THE MILL-BELLS.

Hear the mill-bells ringing-ringing! In their belfries swaying-swinging! Harrying -currying-outward dinging On the sir their clamorous call!

Far and near their summons sending. Deafest ear, slow step, befriending. And, with human voices blending. Echoing clear from roof and wall! Tho' the idling world is sleeping, Lo! the busy current keeping

Rhythmic measure, onward sweeting Tuneful tramp and soft foot fall ! Answering back the bells' outleaping In their final, lingering sweeping. And their dring cadence creeping. Hamming. " Coming one and all."

The most common cause of disease is obstructed perspiration, or what commonly goes by the name of catching cold.
