NOTES AND COMMENTS. The Brandon Wail is to be turned into a joint stock company, Editor Cliffe taking about one-half the stock. The sum of \$10,000 is wanted for the whole business.

"The most recent statistics of arrest for dronkeness in Maine in any one year shows four arrests to every 1,000 of the population. There is not a wholly licensed Stafe in the Union in which the arrests for drunkenness in any year are not many times as great.

The strike on the New York Central railway, which has been over for some time so far as the company was concerned, is now admitted to be at an end by the men, who are applying to the company to be re-in stated. It is said the company is exacting from all its employees a pledge that they the 13th. shall not join any labor organization.

It was the mistress of a French king who said contemptoposly that Canada was only "a few arpents of snow." To the people idea of Canada concealed somewhere in is practically at an end, the contractors their skulls, it will be news to learn that baving secured all the help needed from neither Dakota nor Montana, where snow outside. has already fallen to the depth of four inches, is in Canada,

. A meeting of Dakota farmers has sent delegates to Manitoba to prepare for a general migration, which they declare is forced upon them by the distress to which they have been reduced. Many of them are such an impoverished condition that they cannot move without some assistance, and if possible, some plan should be devised for affording the needed aid. They would make valuable settlers.

In Massachusetts the enforcement of an old statute forbidding the sale of liquor at a bar has been proceeding for some weeks. The regulation requires that the liquor shall be served at a table and that some article of solid food must be ordered at the same time. Those who are opposed to the law, already declare that it has failed, but the experiment has hardly been tried long enough to make sure of that.

Canada consumes nearly twenty-seven million bushels of wheat and about two million bushels are required for seed. Last year we only produced 27,600,000 bushels; so it was necessary to import into this agricultural country 1,500,000 bushels. This year the conditions are more favorable. It is estimates that we have grown 40,300,-000 bushels and that as a consequence we shall have 10,325,000 bushels to export.

Mr. Joe Hess, the temperance evangelist who did such effective work in this Province last winter and the early part of the spring, and who has been summering at his home in Clarendon, N. A steamer arrived at San Francisco a dants few day ago with a catch of 42,000 seals from the coast of Siberia which is about three times the number secured by the North American Company, which now has the lease in Alaskan waters. It is evident, therefore, that ladies may still be able to wear seal sacques although the seal becomes extinct in Behring Sea in two or three years, which the present rate of destruction leads some prophets to predict.

The San Francisco Chronicle says that 62 children-forty fix boys and sixteen girls have committed suicide in the city of Berlin since the 1st of January. The Chronicle puts this sail state of things down to the excessive sternness of German parents, gnardians, and school teachers, induced by the spirit of militarism which pervades Germany. The result of the severe discipline of the young no doubt has its effort in the being taken to the bospital. reverence for law which prevails among the inhabitants of the Fatherland, but it is a sad thing if it leads to wholesale stucide on the part of the young in order to escape

On of the last exploits of the United States Senate before finishing with tariff bill was to clap a duty of twenty cents per gallon on Maple syrup. Another amendment made at the last moment is also of some interest to Canadians, that, namely, providing that imported merchandise depositited in any bonded warehouse prior to Angust 1st may be withdrawn for consumption any time prior first of November on payment of the duties prescribed by the existing law. Under this provisio all goods imported prior to August 1st now in hand may be retained there until November without being liable to the increased rates of the new tariff.

country and Canada spent some time on Friday last examining products of Manitoba at the Toronto Exhibition. Mr. Tripp states that over 2,000 barrels of flour are imported weekly in Trinidad, and this is all American. He thinks it ought to come from Canada, and believes Manitoba flour is just suited to that market. He wishes to arrange for a permanent exhibit of Manitobs products to be sent to Trinidad, promising that if sent the authorities there would look after it. Flour, cheese, oats, and oilmeal are amongst the principal agricultural products imported.

WOODSTOCK EXCITED. nother Body Found Near the Town but it was Soon identified.

Woodstock, Ont., Sept. 16 .- Woodstock people were considerably excited over what | neighborhood. they supposed was another murder mystery this afternoon when the body of a man was found in Burgess' woods, about a mile | One Indian Killed, Another Badly from town. It proved to be that of a man by the name of Dan McKay, a laborer. He was supposed to have been subject to epileptic fits and it is the opinion of the coroner that it was in one of these he died. He was about 35 years old and a son of David McKay, carpenter, of Paris. De ceased was well known in Woodstock having been brought up here. He was in town Saturday and is supposed to have died on Sunday. The deceased had brothers and sisters working in Penman's factory, Paris. He was easily identified, as he had a crooked leg from falling many years ago off a barn near this town. He was formerly employed by Mr. E. W. Chambers, a farmer south of Woodstock, who was one of those who identified the body. No inquest has been thought necessary.

The train was made up of two coaches and a number of fiat cars, with seats arranged to accom monate passangers. About 200 Masons and their families went to make up the excursion party. As the train was passing point near Elk Creek, twenty-eight miles from Deadwood, a large pine tree which had caught fire from a passing engine, fell striking the last car, which was packed with human freight, killing two people and

HIS FATAL MISTAKE.

Another Farmer Puts out the Cas and is Smothered.

A respectable farmer, named James Buchanan, who went to Toronto on Monday to see the Exhibition, was suffocated by gas in Mrs. Bond's, 142 York street, the same night. He applied for lodgings at the Wilson house, but all the beds there were occupied, and he was directed to Mrs. Bond's, who put him up for the night. In the morning the hostess became alarmed when her guest did not make his appear ance long after the rest of the family were up, and finally she called in P. C. Black, who broke open the room door. The sight policeman was wounded and the burglar | which met the officer's gaze was appalling. Mr. Buchanan was lying on the bed quite dead, and the room was full of gas which was escaping from the jet. The dead man was clutching a lamp chimney which he had evidently snatched off a lighted lamp in the room, and the fumes of the burning wick were almost unbearable.

BEGGING FOR WORK.

The New York Central Strikers Anxious to be Re-instated. ALBINT, Bipt. 18 .- Superintenent Bissell was sadly worried to day when he returned to his office from West Albany and found aged mothers pleading for their

striking sons, and wives pleading for their striking husband's re-instatement. With Agricultural College and the sub-committee one accord, they all said starvation was staring them in the face, and that they were themselves compelled to seek the dulgence of the company to give their sons and husbands work, as the latter were either afraid or ashamed to do so themselves, but even they could not hold out much louger. Superintendent Bisseli's office and the hall leading to them were crowded all day | and upset it upon Mr. Armstrong.

with strikers wishing to return to work. One man would sometimes speak for four or five of the Knights, and it is estimated that 205 men to-day asked to be re instated. They received no satisfactory answer, however, but their names were taken and they were told they would be notified when their services were peeded. As far as the road is concerned the strike bas been over for several weeks. Now, to all appearances, as regards the men it seems to be over also. During the past week according to a re-instated Knight, all of the road's employees in this vicinity have been asked to sign apaper which exacts with them a pledge that they shall not go out ou strike, nor shall they belong to any labor organization which has the authority to order them out on strike as a body. Nearly all the men now employed by the road have signed the

Several Prominent Farms. Graten, Bept. 18 .- The British Farmer Delegates spent a profitable day here to-day They were accompanied to the city by Mr. H. B. Small, of the Department of Agri culture, Ottawa, and Mr. A. Blue, Deputy Minister of Agricultural for Ontario.

On arrival they immediately drove to the Ontario Agricultural College, and the principal features of the farm and the cream ery were examined, after which they were entertained at lunch.

Ample justice was done to the lunch, and after the toast to the Queen was duly bonored, Prof. Shaw proposed the health of his guests, the British Farmer Delegates, and expressed the great pleasure he felt at their visit to the college, short though it was. The tosst was received with enthusissm, and was responded to in short peeches by Colonel Fane, Messrs. Speirs. Edwards and Murphy, who expressed their pleasure at having an opportunity to visit such a fine institution, which was a credit to the Province.

The party then, under the direction Prof. Shaw, examined the college building the barns and other outbuildings and the farm, with all of which they were more than satisfied, and so expressed themselves. The delegates left by the 6.20 p.m. train for Toronto, carrying with them a most favorable impression of Guelph and its

STRUCK BY A TRAIN.

Hurt and a Third Arrested. Kugiri Fills, Ont., Sept. 14 .- Last night at 7.15 o'clock three Indians walking on the New York Central tracks, about mile east of Suspension Bridge, N. Y., were struck by a westbonnd express. One of the trio, Joseph Harris, who hails from Opendage, Ont., and who lives on the Indian reserve on the Grand River, near Brantford, died from his injuries shortly after two o'clock this morning. His skull was fractured and the right foot severed from his leg. Peter Green of the Tuscarors tribe, living up the Indian reserve near Lewiston, N. Y., had his left leg cut off below the knee, the jaw broken and sustained several wounds on the head, and but slight hopes are entertained of his recovery The third, Cyrus Jacob by name a youth of 18 years and who lives near Syracuse, N. Y., escaped without injury. He has, however been arrested. All three were Residences. very much intoxicated at the time.

BIRCHALL CONFIDENT OF

ACQUITTAL. Notwithstanding the fact that Birchall will have to appear before Mr. Justice Mc-Mahon on Monday next, he shows no signs of pervousness and is as cool and collected when discussing the case as when he was first arrested. He spends his time reading and painting and often freely enters into a discussion with the officials, as to his chances of being acquitted. He says he is confident of acquittal, and as soon as his trial is over be will sail for England with his wife to reside there in fature, accepting probably a position in some theatrical company.

The Crown does not intend to bring up the indictment found against Mrs. Birchall for being "an accessory to the crime after the fact," and therefore if the appears in court at all-as it is likely she will-she will not be present as a prisoner, but merely ss & spectator.

Asiatic Choiera in Ohio.

Cannotrox, Ohio, Sept. 15 .- An epidemic has been raging in the eastern part of this county for the past week, and many deaths have resulted. On Wednesday six deaths occured. It was claimed by some to be typhoid fever. On Friday Dr. Williams, of this place was called to the house o John Toole, of Washington township, who was taken ill that morning. He died at four o'clock of cholers, after intense spasms and frequent fits of vomiting purging and other symptoms of that discuse. Dr. Wil-Williams pronounces it a genuine case of Asiatic cholers.
