It has been before the public now for some mouths and is meeting with very popular favor. A cut of the index is shown in an advertisement volthe second page of the Franc Prass. It affords the same convenience for Sabbath School workers and the Bible reader juner ally as the alphabetical index in commercial books for business men. The device gives unvarying exactness and quickness in turning to say book in the Bible. No seed to turn the leaves of your Bible twice for any bota. The index is in a condensed form, only 33 scallops being required instead

of 60 as beretafore. The upper index in each scallop refers to the book immediately preceding and the lower infer to the book placed at the Psalms; at Hosea (beginning the New Testament; and at Galatians ; beginoring the shorter Epietles.; These fixed in your mind you have the index at command. The Wilbur News gives the following particulars :- The passenger train stopped for supper and, on account of the rush, Mr. Tolton, who was abourd, did not leave the train with 'the others.' A short time later, however, he stepped out on the platform to get a little fresh air when the floor mill attracted his attention and, being personally acquainted with Mr. Stevens, the general manager, he concluded to run over and inspect the plant. Becoming interested he stopped a few minutes longer than he had intended and as he passed out of the mill door he heard the bell ringing and started on a run. He did not

reach the train until it had started and in last car, his feet slipped just as he reached for a hold and he fell, resulting as stated above. He undoubtedly fainted upon receiving the injury, for no one witnessed the accident, and when he became conscious the depot was locked and he was compelled to go to Mr. Wamright's before anyone knew of the mishap. Medical aid was hastily summoned and it only needed glance to convince the doctors that ampitation was necessary as the lower part of the arm only remained attached by pieces of skin. ## ACTON BRANCH BIBLESOCIETY

The Annual Meeting -- An Interest ing and instructive Address by Rev. J. W. Rae.

The forty third annual meeting of Acts Brauch Bible Society was hold in th Baptist Church last Friday ovening. Mr H. P. Moore, the president, occupied the chair. The meeting was opened by a hymn rendered by the union choir, and prayer by Rev. R B. Cook. After a few introductor; remarks the president called upon D Lowry, the secretary, for his report for the year, which was given as follows:-

In laying before you an outline of th

is reason for thankfulness that although our prospect was rather doll for a time. yet at the close of the year our position was slightly in advance of the previous year's statement. It might be well to remark here that the amount remitted from the Acton Branch now depends alone from the collections at the annual meetings and the subscriptions secured by the collectors. In former years I food that the amount was considerably augmented by the proceeds of sales by the depositary which reached at times upwards of \$20.00. As this source of revenue has ceased it behaves the chrischurches-and the neighborhood to ! alive to their duty and thus evidence that they are co-workers with the Master, who Himself taught the prayer, "Thy Kingdom come, Thy will be done on earth."

As in former years the real work in con nection with our brauch has fallen upor the collectors. This year their duties were rendered more than usually ouerous from the almost unnavigable state of the roads at the time they were obliged to make the canvass. However, I am glad to state that at no former time has this most important work been more efficiently attended to, and the favors, though often small, were thankfully received.

The finances of the year were as follows : Collected by Miss Mcl'hail and . Miss M. Matthews ...... Collected by Miss M. Moore and Collected by Miss McMillan and Miss Mclean..... Collected by John Gordon and N.F. Lindsay Collected by Robt, Kinnard and Themas Elliott

Collected by Alex. McDonald ...... Collected by John M. Warren .... Collected by S. Worden and C. Davidson Collection at annual meeting ...... This sum was remitted to the depositary

at Toronto to be divided equally between the Upper Canada Bible Society and the British and Foreign Bible Society. The report was referred to in complimentary terms by several present and a vote of thanks to the secretary and the

collectors was moved by Mr. John Warren

and seconded by D. Henderson, M.P. and carried unanimously. The officers for the present year were

then elected as follows : -PRINT-H.P. Moore. Vicu-Pius - D. Honders on, M.P.

SECT-TREAS-Dr. W. H. LOTTY. Executive Consister-John Cameron, Re-Dr. Gifford, James L. Warren, J. B. Pearson, G. Wells, Jas. Matthews, Thos. T. Moore, Samuel Worden, W. T. Smyth and John Robertson. Collectors-I. Misses Mattle Moore and Ina

for this district, then delivered a most interceting, instructive and eloquent address.

The growth of the work was referred to. Daring the year IG new stations have following. Our own people vet from indifference, liable to drift from the teachings of their youth, hence the greent seed for the work of the colporteur, the circulation of the Bible and sacred literature. The organization of the British and Foreign Bible Society 85 years ago was next alluded to as being specially required at that period of British history, Indicating theover ruling guidance of the Divine Hand. he work of the society in Austria-Hungary and Russia was spoken of. In Turkey insurrections had interfered but now the colporteur is free to work. Leaving Europe the interesting fact was stated that from

> Africa the parent society now receives aid to carry on the work. Madagascar, and the difficulties of the work in China, were touched upon. In British India the progress is marvellous, greatly through the instrumentality of worthy women there. After contrasting the fruits of the various forms of worship and thus meeting the objection urged that the Christian religion is only slightly in advance of that of Confacine, Buddhe and Mohammed and noting that science, with its wonderful inventions, its use of the elements in carrying on and doing the bidding of man had always followed-never preceded-the elevating, re- tion. fining and sanctifying influence of the Bible, one of the most interesting addesses ever given to an Acton audience on this

on behalf of the society and to those present who have the Lamp of Life to assist in giving to those who have it not. Rev. Dr. Gifford followed with a few ap propriate remarks, expressing his pleasure at hearing the address of the agent and the excellent work being accomplished by the

Bible society. The collection was then taken, and, although the stormy night was responsible for a very small attendance, amounted to \$12. The choir rendered a number of appropriate hymus during the evening and the meeting was one of great interest through-

Through the kindness of the secretary FREE Passe reporter was permitted to examine the original minute book of the Acton Branch. This old volume, which is still in excellent condition, gives much inter-

esting information. The first paragraph in the minute is as

follows :-"At a meeting held in Acton, Esquesing by appointment of Rev. James Richardson, agent of the Upper Canada Bible Society, on the 27th February, 1848, it was resolved that a society be formed to aid in circulating the Holy Scriptures, and that it shall be called Acton Branch Bible Society." .

At this meeting officers were elected as follows :- President, Alex. Brown, sr.; Vice-Pres. Duncan Kennedy, sr.; Sec'y Treas. John Holgate; Executive Committee Lachian McDonald, Doncan Kennedy, jr., Alex. Grant, Ass Hall, James Cameron,

Adams, John . Holt and Wm. Masalas placed upon the Executive. The tressurer reported the revenue of the society for the first year to be £11 9 04 but killed by abooting and hanging. of this £4 19 04 was derived from the sale

In those days, back in the forties and Afties, the executive committee had quarterly meetings in the interest of the society. As the work proceded we find such wellknown names among our early residents in active connection with the society as:-Matthew Swan, John Speight, Abram Matthews, Robt. Swan, Lucius Adams, Rufus Adams, Michael Farmer, Geo. Mo-Kay, Audrew Kennedy, Oliver Lasby, sr. Thomas Moore, sr., Benj. Nicklin, Jacob Swackhamer, S. B. Johnson, Alex. Mcl'hec Charles Symon, Arch. Messmore, R. B. Cook, W. Willoughby, R. J. Forman, McKedzie, Hazleton, J. Burston, Dyer and Unaworth. The announcements of the meetings of the society were somewhat different forty years ago to those of to-day as the following resolution will show :- Moved by John Warren seconded by Adam Dixon, that the annual meeting be hald in the Wesleyan Chapel on the 5th March, and that the socretary be instructed to put up notices of the meeting in the following places :- On the school house at Mr. Campbell's, Nassa. gaweya; on the school house in Dublia on the school house at Mr. J.
