetown High School.
The High School at Georgetown is now almost completed, and it is expected, will be ready for occupation by the latter part of August. The building throughout presents a very attractive appearance, and is an ornament to that village. In fact this magnificent building would creditably grace any of the large cities of our province. We congratulate our Georgetown friends on the energetic enterprise displayed by them in securing for their village, this excellent institution.

Fall of a Tree.
On Friday last a man named John O'Connell of Montreal, in charge of a load of Percheron horses en route from Montreal to Hamilton, fell at the Buffalo Exposition last fall, and requesting him to exhibit the same matched pair at Detroit on the above mentioned dates, also offering free transportation both ways.

It will be remembered that Fulton Queen and Lady George, carried off the first prize in the matched rooster class at Buffalo, as well as several other prizes throughout Ontario, last fall. Mr. Mat. there is now getting his roosters into good shape and intends exhibiting them at Buffalo and Detroit during the coming fall.

Interesting Memorial Event.
On Wednesday last, Mr. Joseph Gowdy, of the Gowdy Manufacturing Company, eldest son of Mr. Thos. Gowdy, Mayor of Guelph, was married in the halls of matrimony, Miss Isabelle Talbot, youngest daughter of Mr. James Talbot, also of Guelph. The interesting ceremony was performed at the residence of the bride's father, by the Rev. G. R. Turk, pastor of the Dublin street Methodist Church, Guelph.

The large drawing-room was filled with friends of the contracting parties. The handsome young bride was attended by Miss Johnston, of Bradford, Ont., while Mr. Thos. S. Gowdy, brother of the groom, acted as groomsmen. Before the ceremony, the company was seated before a sumptuous and tempting repast, to which justice was done, after which the happy couple left for a trip through the Western States. Congratulations and presents were numerous. The Free Press extends hearty congratulations to the two of Guelph's most respected young people.

EVENTS ON THE PROGRAMME
Events on the programme are arranged so that every one will be able to enjoy them all and for 5 cents a programme can be got which will direct and help in every way.

Hotel or private accommodation can be arranged for beforehand and at moderate rates. Many private citizens are indicating their willingness to accommodate delegates to convention, etc.

Extraordinary arrangements are being made to welcome and please the large audience that is expected.

Hamilton and Toronto International Base Ball clubs played here on Saturday last and one of the Toronto players losing his temper on being struck out threw his bat at some small boys who were playing, thus causing injury to them and on the boys continuing their ridicule raised the club to strike them and was stopped by the manager in time and prevented a serious riot. Such a brutal conduct on the part of a professional player is disgraceful to say the least and not to be tolerated.

Weather cool and very enjoyable.

NEIGHBORHOOD NEWS,
Furnished by Correspondents, Called From Exchanges and Picked up by the Way.
KNATCHEBULL.
On July 23rd, the people of Brookville gave a free picnic, the day was fine and pleasant and a very enjoyable time was spent. At the same time and place the base ball clubs of Brookville and Knatchebull met for a contest, with the result that Knatchebull was victorious. The score stood 30 to 7.

On Wednesday of last week, Charley, son of Edward Darby, Knatchebull, had the misfortune to have one of his feet painfully injured by coming in contact with the tines of a fork which was lying unattended upon the ground, the tines penetrating to the bone. It will be a day or so before he regains much use of the injured member.

Mr. Jas. Pinmore and Jas. B. Anderson, Eden Mills, have sold their driving ponies to John Lyon, of Guelph, for \$150.
The past week has been a busy one with the farmers, almost every one being engaged cutting their fall wheat and barley, and a few have finished. If the weather is favorable the coming week will see a good part of the crop well housed.

OAKVILLE.
The Methodist and Presbyterian Sunday Schools held their annual picnic, at Long Park, on Friday last. The day was all that could be desired, as far as fine weather goes, to enjoy one's self, yet, on reaching the water, the angry waves fully led us to anticipate a little trouble abounding, in the shape of "sea sickness."

We left the Oakville wharf and boarded the steamer Hastings at 10:30 a.m., arriving at the Park just one hour after our departure. I heard one gentleman remark, "Rather quick travelling, seven miles in so short a time." I evidently came to the conclusion that that man was a little disappointed with the slow, or as he called it, "quick" travelling.

The question with all was, "are you sick?" Many felt inclined that way, but some, for reasons which are better imagined than described, put forth their utmost efforts to hide their sickly feelings. Their were a few, however, who did fulfil a certain passage of Scripture by "casting their bread upon the waters;" but whether they obtained it after many days is doubtful.

The time we had to remain passed away very pleasantly and quickly. On hearing the whistle of the boat warning us that it was time to prepare for our journey home the old adage came to my mind, "that time and tide waits for no man." Truly neither lingered that day, for the time was rapidly flying, and the dashing of the waves, giving us greater warning every moment, that it was his time to be homeward bound.

Many being too timid to return by water did so by the 5:30 train, thereby gaining a new title to their names, namely, that of a coward. But, alas! how can we tell what a day, an hour, or even a moment may bring forth, for no sooner had the boat got safely started than her tender broke, and the consequence was, that the "courageous crowd" was carried to Toronto, and was obliged to wait there until the eleven o'clock train.

I wonder if any of them wished that they had eluded themselves with the wise, but as they deemed them the timid ones.
When they were all landed safely on dry land, they sang the "grand old Doxology, and I think they had offered up their thanks in a better manner, and with more solemnity than they had done when they were in the danger of the angry billows, and had saved them from what might have been a fatal journey."

Rev. Mr. Kettlewell has returned from his trip to Muskoka, and occupied the Methodist pulpit on Sunday last.
Mr. A. E. Braden, of the Star, spent Sunday with friends out of town.

HAMILTON.
The Evening Times in an editorial lately took occasion to rebuke the ladies of this city for taking advantage of the cheap steam boat service to Toronto to "purchase goods in that city."

I think perhaps where one lady commits this so-called sin there are hundreds who have never thought of it and this exposure will simply be to means of informing the majority of purchasers. That some of their fellow citizens believe that a dollar goes far in Toronto and cause them to experiment also.

A new church is being erected by the congregation of St. John's Presbyterian church of which the Rev. Mr. Moreton is pastor. The edifice will be of red brick with cut stone trimmings having a frontage of 60 feet and depth of 120 feet. The auditorium will be seated with opera chairs arranged in amphitheatre form, the first of the kind in the city. A tower on the corner, 100 feet in height and a window in front 15 feet by 30 feet will be completing the appearance of a very handsome building. The congregation has had reviews and deserves credit for the enterprise it is following.

The Centennial programme has been issued in a neat compact form. The outside red, yellow, blue and pink. The list of attractions will please every one and it is certain now with fine weather, that every thing will progress satisfactorily. The illumination of the city will be grand. Whole blocks of business houses combining to have tasteful uniform designs. The fireworks on land and water will be magnificent. All the yachts and steamers are making arrangements to have an illumination. Yachting and rowing regattas, bicycle tournament, International base ball matches, cricket matches, military and uniform society parades, bicycle torchlight processions, trades procession and merchant's convention will keep visitors fully occupied for five days. A mass movement city for holding such a carnival cannot be found. One hour walk around will enable visitors to feel at home. The street car service is a first-class one now and connects with hall and cricket grounds, steamboat wharves, parks and all parts of the city every five minutes.

Events on the programme are arranged so that every one will be able to enjoy them all and for 5 cents a programme can be got which will direct and help in every way.
Hotel or private accommodation can be arranged for beforehand and at moderate rates. Many private citizens are indicating their willingness to accommodate delegates to convention, etc.

INTERESTING COURSE OF SERMONS AND LECTURES IN ACTON.
Dr. James Ward-El-Ward, a native of Jerusalem, in the Holy Land, preached in the Methodist church on Sunday morning, taking for his subject, "The deceased woman in the crowd, and her wonderful cure," and in the evening in the Presbyterian church, to a crowded house he delivered an interesting discourse on "The Samaritan woman at the well of Jacob." In the discourses Dr. Ward-El-Ward entered largely into the every day life of the people of Palestine, making his subjects peculiarly interesting and dealing with special points in such a manner as to render them more vividly instructive than they ever appear to the ordinary readers of Holy Writ.

On Monday and Tuesday evenings he again addressed large audiences in the Presbyterian and Methodist churches, on the customs and manners of the natives of Palestine, and by his interesting illustrations and explanations of many difficult passages of Scripture; these lectures are rendered peculiarly interesting.

His wife, Rebecca, accompanies him and during his lectures both are attracted in the native costume of the Holy Land.
Their audiences were delighted with the lectures and enjoyed the beautiful voice of Mrs. Rebecca Ward-El-Ward being particularly attractive.

What we intend doing for our Customers.

The only safe way to do business is to sell goods on their merits, and we can say that we make our own goods, such as Ingrain, Wool and Union Carpets, know that we are selling. We invite our customers to order, before buying elsewhere. And don't be deceived by other merchants who say our carpets are not up to the mark. People who do not make Carpets do not know as much about them as those who manufacture them, and we sell all intending purchasers to call and see us. Notice the following for 1899:
