NOTES AND COMMENTS. Reports from Ottawa indicate that some quarters an early session of Parlia

ment is expected. The report of the secretary of the Johnsown Flood Relief Commission shows that the total amount received from Canada for

enter of May 31st, 1889, was \$8,254,46. England and France have, so a London cablegram states, demanded indemnity from the Argentine Republic for the property of subjects of those countries to the value of \$10,000,000 destroyed by the recent bomb ardment of Buenos Ayres by the rebellion navy. The combined fleets of England and France, it is stated, are to assemble at Buenos Ayres to support the demand if

The Guelph Council is about to pass a by law, whereby after the present year the follows :-School Board will collect their own taxes. The object of this change is to arouse a more general interest in the business and Mr. Dynes says he'il put them in for fifty expenditure of the Board, it being thought that if the people said their school taxes separately, and were thus made plainly sware of the amount asked for that purpose they would become more alive to the importance of educational matters and their

The population of Canada is estimated at 5,000,000, an increase of nearly 700,000 ten years. A hundred years ago the population of the United States was 2,929,000; that of Canada 156,000. In 1861 British Columbia had 6,000 people, in 1881 the population numbered 49,459. These figures show that Canada has grown proportionately at a laster rate than the United States. She has increased thirty-two fold, while the United States has increased sixteen .-N. Y. Belletis.

With whiskey at 10 cents a drink who will say this is a chean country to live in Three and a half glasses of whiskey for a bushel of barley! The ron beel of monopoly is being placed upon the neck of a good many funnels. The demand for open trade with Americans would now be declared good, only that whiskey is 10 cents over there too, and not as good whiskey either. As it is a good many of us will have to exist on half as much of the "necessaries of life" as formerly, or else do with less potatoes, flour and meal, which latter plan we doubt not a good many will adopt .-Whitby Chronicle.

The judgment delivered by Mr. Justice MacMahon in the Common Piess Division of the High Court of Justice on Saturday removes all legal impediment to the contemplated change of the location of Victoria Eniversity from Cobourg to Toronto. It is not improbable that legal proceedings will now end, and that the matter will b left to the final decision of the General Conference. Should that be the case, the Methodist Church is to be congratulated upon deliverance from a disagreement which, if continued, must have ultimately resulted in unseemly heartburnings and weakness to the body corporate.

The cry for postal concessions by clamsurous applicants in various parts of the world is still heard. They are now asking for ocean penny postage. Mr. Raikes, the British Postmaster-General, has declared the present loss on the colonial postal service at £254,000. Of this, however, no less a sum than £167,000, of nearly twothirds, is due to the East and West India packet service. It is estimated that a universal penny poetage would cost Great Britain 2400,000 annually. But such a to the commercial relations between the each; Dr. Rosebrugh, \$75; Col. The property-holders of Toronto voted last week on seven money by-laws aggregating \$729,253. Only two were carried-one granting \$20,000 to the establishment of a Girls' industrial school and the other granting \$20,000 towards enlarging the Boys' industrial school at Mirrico. The defeated by-laws were: Toronto university \$200,000. Howard Memorial \$10,000, parks improvements \$79,240. Waterworks \$229,780, and general improvements \$160.233. The feeling is strong here in favor of a more enlightened and liberal policy towards the neglected children of the city, many of whom are growing up among the criminal

In a recent lecture in London Mr. Stanlev made a somewhat remarkable state. ment. If has been supposed that, in establishing Christian missions in Africa. the greatest opposition would come from the Arabs, who have carried with them the religion of Mohammed, and made the work of the missionary difficult. Mr. Stanley, however, says that such is not the case. He claims that Christian missions have nothing to fear from the Mohammedan quarter; but that the strife between Protestant and Roman Catholic mission aries will form much greater biodrances to the advance of the Christian faith among the native tribes of Africa.

KILLED BY THE BINDER. Welland Farmer Killed by the Labor Saving Machine.

WELLAND, Aug. 8 .- Mr. Fred Rounds son of Mr. O. H. Rounds, one of our oldest and best known citizens, lost his life to-day in a very peculiar manner. The last seen of Mr. Rounds was by Mr. J. Phelps, who was talking to him at 11 o'clock this morning. At that time he was engaged in cutting oats with a self-binder. After the dinner hour his wife, becoming uneasy, went out to the field and to her horror found the crushed body of her husband inextricably fixed in the binder. It is supposed the unfortunate victim was thrown backwards by the breaking of the seat and retained tried to force her to get in. Her brother his hold on the lines. The horses then backed the large wheel over him, killing him instantly. The deceased was well known and universally liked in the vicinity He leaves a widow, but no children.

ACTON MUNICIPAL COUNCIL The First Step Taken Towards the Striking of the Rate

Council met on Monday evening. Members present, the Reeve and Counllors, Lowry, Kenney and Smith. The minutes of bast meeting were read and confirmed.

The committee on Finance presented their tweifth report recommending payment of adcounts as follows :-Edward Dynes, work on street Adam Cook gravel and bauling. Luther Lyman, on account street lamps . 27

L. P. Moore, printing .

Moved by W. H. Lowry, seconded by W E. Smith that the report just read be adopted .- Carried. An account from Luther Lyman giving a statement of account for the pest eighteen

months was presented showing a balance in his favor of \$17.97 up to July 22nd. If was laid over for cousideration. The plan of employing four or five men work together at repairing sidewalks, the relief of the sufferers by the great disetc. was complained of and condemned generally by members of the council.

Is was stated that ratepayers complained that while two men were at work the three others were usually putting in their time giving directions. The Reeve .- I tell you gentlemen, unti

the municipality will employ a paid street commissioner this thing will obtain. I would pay the Council to have a street commissioner, pay him a fair remuneration and rush the work through in two or three

Councillor Kenney .- Well, if the council would give me and Mr. Smith a \$1,000 a ear, we'd soon make the town shine. Councillor Smith .- I was down ito filion yesterday and their streets an sidewalks are very bad. They should come up here and take a look at ours. Acton is

in much better condition. The business of the evening then proceed. ed quietly for a few minutes when Councillor Smith addressed his fellow-member og the street and ridewalk committee, as

Oh, what had we better do about getting in them new street famps, Mr. Kenney?

Conneillor Kenney .- We'll pay no such money for that job. I'll get them in for five cents spiece if I have to dig the holes myself. I'm not going to stand round and see the town robbed in that way. I'll do my daty. I don't care wherein it lies or who don't like it and be feady to step out

Desconesses are an old institution. They did good work in the early Church, but in the fifth century discappeared. In 1888 the order was revived by a Lutheran pastor in Prussis, and in 1875 there were in Europe no fewer than 1,700 sisters. Since then the Presbyterians and the Methodists in the United States, and the Anglicans the world over, have employed desconesses. The daties of a desconess are numerous. THE BREAK AT THE SAULT. Cost to The Country of The Damage And Delay.

SICLT STE. MINIE, Aug. 9 .- The greatest number of vessels that congregated here at any one time is 182. The total number of vessels delayed from the time of the break at 4 o'clock p.m. of Thursday of last week. until 0 o'clock a.m., on Thursday of this week, when the lost time was fully made up, 265. The lock was impassable for just 88 hours. The total cargo of the 265 delayed vessels amounted to 248;484 tons, and the number of passengers delayed is 1,362. of which 1,302 were tourists and 60 local. The greatest number of vessels locked 14 days. through during any 24 hours is 92. The average time for which the total of 263

vessels were delayed is I day 16 hours and stream. spend a few weeks with friends at Strat- 32 minutes. The delay has resulted in the Sault Canal becoming a household work for the time, and will no doubt exert i powerful influence in the direction of benefical national legislation. of Death at Auburn. N. Y. ACECRS, N. Y., August G .- William Kemmler was electrocuted at 6.30 o'clock this morning. The current was kept on the first of the week after spending a couple | for four and a half minutes. The first contact was fifteen seconds. The current was kept on the second time until the body fumed and gave off unpleasant odors. After the first contact Kemmler appeared to revive, but the doctors say he had no consciousness. Dr. Spifzka the celebrated expert, said after all was over, the experiment was a failure, and that this would settle electrocution. There will never be another electrocation, he said. The doctors unite in the belief that the death was painless, and that all consciousness was destroyed at the moment of contact. The sight in the execution room was sickening. At 7:30 the witnesses left the room under agreement to return at 8:15. She autopay

Extraordinary Catches by the Canneries This Season. OTTAWA, Aug. 12 -The Minister of Ma. rine and Fisheries has received a telegram from a departmental officer in British Columbis which states that the run of salmon this year is of a most extraordinary character, being fully equal to last year. Twenty thousand salmon were taken by three canneries yesterday. This year's run upsets all the theories previously held in regard to the salmon. Heretofore one good season has invariably been followed by two poor ones. Last season was the best the salmon canneries ever had, and if the total nack this year is as large the old rule will not apply. The only reason that can be sesigned for the increased run this year is that the effects of the good work done during the past four or five years at the Government fishery hatchery on the Fraser river are now beginning to manifest themselves. They sell so cheap, it is really funny,

Because they say to draw at sight.

Other merchants can't buy so cheap,

Because they don't go in so steep, They sell on tick, their money is out,

And do you think I have the stuff.

Of which few if any get enough,

To buy a suit from head to toes, .

If not, I'm here as grab for crows.

I'll tell you'in the next two verses.

If I ain't good-looking I have conceit

That I can pay for what I wear and est,

For credit is one of the greatest curses.

I look like a man that's chased by dogs,

Oh worse than that, they were really hogs,

They charged two prices for their goods,

They chased me to the very woods.

KELLY BROS.

And they've to mind what they're about.

What a lot you get for a little money ;

They sell for cash, and buy goods right,
