NOTES AND COMMENTS.

Birchall is the son of an English clergyman, as is also Mr. Oiler, the counsel for the crown, while Mr. Blackstock, the counsel for the prisoner, is the son of a Methodist clergyman. The everyday proverb, that ministers sons are reprobates seems to fit Birchall very well, but whether or not it is equally applicable to the lawyers we will leave it for someone else to say.

Mr. John Macdonald stated at the Conservative picnic at Halifax last week that there would be no dissolution this year nor perhaps next year. Sir Hector Langevin also stated Wednesday that Parliament would not be summoned until the first week in February, and that there would be no general election until after the census returns had been received and two more sessions held, that, in fact, the elections would not take place until March, 1892.

Michigan, Indiana, Massachusetts and New York have all recently passed statutes giving the State power to take under its control children who are neglected or ill-treated by their parents. This is the dawn of a new day, and will be a great step towards the prevention of crime in the next generation. The State ought to exercise care over the uncareful children for the same reason as it ought to keep noxious weeds down, and exercise proper sanitary precautions.

The Winnipeg people are hoping that the Grand Trunk will soon be at their doors. In Halifax there is the same desire. Sir Henry Taylor, when visiting the latter city, was interviewed by prominent men who expressed their anxiety that the great trunk line should find its eastern terminus at the Nova Scotia capital. Sir Henry replied that he also looked for this consummation through the completion of the Transatlantic road to Montreal. When the Grand Trunk can run through to Halifax, Sir Henry says Halifax, instead of Boston, will be the winter port for the Allan steamers.

The general board of Methodist missions has fixed this schedule of salaries: For married and ordained ministers in cities and towns in Manitoba, \$900; single and ordained, \$500; unordained, \$450. In Newfoundland, \$500, \$450 and \$400 for the three classes respectively, and in British Columbia \$5,000, \$4,000 and \$3,000. In the domestic mission fields they fixed the standard at \$750 for ordained and married ministers; single ministers, \$400, and for unordained workers, \$350. The total sum available for missions was announced as \$300,000. Of this \$33,000 goes to the work in Japan, \$16,000 for India, \$33,000 for the Chinese work in British Columbia, and \$4,000 for the French work in the Montreal Conference.

The prohibitionists of the United States are this year forcing the question. In addition to the ordinary local work they have contributed nine thousand dollars from outside of the State for the contest in Nebraska, where next month a vote is to be taken upon two constitutional amendments. The first makes prohibition a law of the State; the second is a proposition to make license the constitutional method of dealing with the liquor traffic. The simultaneous vote upon these two amendments has never occurred before, and was brought about by the political friends of the saloons so to confuse the electors. The temperance workers realize that the fight to carry Nebraska was and is an uphill one, but they are by no means despondent. One of their most telling arguments is the fact that the State and county taxes in high license Nebraska average eighty per cent. higher than those of prohibition Kansas.

Lord and Lady Aberdeen who it was stated came to Canada for a few months rest have had little of that since their arrival. They were invited to attend nearly all the large fairs in the sister province winning golden opinions from our people, by their simplicity of manner and kindness of heart. At the Ottawa exhibition the Earl in his address on trade matters incidentally referring to the McKinley bill, pointed out that the Mother Country did not look with much approval on its general provisions. This did not arise from selfishness, but because it was realized that there was a strong identity of interest and sympathy with Canada and the other colonies in the matter. His Lordship in all his addresses shows himself a most observant, practical and experienced administrator. He sees with the eye of the trained statesman the great future that lies before Canada and is prepared to take his part in advancing the scheme of closer trade relations between Great Britain and her vast colonial possessions.—Star.

LOCAL OPTION.

A Campaign for Prohibition in East Lutherville Township.

GRAND VALLEY, Oct. 6.—An important movement was inaugurated here at an interesting meeting on Saturday evening. This village is part of the Township of East Lutherville. When the Scott Act was repealed in the county of Dufferin the Townships of Amaranth and East Lutherville recorded majorities in favor of the law, but the anti-majorities of other places swamped their vote, and now license is in operation in both townships. The local option measure enacted at the last session of the Ontario Legislature seemed to offer a remedy for this condition, and the Saturday meeting in Hamilton's Hall was called to discuss this question. The local council of Royal Templars had arranged for the meeting, and while the audience was gathering in the council hall made the rafters ring with stirring protestations and choruses. Dr. A. C. Gavigler, rector of the township, presided, and was supported by an imposing array of prominent residents. Representatives from adjoining townships were at the meetings yesterday and the day before, and it is probable that in East Lutherville a number of other counties are certain to follow. The local option is proving hard and an excellent success.

SUCCESSFUL EXHIBITION.

Without either Government or Municipal Grant Acton Again Wins Success.

A FINE SHOW WELL ATTENDED.
When those interested in Acton Union Exhibition looked out on Tuesday morning and saw the rain pouring down in torrents it was generally concluded that the show this year could not possibly be a success. The result of the two days' events did not, however, justify this conclusion, for the exhibition of 1890 has been a most unequalled success. The attendance on Tuesday evening was about the same as last year, while that of Wednesday considerably exceeded it. The weather of the second day was glorious and the thousands who came for a day's outing thoroughly enjoyed themselves.

THOROUGH-BRED BREKERSHIRE.
The show of stock was very fine. A better exhibit of horses has never before been here and this was particularly the case in the agricultural class. The show of cattle was up to the average, while in pigs the classes were well filled and uniformly good. A fine lot of Leicester sheep were exhibited and a few entries of superior Cotswold and Downs. The poultry exhibit was unusually creditable.

EXHIBITS IN THE HALL.
The total destruction of the buildings in the exhibition park in July rendered it necessary to utilize the drill shed for the purpose of exhibiting. But as this is considerable distance from the park the exhibition lost its former compact character and as a result the hall exhibit was not equal in all respects to that of last year. Notwithstanding all this the exhibition was in no way discreditible.

The ladies' department was not so crowded as at the last fair but the articles were up to the usual standard of excellence. A criticism of the thousand samples of feminine ingenuity by any but a lady reporter would be out of place, for at a dozen points any other would merely make a display of his ignorance. The entire north end of the building was devoted to this section. The old-fashioned top cabin quilt was shown alongside the gaudy invention of the crazy quilt. The hooked mat and rag carpet were shown as heretofore. Arrangements, creases, ribbons and applique work were shown in dazzling variety and the placier work was equally well represented. The display of fine arts made a very lively corner in the big hall and came in for critical inspection.

The good housewife of this section were to the fore with the products of dairy and kitchen and their exhibits in the several classes of society and special prizes were numerous and attractive. The manner in which some of the "fancy" butter was shown was very tasty. In home-made bread there were a number of entries as also for jelly cakes, and if the judges among the exhibit they must have absorbed a fair sized lunch. Judging in these two lines is a difficult matter and always unsatisfactory to those who fall in with prizes. Fruit was good and fairly well represented in each class.

The grain sample was splendid—of good color and plump. The new two rowed rye commanded considerable attention. Hops and vegetables were exceptionally fine. In the horticultural department the exhibit was much superior to that of last year, and some good collections of house plants were shown.

The following is the list of successful exhibitors:—

TO BE HANGED ON NOV. 18.

Day: the Niagara Falls Murderer, is Doomed to Die.

MURDER WILL OUT.
Wallpaper, Oct. 8.—Another example of the speedy and effective character of Canadian justice was given here today in the trial, conviction and sentence of Arthur Hoyt Chamberlain Day, the Rochester porter whom July 27 last he shot his wife, and pushed her over the precipice near the wharf, elevated station.

The trial was held before Mr. Justice Rose and a jury at the Welland Assizes. The trial opened at 10 o'clock and within twelve hours Day had been convicted and sentenced to be hanged on Tuesday, Nov. 18, four days following the time fixed for the execution of Ben Birchall, the other foreign murderer who sought Canadian soil on which to perpetrate his crime.

The prisoner has maintained a cool demeanor throughout his trial. He is rather good looking and dresses neatly. During the progress of the trial he sported a bouquet of daisies in his coat lapel. Day comes from a very bad source, however. Nearly every member of his family has been convicted of crime. He has three brothers, all of whom are ex-convicts.

The principal witness against him was his sister, Mrs. Quigley. The presence of a motive was clearly proven, as it was shown that on July 15th Day had married another woman named Mary A. Brien at Canadaville under the name of Arthur Hoyt. The latter obtained knowledge of the previous marriage, and the crown claimed that it was to prevent being convicted of bigamy that he "removed" his wife, who before her marriage was known as Deborah Chamberlain.

In addition to the story given in evidence by Mrs. Quigley and published below, the woman states that when her brother's crime happened his in his sleep he would cry out, "There she goes."
After sentencing Day Mr. Justice Rose said he would make the case a reserved one, owing to Day's counsel having taken exception to the admission of certain testimony.

MANY A LIFE

It has been saved by the prompt use of Ayer's Pills. Travellers by land or sea are liable to constipation or other derangements of the stomach and bowels, which, if neglected, lead to serious and often fatal consequences. The most sure means of correcting these evils is the use of Ayer's Cathartic Pills. The pills are so gentle and so effective, that they will not only relieve the bowels, but will also act as a tonic and a stimulant, and will improve the general health of the system.

For eight years I was afflicted with constipation, which at last became so bad that the doctors could do no more for me. Then I began to take Ayer's Pills, and soon the bowels recovered their natural regular action, so that now I am in perfect health.

My health is now in perfect health. I have been cured of my constipation, and I feel that I owe my recovery to the use of Ayer's Pills. I have been cured of my constipation, and I feel that I owe my recovery to the use of Ayer's Pills.
