HINTS ABOUT WATCHES. The idea of carrying a watch is that you may know what time it is. If the watch don't keep time, what good is it anyhow? Is yours that kind of a watch? Maybe you have tried to get it fixed up a good many times, and it does not go any better. That must be a nuisance to anybody. New if it was at g. d. pringle's, in guelph, you had it done, and you have taken it back so often you are tired or the job, go to him once more and get the money back you paid him for fixing it. He does not wish to keep any money paid for work which does not give satisfaction. If the real trouble with your watch is that the cases are worn out, so that they will not keep out the dust, it would be best to get a new case, if one can be got to fit the works. It not, pringle, the watchmaker, in guelph will allow you all your old one is worth in exchange for a new one, and will sell you the new one at the lowest cash price. The best watch to buy is an open-faced stemwinder, of any reliable American make and good running ones sell from say ten dollars up. If your watch has run for two years without cleaning, do not let it run any longer as it is almost sure to be wearing away the pivote after that time, as the oil is all worn off. If you have a watch you think a great deal of and want it well repaired or cleaned, or if you have one which ought to go well, and other watch makers have failed to make do to give pringle, in goalph, a try at it. He says in his advertisement that he tries his best see that nothing but good work goes out of his store and with his experience and carefullness it ought to be well done there.

MORE NEW GOODS NEWS.

They keep coming in every day. A little early do you think? Well we are pever the last in any feature of thei mercantile race. But isn't the weather more like spring than winter? People will buy winter goods-a few-if they are thrown before them at such a low price that they can't get past them, and by the way, that's the kind of treatment we are giving our winter goods. 37fc. Dress Goods, for instance, for loc. We are not the people to nang on to stuff. The shelves must be cleared each season. But people are coming in every day looking for "Something New" in Dress Goods, in Prints and Sateens, in Cambrics, Lawns, Embroideries in Carpets Housefurnishings, in Cloths and Clothing, and we are in shape to supply the demand. Do you want a bargain in winter goods? We'll give it to you. Do you want something handsome, with the blash of beauty and freshness upon it? We show you the contents of over 60 cases

coming every day. DRESS GOODS are worthy of speinto stock this week. People talk of advance in prices. You can't see it in these only 5 cents per yard. That's all that need be said. Another line 25 cents, comprising bargain. A line of double width Mohairs at 50 cents very attractive, and much to be worn. A lovely line of double width stripes

Grand preparations being made at the Lion of Guelph, for the Spring Campaign.

Almost every steamship brings us an addition to our stock. Our goods are all bought by our Glasgow buyer who has been in the European markets for the last fifty years and knows all the ins and outs of the trade, He is no mere novice whose knowledge is limited to an occasional visit 'of two or three weeks, but who is as familiar with the-English markets as the average Guelph buyer is with the Toronto market. This is one of the great secrets of the wonderful value always to be
