NOTES AND COMMENTS.

It is understood that the next session of the Ontario Legislature will open in the latter part of January.

The pile in the Government Savings Banks is steadily failing. During the month of October the withdrawals amounted to $546,391, while the deposits were but $225,834.

The marriage license fee in Quebec is $8. As a lower charge is made in the United States, many couples living near the boundary line cross the border to get united. In all probability the Quebec charge will be reduced to meet the foreign competition.—*Mail.*

The prospects of a Canadian egg and poultry trade in England are described by Mr. Saunders, who was sent over by the Government to look into them, as being very promising. The Government is to be commended for the efforts it is making to find new markets for Canadian products.

By consent of the medical faculty of the University of Toronto, and through the liberality of Mr. W. Mulock, M.P., vice-chancellor, Prof. Ramsay Wright, M.A., B.Sc., left on Tuesday for Berlin, Germany, to learn all that is to be learned in regard to Dr. Koch's great discovery for the cure of consumption.

At a meeting of the Chamber of Commerce last week in Liverpool Sir. George Baden-Powell, M.P., said that the new United States tariff law had given a great impetus to Canadian industries. He thought Canada was wise in developing her overseas trade. In speaking of her valuable natural resources he said that Canada offered many opportunities for the investment of British capital because he believed there would not be the financial vagaries there that had characterized American government and legislation.

About half of our lady readers—particularly the little girls, are, we presume already much preoccupied with the subject of Christmas presents, and all sorts of pretty things are being devised and some of them are already being made. The things that are to be bought are not, as a rule, alluded to quite so soon, but the choice is already being made. Already the shop windows are being studied with a new interest and the advertising columns scanned with more of purpose than usual. Those advertising are acting wisely who are already in the field and who are sowing the seed from which they hope to reap within a month. It takes a little while for an idea to germinate and the idea which is planted first has the best chance of coming to maturity.—*Witness.*

This is not an "off year" in a national sense, for it is the year of a Congressional election, and the general interest was not less than in a Presidental year, although there was not so much picturesque incident. It is the year of reckoning with Republican abuse of power—an abuse shown most flagrantly in the contemptuous treatment of the minority in the House, in the monstrous excesses of the tariff, and in the flagrant defiance of official honor and honesty in the Republican campaign in Pennsylvania. The election has demonstrated anew the political health and vigor of the country. It has shown that there is a patriotic spirit superior to party spirit, a conservative independence strong enough to resist the dragooning of party, and to stand fast for wise and honest conviction.—*Harper's Weekly.*

The *Canadian Manufacturer* says:—We protest in the name of self respecting Canadian manhood against the whining indulged in by the *Empire* anent the American ownership of Canadian nickel mines. To judge from some of its utterances one might suppose that the Americans who have become possessed of these mines had obtained them in some surreptitious and dishonorable manner, and that Canada had been over-reached and cheated in the transaction. Nothing could be further from the fact. As we understand it, the mineral regions of Canada were open to whoever might desire to prospect them. They were prospected, and if these deposits were not discovered and secured by Canadians instead of by Americans, it was not because the Americans had resorted to any illegal means to prevent it.

The Department of Agriculture has received advices from the government sanitary bureau at Washington that cholera is epinemic in Japan. In the province of Nagasaki, between September 12th and 21st, there were 136 deaths, making in all from the outbreak of the epidemic 2,171 deaths and 3,328 new cases. In the province of Osaka, during the three weeks ending September 22, there were 3,336 deaths and 3,833 new cases. The outbreak is represented to be of a very virulent form. The disease is also prevalent in the Corean islands, the deaths up to the end of September having reached 8,000. This intelligence is of the gravest moment to the people of Canada, in view of our increasing trade relations with the empire of Japan, and it calls for constant vigilance on the part of our quarantine officers on the Pacific coast.

HALTON ELECTION TRIAL.

The hopes of many of the citizens of this county, who concluded that with the dismissal of the petition against the return of John Waldie, M.P., at the election trial a few weeks ago, the county would be allowed to settle down to its normal condition and hear no more about protests and trials for a month or so at least, have been frustrated. The leaders of the Conservative party in the county claim that the decision, in the face of the evidence adduced, is unfair, and have instituted an appeal from the judgement of Chief Justice Armour. The necessary deposit has been paid into court and the appeal is to the Supreme Court of Canada. The Chief Justice of the Supreme Court announced on Monday that when the Quebec list, now before the court, has been concluded the court will adjourn to some day in December, to be fixed hereafter, for the purpose of delivering judgments, and that the Ontario list would in consequence be held over until after the Christmas holidays. We understand, however, that as the Halton case will be simply an argument on the points of law—no new evidence being permitted—it will occupy the attention of the court for but a short time and pressure will be brought to bear to secure the decision of the court before the holidays.

DEATH OF J. B. FREEMAN, M.P.

The Well-Known Liberal Whip a Victim of Typhoid Fever.

SIMCOE, Nov. 23.—John B. Freeman, M.P.P., for North Norfolk, died at his home here yesterday from typhoid fever. Mr. Freeman was one of the most prominent men in the Local Legislature outside of the Cabinet. Since 1882 he has acted as "whip" for the Liberals and in this capacity was well known. He was a very genial gentleman and as popular with the Conservatives as with his own party. Mr. Freeman was descended from U. E. Loyalist stock, his maternal grandfather having been driven from the United States by the revolution. He was born in the township of Windham, Norfolk County, on Aug. 22, 1835, and was educated at the county grammar school there. In 1861 he married the daughter of the late Thomas Scotchard of Wyton, Middlesex County, by whom he leaves a small family. For years he occupied a prominent position in the Windham Township Council and in 1879 was nominated by the Liberals to contest North Norfolk. He had an easy victory and was again subsequently returned at the general elections of 1883, 1886 and 1890. Mr. Freeman has been ill for the past few days with typhoid fever and his death was not unexpected.

THEY WILL BOTH HANG.

Blanchard and Lamontagne to go to the Gallows in December.

OTTAWA, Nov. 17.—The Governor-General has carefully reviewed the evidence taken in the case of W. W. Blanchard, now in Sherbrooke jail, sentenced to be hanged on the 12th Dec. for the murder of one Calkins, as well as the report of the judge who tried the case and the memorandum of Sir John Thompson to the Council, recommending that the law should be allowed to take its course, and Lord Stanley has come to the conclusion that justice has been done and he cannot interfere. Blanchard will be hanged on the 12th of Dec., within the precincts of Sherbrooke jail. On Dec. 19th Remi Lamontagne, for the murder of his brother-in-law, will be hanged in the same place. His Excellency, for the same reasons as in Blanchard's case, will not interfere with the sentence. Two other cases have yet to be disposed of.

Dr. Mockridge's Teetotal Principles.

TORONTO, Nov. 25.—The monthly temperance meeting of the Church of the Ascension was held in the school-room last night. Rev. H. G. Baldwin, rector, occupied the chair. The address of the evening was delivered by Rev. Dr. Mockridge, late of Hamilton, now assistant at Holy Trinity in this city. For 20 years, he said, he had not tasted liquor, even as a medicine. It was only as such that liquor was any good at all and then only in rare cases. The harm done by it was widespread. He urged his hearers to abstain from strong drink altogether.

SUICIDE AT COBOURG.

COBOURG, Nov. 20.—W. A. Taft, aged 34, who was until recently employed as a bar tender by John F. Scholes, Yonge street, Toronto, suicided here Tuesday by taking rat poison which he ate with an apple. He took the stuff in the morning, but it did not work quickly, except to cause him terrible agony, and at night he told what he had done. A doctor was called in but it was too late.

Taft came here a few weeks ago to visit his brother. He has been in poor health and had grown very despondent.

THE ACT UPHELD.

The Manitoba Legislature has the Right to Abolish Separate Schools.

WINNIPEG, Nov. 24.—The most important judgment ever given in Manitoba was delivered by Judge Killam to-day in the celebrated appeal of the Roman Catholics against an act passed by the last Legislature abolishing Separate Schools. The act was sustained. The case will be appealed to England, as the Catholics will not be satisfied until a decision is obtained there.

Didn't Know it was Loaded.

TORONTO, Nov. 24.—On Saturday night James Allison, the sixteen-year-old son of James Allison, the well-known merchant tailor, 264 Yonge street, accidentally shot himself at the family residence, 52 Murray street. The boy was examining a revolver, evidently thinking its chambers were empty. One cell, however, contained a cartridge, and in snapping it, the muzzle was unfortunately pointed towards the lad, and the bullet was discharged into his head, causing death in a few minutes.

Mangled in a Threshing Machine.

TEESWATER, Nov. 25.—A fatal threshing machine accident occurred about five miles from here last evening. Thomas Smith, a young man about 24 years of age, son of Mr. Bleakney Smith, was standing on the cap of the cylinder cleaning up, as the threshing was about done, when the cap broke and let him into the cylinder. The poor fellow was dreadfully mangled and died four hours afterwards.

Wife-Murderer Day's Case.

WELLAND, Nov. 25.—The final hearing in the case of wife-murderer Day takes place at Toronto to-morrow, and W. M. German, barrister, left this afternoon to argue the case. Day has strong hopes that he will be set free. Failing in this motion he hopes to have his sentence commuted on account of petitions circulated in his favor.

The Department of Justice on Monday received the report of Sir Mayhew Begbie, chief justice of British Columbia, and notes of evidence in a murder case recently tried by him. An Indian named Gumah is now lying under sentence of death to be hanged on January 16th for murdering a member of his tribe.

WHAT AN OUTSIDER SAYS.

A Newspaper Man has Something to say of Acton and its Interests.

The Markdale *Standard*, whose editor visited Acton a couple of weeks ago, has the following in its last issue:—

Acton has a population of 1500, is twelve miles from Guelph and thirty-five from Toronto, and can boast of several important factories.

W. H. Storey & Son, Canada Glove Works, is one of the principal industries. This firm manufactures all kinds of gloves and mitts, from the coarsest stogs to the finest unlined kid. They also manufacture some forty lines of moccasins from buckskin, sea cow, antelope, etc. From 150 to 225 persons are given employment, and this is evidence that a very large business is done. The present year has been the best in the history of the business.

Beardmore & Co. have one of the most commodious sole leather tanneries in the province and turn out about 1200 sides of leather per week. They employ a large staff of workmen. One item of interest in connection with the establishment is the immense quantity of hemlock bark used for tanning purposes. This is principally shipped in from the Georgian Bay peninsula, and the firm pays the G.T.R. each year for freight on bark alone between $10,000 and $12,000.

The Acton Tanning Co. was established a couple of years ago and promises to be a business of considerable magnitude. They have erected a fine and commodious group of buildings, the principal one being six stories in height. The premises are fitted with numerous modern labor-saving machinery. About fifty men are employed and thirty additional hands will be put on by spring. Harness and Cordovan leathers are the products.

The Buckskin Tannery is engaged in the the manufacture of buckskin and other leathers for the Canada Glove Works, and Mr. I. Francis also has a tannery for supplying kid and other fine leathers for the same establishment.

Mr. H. T. Arnold runs the Excelsior Glove Works, a small shop, employing about ten hands.

Acton has also a saw mill, shingle factory, two planing mills, two roller flour mills, and the usual industries incident to a country town of above population.

The Acton FREE PRESS is not excelled, if equalled, as a local paper in the Dominion either in excellence of matter, mechanical taste and skill in make-up or quality of paper used, while the job work executed is not only equal but superior to most city work, consequently a friendly visit and confidential interview here could not fail to prove pleasant and profitable.

There are several fine churches, good schools, a model town hall, numerous attractive private residences, a commodious park and good boating. Clean streets, good sidewalks, well lighted, and expecting electric light shortly.

But the town has the most indifferent looking lot of mercantile business places—some thirty in all—that are to be found in any town of its pretentions in the province.

DIFFERENT KINDS OF PEOPLE.

In every community there are always discriminating people who invariably get the very best value for their money. Whether it is in household furniture, clothing, or any other line, these people will get the best goods at the same price as their neighbor gets inferior articles. Of course, the results always prove the shrewdness and wisdom of the discriminating people referred to. It is a money-making discrimination. In the same way people of good judgement are readers of the *Family Herald and Weekly Star*, Montreal. The knowing ones are aware of the great value of the *Family Herald and Weekly Star* in the family. They know it is reliable, because in each department it is edited by the best men that money can secure and the result is they have a satisfactory paper, a well-informed paper, a real authority upon all the questions that interest the majority of mankind. The *Family Herald and Weekly Star*, Montreal, has a universal circulation.

Another New Periodical.

Since the meeting of the General Conference in Montreal in September, the Methodist Book and Publishing House makes another stride forward in its popular periodicals. A new paper for young people, with the progressive name "*Onward*," an eight-page, well-illustrated weekly, is issued at the low price of 60 cents a year, singly—over 5 copies, 50 cents a year. It is edited by the Rev. Dr. Withrow, whose management of the *Methodist Magazine* and Sunday school periodicals of the Methodist Church has been so successful. The popular *Methodist Magazine* ($2.00 per annum,) and the *Sunday School Banner* (60 cents per annum) will be considerably enlarged and improved. The Rev. William Briggs, Toronto, is the publisher of these periodicals.

A $750 COTTAGE.

or its equivalent in cash will be given to the person detecting the greatest number of errors, (words wrongly spelled or misplaced) in the December issue of "*Our Homes.*" In addition will be given two cash prizes of $200 each, four of $100, eight of $50, ten of $25, twenty-five of $10, fifty of $5, one hundred of $2, and one hundred and fifty of $1, distributed in the order mentioned in rules and regulations, which will be sent with a copy of December issue on receipt of 15 cents in stamps. Special Cash Prizes given away almost every day during competition which closes February 1st, 1891.

Address *Our Homes* Publishing Co., Brockville, Canada.

The last number of the *Dominion Illustrated* contains, as usual, an excellent variety of engravings and letter-press. A charming series of landscape views of the rocky beauties of Muskoka, while a couple of fishing scenes in Gaspe are of a similar character. An admirable summary is given of the recent visit to Canada of the members of the Iron and Steel Institute of Great Britain to which is added an excellent engraving of the whole party on the steps of the City Hall, Hamilton. Altogether the number is an excellent one and should be in the hands of all patriotic Canadians. It is published by the Sabiston Lithographic and Publishing Company, Montreal.

A BOOK TO BUY.—Webster's International Dictionary. This new book is the authentic "Unabridged" thoroughly revised and enlarged under the supervision of Noah Porter, D.D., L.L.D., of Yale University. Editorial work on the revision has been in active progress for over ten years, and a hundred paid literary workers have been engaged upon it. The sum expended in its preparation before the first copy was printed exceeded $800,000. This work, well used in a family, will be of more value to the members thereof than many times its cost laid up in money.

St. Boniface has just suffered a $10,000 fire.

ST. LAWRENCE CANALS

RAPIDE PLAT DIVISION

Notice to Contractors

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the St. Lawrence Canals," will be received at this office, until the arrival of the eastern and western mails on Wednesday, the 3rd day of December next, for the construction of a lift lock, weirs, etc., at Morrisburg, and the deepening and enlargement of the Rapide Plat Canal. The work will be divided into three sections, each about a mile in length.

A map of the locality, together with plans and specifications of the respective works, can be seen on and after Wednesday, the 26th day of November next, at this office, and at the Resident Engineer's Office, Morrisburg, where printed forms of tender can be obtained.

In the case of firms there must be attached to the tender, the actual signatures of the full name, the nature of the occupation and residence of each member of the same, and further, an accepted cheque on a chartered bank in Canada for the sum of $6,000, must accompany the tender for Section No. 1, and an accepted cheque on a chartered bank in Canada, for the sum of $3,000 for each of the other sections.

The respective accepted cheques must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for the works at the rates and on the terms stated in the offer submitted. The cheques thus sent in will be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,

A. P. BRADLEY,
Secretary.
