

As was generally expected the election last Friday upon the Park By-law, to authorize the issue of debentures for \$4,000 to purchase the Park and buildings, comprising some twelve acres, resulted in favor of the By-law by an almost unanimous vote. It is true the vote was a small one, but the opinion seemed to prevail that every property owner in town was favorable to the very desirable scheme of securing the park by the municipality, that comparatively little interest was manifested in the election. The vote stood as follows:

Pollers	100
For	100
Against	0

Majority for the By-law 100
A number of lady electors voted, but these were not canvassed.

THE ACTON FREE PRESS.
THURSDAY, SEPTEMBER 18, 1889.
NOTES AND COMMENTS.
Hon. Wilfrid Laurier, Hon. O. Mowat and Mr. C. A. Fisher, of Quebec, will address a meeting under the auspices of the Young Liberal Club, of Toronto, in the Pavilion in the city, on the evening of the 30th of September.
The U. S. Cruisers of the Bearing Sea have not been able to prevent the British Columbian sealers from making some part at least of the seal harvest, for four thousand seven hundred and fifty sealskins, worth thirty-five thousand dollars, have recently been shipped from Victoria to London via Montreal.

Hudson's Bay is the hunting ground of numerous American whalers and sealers. The whales are plentiful and are easily caught. Nine of them fill a three hundred ton schooner. It is in the spring that the seals are captured. In order to get their spots of the American whaler at Marble Island, an island situated well within our district of Kentville, Canadians will not grudge the Americans a few whales or seals. But really, if Behring's Sea is a closed sea, how can Hudson's Bay be open?—A. M. S.
The Deputy Postmaster-General has explained that the object of the department in making postmasters to vote the weight of printed matter mailed at their office was solely for statistical purposes. Not since the institution of free postage for newspapers has an accurate return been made of the amount actually carried through the mails, and for this purpose, therefore, postmasters have been asked to furnish a return of newspapers and printed matter mailed at their offices. It is sincerely to be hoped the matter will go no further.

A REPTILIAN CASE.
The St. Thomas case says—At the division court Thursday, Mr. McKillop of the Dominion hotel, sued Thomas Kelly to recover \$32.67. Mr. McKillop testified that Kelly had brought to him a cheque of 33 cents from the Car Wheel Works. McKillop read the cheque for \$33 and cashed it for that sum. On presenting it at the Western Bank, he became aware that it was for 33 cents. Kelly testified that he had handed the cheque to McKillop, who had owed an account of \$2 or \$3, and the latter handed him \$30 with the remark, "Take this and blow it in." Acting upon McKillop's advice literally, he proceeded to blow it in, treating all and sundry with the cash that next morning the cashier discovered his mistake, sent his lawyer to Kelly next morning, ordering him to hand over the balance, under penalty of arrest. Kelly declined to pay, hence the suit. At the court Thursday he swore he knew the cheque was for 33 cents, but thought McKillop had given the money to him, "blow it out." "Well if Mr. McKillop chooses to give a man \$30 to have a blow out, I don't see that I have any right to interfere," replied the judge. Verdict for defendant.

KILLED A BEAR.
Sport that the People of Woodstock Hate Right at Their Doors.
Woodstock, Sept. 15.—Our citizens were surprised this morning to hear of a bear being shot within a mile of Woodstock. Early this morning Dan Miller, a noted shot of the Wood Gun Club, was called from his bed in town by Mr. Weir, a farmer on the 11th line, to come and shoot a bear which was on his place. Dan's only available piece of arms was a shotgun, and the only ammunition he had handy was some cartridges prepared for shooting of day blackbirds. He took these along and went after Mr. Miller. After following him through the woods they managed to trace him. Mr. Miller let fly, landing a charge in the jaw and bringing him to the earth. It proved to be a big, healthy, spring bear. There were no large marks or anything to indicate that he was a tame one. Mr. Miller exhibited it to-day on Dundas street to about half a dozen.

EXHIBITION NOTES.
With fine weather, the show this year is certain to be a success. One of the many Merchants and others intending to make a display of their goods, should secure space in the main building at once. Mr. J. B. Pearson has charge. The grounds and hall are in excellent condition for the show. It is expected that the convention will be held at the corner of the corner at 10 o'clock.
Entrées are already coming in. All intending to enter articles for the coming fall show, should do so without delay. There is nothing gained by leaving the entries until the last day. Forms of entry, etc., may be had upon application to the Secretary.
A list of special is an attraction in every quarter and will bring a large number of exhibitors.
FRANCE POLIOZED.
WASHINGTON, Sept. 22.—The Government of the United States and France have finally reached a peaceful settlement of the diplomatic complications arising from the arrest and imprisonment of Mrs. Dorr. Mrs. Van Nostrand and another New York lady by the French police authorities at Mepton. Those ladies were arrested and thrown into a cell at the instance of a dressmaker who whom they had a dispute over a bill. Minister Buisson finally has been able to effect from the French government an explanation and an apology, with notice that the offending officials had been reprimanded. These facts were communicated to the committee, and as they have expressed themselves as entirely satisfied with the result of negotiation, the incident may be regarded as closed.
—Mr. W. Lee, the favorite tailor, has just received a nice assortment of goods for fall outfits, light overalls and other goods suitable to the season. The workmanship on all orders is first-class and can assure good satisfaction to all.
—For SILENCE—Art Garland stove, with oven, a few choicest varieties weeping willow and horse chestnut.—S. A. Skilton.

THE RATE 19 MILLS.
A Reduction of Four Mills From Last Year's Rate.
THE ESTIMATES IN DETAIL.
Council met on Monday evening. The Minutes of last meeting read and confirmed. The principal business which came before the Council at this meeting was the preparation of the estimates of receipts and expenditures for the current year and the striking of the rate. The estimates as finally revised are as follows:

REVENUE.	
Licenses—Taxers and others	208 63
Municipal fund	183 00
Town Hall and Office	128 00
Cemetery	100 00
Dog Tax	80 00
Statute Labour Tax	40 00
Fines and Penalties	18 00
Rate of 19 mills on assessment of \$38,725	735 62
Total	1581 25

EXPENDITURES.

Public Schools	4175 00
Current Loans	800 00
Streets and Sidewalks	600 00
Public Works	450 00
Town Hall, etc.	100 00
County Rate	143 35
Printing and Advertising	100 00
County Clerk	100 00
Insurance	70 00
Interest on Cemetery Deb.	50 00
Board of Health	20 00
Charities	20 00
Interest account	14 00
Town Hall	15 00
Contingencies	15 00
Total	5341 25

TERIBLE CRASH OF ROCK.
Thousands of Tons of Rock Crashed Down from the Citadel to Chaplain Street, Quebec.
MANY LIVES SUDDENLY LOST.
Quebec, Sept. 20.—About 1.30 o'clock last evening the whole city was thrown into intense excitement by a report that a great cliff slide had occurred in Chaplain Street. Several thousand tons of solid rock had crashed down with terrible force from almost under the King's Bastion on the Citadel, and a little distance west of the end of DuRoi's Terrace. It completely demolished seven stone and brick dwelling houses on Champlain street, some three hundred feet below. The B battery, police force and fire brigade were early on the scene and rendered valuable assistance. Some scores were extremely heartrending. Up to 11.30 p.m. there were six bodies taken from the ruins. About twenty-five persons were removed from the debris lying around. Some have broken arms and legs, others badly crushed and mutilated in all shapes. It is supposed that at least fifty persons are yet under the ruins. The roadway is blocked with solid boulders to the height of fifteen feet in some places. All the wounded who were removed from the ruins were carried on stretchers to the Marine and Fisheries Department, where several physicians and clergymen took care of them. Several of the wounded were taken in wagons to different hospitals. Communication with Diamond Harbor and Cap Blanc is completely cut off by the land slide, which covers the road in solid masses for some 500 feet in length and from fifteen to twenty-five in height. Telegraph, telephone and electric light wires are all down. THE EXTENT OF THE DISASTER.
MURDER.—At this hour the awful extent and terrible character of the disaster is only beginning to be understood. There are many more under the debris than were at first imagined. Under some houses crashed cries of "Help" "help" are heard and no immediate help can be given them. Although the soldiers and citizens are working like Trojans very little progress is made in recovering the bodies owing to the stupendous mass of rock and debris encumbering the ruins. About 175 bodies are supposed to be buried under the debris. The body of a woman named Mrs. Berryman has just been pulled out of the debris. It was mangled and bleeding, and presented such a sight as to affect the strongest man. More rocks are still crashing down. The people of the locality are fleeing with dread lest the whole boulder forming the highest point of Quebec will give way. Help is coming in abundance from all quarters of the city. Accidents are occurring every moment to the rescuers. The crashing of timbers and the rolling of huge masses of rock put the lives and limbs of the volunteers in continual danger. Physicians and clergymen are on the spot ready to administer to the first sufferer rescued from the ruins. The mass of rock detached from the cliffside left a vacant space of extraordinary dimensions. It has worked immediately under the DuRoi's Terrace, undermining the support of that great promenade so that it is now unsafe. The northeast bastion of the Citadel is perpendicular with the cliff side. Huge rocks are still tumbling the locality, hanging as they are on the flank of the mountain. Ten corpses and sixteen wounded are now taken out. The work is still carried on, but it will take several days to haul out all the bodies. The damage will, it is said, exceed \$100,000. The houses in the locality were built of stone and brick and inhabited by laborers, etc. The scene witnessed at the place of disaster are heartrending. Here a mother seeks her child, there a desolate man digs in the debris in the hope of finding his wife. Cries and appeals heard the air. The confusion is such that no one can describe it. The officers and men of the Royal School of Cavalry are coming to the rescue with ropes, picks and shovels. About 600 men are now working clearing out rocks and debris of all kinds.

THE WORLD'S EXPOSITION OF 1892.
Various American Cities Bidding for the Preference of Location.
That a World's Exposition is to be held in America in the year 1892 is one of the prominent signs of the times, but where it is to be held is an unsettled and much disputed question. The city of New York with its usual presumption long ago announced that it was to be the site, but if her citizens are as vigorously in this matter as they have shown themselves to be in the matter of raising money for the purchase of a suitable monument proposed to be erected over the remains of the late General Grant—The Nation's Hero—in Riverside Park; the exposition would be a slim affair indeed. And recently it looks as though that city's chance is about to be frustrated upon the very point of realization. Chicago wants it; St. Louis is after it; Washington bids in a quiet bid. The former city is leaving no stone unturned in illustrating the superior advantages to be derived in locating there. Its first capital stock of \$5,000,000 has already been subscribed and application has been made to increase it to \$10,000,000. Its location is central and favorable to the points of the compass, and railroads connection is extensive. Up to the present Chicago is about ten tenths ahead in the race and will in all probability "get there."

A WORTHY SUGGESTION.
To the Editor of the Free Press.
Sir.—As the Park scheme is now so complicated fact, I think it would be in order for the citizens to make an effort to remove the stump and logs from the pond and thereby beautify our Park and encourage more bathing. The water is now very low and no better time could be found for removing them. If Councilor Harvey, the one who can be induced to take the initiative and put his sunny energy into the matter, and invite the co-operation of those interested I am sure it will be a success. Now, Mr. Editor, knowing you are favorable to anything that is a benefit to the place, I feel in the matter in your hands to develop. I merely offer this as a suggestion. I remain
Ours With Warm Regards,
Acton, Sept. 23rd, 1889.
A. PATAL COLLISION.
Chicago, Sept. 24.—The Chicago, Rock Island & Pacific passenger train which left the main depot at 8.35 p.m. today for Blue Island was struck by a freight train at the Lake Street & Paulding crossing, near Eighty-seventh street, Englewood. The passenger train was at a standstill, one coach projecting over the crossing. Into this coach, containing about fifty persons, plunged the freight train, travelling rapidly at right angles to the Rock Island track. The wreck of the passenger coach was complete. The list of the killed is:—Mrs. Kelley, J. McKinnie, Fred Hoffner, Mrs. Brown and an unknown woman, all of Washington Heights. Those most seriously injured are:—Gus Malachy, Chicago, fatally hurt; Miss A. K. Siede, Acton; Thea and Parker Harrow, of Washington Heights. Several others sustained slight injuries.

THE DOMINION ILLUSTRATED.
A portrait of the late Judge Sicoite in the Dominion Illustrated for Sept. 22 recalls some of the old political struggles of pre-Confederation years, in which the deceased politician was a prominent actor. The Hamilton cartoonist depicted the two Canadian patriots, the North West and British Columbia are not forgotten. The Dominion Illustrated is doing good work in making known the scenery, resources and progress of the country, and it is well deserving of support.

A CASE SUPPOSED MURDER.
MARMORA, Ont., Sept. 23.—Wm. Emery, Jr., was found dead on Friday near his home in the northern part of Marmora. He is supposed to have been shot by some unknown party, but it has not as yet been ascertained whether it was done purposely or accidentally. An inquest will be held to-day.

GUELPH MARKET.
September 24th, 1889

Successful Buying.
A successful dealer must be a well known one. He must keep his name before the public. He must be up with the times. His stock must be such that if any one desires an article she will say, "It is not at Mr. A.'s there is no use in looking."
To accomplish this he must be known as enterprise, reasonable in price, of recognized taste in selecting goods, and last, but not least, he must ascertain which are the best markets of the world for goods, and buy there.
The manufacturing centres of the Old World are, as every one will acknowledge, the fountain head and source of the dry goods trade. The great London wholesale buyers by their goods there, and later on the wholesale men of Toronto and Montreal purchase theirs in turn from these London houses. Now it will at once be apparent that if by any means the Canadian retailer can arrange to buy his stock from the manufacturing centres, the consequence will be that he will be able to not only undersell the non-importer, but to place before his customers the very latest and freshest goods designed.
These advantages we are now offering our customers the benefit of. For nearly two months Mr. Ryan has been visiting the Old Country manufacturing centres, and writes us that he has placed orders for our Fall and Winter goods at prices which will enable us to convince our customers in the usual practical manner of the advantages of importing.
In the meantime we are anxious to reduce our stock before the arrival of our Fall Goods, and are offering the balance of our Dress Goods, Colored Silks, Prints, etc., at prices to clear. An examination of our goods and prices is all that is needed to convince the most sceptical.
G.B. Ryan & Co., Guelph.
The Leading Dr Goods House.
93 Upper Wyndham St. Successors to Jno. Hogg & Son.

Grand Display of New Goods
THE RIGHT HOUSE, HAMILTON.
COME AND SEE THEM.
An immense stock of new Fall and Winter Goods, Carpets, Housefurnishings and Millinery has been received and is now ready for sale at the Right House. 46 packages opened up this week, making a total of over 100 packages already received this season, and yet this is only a little over one-half of the enormous stock required this autumn and winter for the trade of the Right House. Going direct to the manufacturers and buying in large quantities, paying cash down on the spot for these goods enables Watson to give his customers the extra good value in all goods sold at his establishment. In this department is also to be seen an assortment of new Mantles, shawls and long lengths. Also Badjans, Palatoes and Circulars. Elegant designs in leading shades, also black all-wool Frankfort Cloths, Fossil Serges, fancy Plaids, also fancy checks all bordered and embroidered Dress Robes. One of the choicest varieties of Dress and Mantle Trimmings were imported into Canada. Beautiful Silk Princess, excellent Trimings, Galkons, Gimpes, Ornaments, Fourcous, Epaulettes. See the new Lace Curlette from 75c to \$5.00 per pair. Newest styles of Chemise and fancy marks of Frockers Curtains, Table Covers, Table Scarfs, Drapery Patterns have arrived. Carpet Sweepers, Ornate Poles, Painted Window Shades, etc. Millinery and Millinery Department ready to receive orders. Remember to enter the store east of the carpet window, as many make mistakes and do not get into the Right House. Look on the windows for the name:
THOMAS C. WATKINS.
Hamilton, Sept. 11th, 1889.

Great Millinery Show.
HENDERSON, McRAE & CO.
ACTON.
Our Grand Millinery Display on
Wednesday, 25th September,
Will be open to all comers.
The ladies of Acton and vicinity are specially invited to inspect our display of

ENLARGEMENT
The changes on our second floor give us the increased room on the whole upper part of the adjoining building are about completed. We are now in a position to offer our customers into one of the finest Millinery and Mantle Show rooms in this country. The whole second floor of the two buildings are divided into Dressmakers' workrooms, Millinery workrooms, Millinery Show Rooms, Mantle and Costume Room, Ladies' Fitting Room and Ladies' Parlor and Cloak Room. In the latter Room are provided Lounges and Wash Chairs, which are placed at the convenience of our friends from town and country. Our purpose is not only to provide the choicest and cheapest goods, but to study our customers' comfort and convenience. Still other changes in the place of which we shall give notice in due time.
Cases and Dales of new Fall Goods have been rolling in upon us during the past week and the wonder is who is able to see all our customers into one of the finest Millinery and Mantle Show rooms in this country. They have never seen us before. They are yours, procured for your benefit, and you won't leave them with us. All we ask is come and see our stock and find out the wonderfully low prices, at which we sell first-class goods. Bought direct from the manufacturer for 'cash', is the close to the secret. Here you have it, and as we do it all on credit, you can buy cheap from us.
Hundreds of new Mantles and Delmas. Endless variety of Millinery attractions. Great prices of Ladies' Dress Goods. Grand selection of Black and Colored Silks.
Kid Gloves—We offer three new makes of Kid Gloves, direct from the manufacturer, each pair of which we guarantee. We ask the Ladies to try them. They are lovely goods and will give us more than ever the reputation as being the Kid Glove house of Guelph.
Underclothing—The cold weather put you in mind of it. We thought of it long ago. In the early part of summer we were directed to try them. They are lovely goods and will give us more than ever the reputation as being the Kid Glove house of Guelph.
Every day brings us something new.
