A Railroad Manager.

Ohio and Mississippi Railway. Office of the President and Gen'l Manager, Cincinnati, Ohio, U.S.A., Nov. 15, 1886. Gentlemen: Recently while in the act of alighting from my car I stepped upon a stone, which, turning suddenly under my foot, drew me to the ground with a severely sprained ankle. Suffering exceedingly, I was helped into the car, and my man rubbed me most generously with various and kindred remedies, but to no avail. Reaching a station where St. Jacobs Oil could be secured, two bottles of it were bought and the application resulted at once in a relief from pain, which had become well nigh unbearable. I was out and about my work in three days. W. W. PRINCE, Pres't and Gen'l Manager.

Inflammation of the Eye Cured.

Nothing so suddenly obstructs the circulation as sudden transitions from heat to cold. Heat rarifies the blood; quickens the circulation and increases the perspiration, but when these are suddenly checked the consequences must be bad. The most common cause of disease is obstructed perspiration, or what commonly goes by the name of catarrh. Coughs, colds, sore throats, etc., if attended to in time are easily subdued, but if allowed to run their own course; generally prove the forerunner of more dangerous diseases. Nine-tenths of the consumptive date their affliction from a neglected cold, and the diseases caused by wet feet, damp clothes, or exposure are more generally supposed. One of the most efficacious medicines for all diseases of the throat and lungs is Bickel's Anti-Consumption Syrup. It promotes a free and easy expectoration, which frees the lungs from viciated phlegm by changing the secretions from a diseased to a healthy state.
