NOTES AND COMMENTS.

It is emphatically stated in Rome that the Italian Government has said that if it does not receive a reply to its last note from Mr. Blaine this week U. S. Minister Porte will be given his passport, and all dip'omatic relations will cease between the two eccutries. 'Mr. Blaine refuses to give any information on this serious statement.

The Prince Edward Island Legislature bas just fallen into the hands of the Liberals. The only Conservative Legislature now extant in Canada is that of British Columbia. It is rather odd that the provinges should all, with one exception, co Liberationd then turn round in the Dominion elections and go Concervative. But then they did the same thing in Hamilton.

A bill is before the Outario Legislature, and it will likely pass, for the protection of the plant known as "gensing." It may not be generally known that this is an article of export to China, and that last year over \$20,000 worth of it was sent to the Flowery Kingdom. It is medicinal, and almost any farmer's wife can tell of the virtues of the "jimson" weed. That is gensing, though the farmer's wife does not always know it

The Government, it is understood, at the approaching session will introduce a bill reviving the modus vivendi arrangement in connection with the Atlantic fisheries. During the year 1800, 119 United States fishing vessels took out licenses under the modus vivendi, paying therefor \$14,461,00m pared with \$9,589 the previous year. The total expenditure of the Fisheries Department amounted last mear to \$328,748 from appropriations of \$382,300, leaving an unexpended balance of \$54.551.

Several millions of france are said have been guaranteed towards carrying out the project of holding in Paris in 1892 an exhibition of specimens of the human race throughout the world. The idea is a most interesting one, and the show is sure to be popular, associated as it will be with the forthcoming Colornal and Ethnographical Congresses. We shall have the advance agents coming to Carada soon to pink out a model dozen or so. Which of the aldermen could we spare from Toronto, and will an exhibit of Grand Old Men be included!

The Department of Agriculture at Ottawa has just issued a very valuable little bulletin, from the pen of Professor Robertson on matters relating to the establishment of cheese factories and creameries. It gives the law relating to the organization of companies for these purposes, by laws for the government of companies, complete information relative to the machinery, etc., masonry and places for the most improved kind of buildings suitable for cheese factories and creameries. The bulletin-may had on application to the Agricultural Department, Ottaws, Canada.

Mr. Peter White's appointment as the Speaker of the House of Commons will be in accordance with what now pears to be the custom in making these appointments, namely, that Engand French speaking members shall occupy the chair alternately. Dr. Blanchet, who was appointed in 1879 was the first French Speaker. He was succeed ed by Mr. Kirkpetrick, and the latter by Col. Unimet. The Speakers prior to Dr. Blanchet were Mesers. Cockburn and Anglin. The Senate has had two French Speakers. Mesers. Canchon and Chauvesu.

The Jamaica exhibition closes on May I. wall informed correspondent in Kingston, Jamaica, writing under date of the 24th ult., furnishes the following information to the Minister of Agriculture : "We have solved the problem as to our flour keeping. and everyone is asking for Canadian flour except the bakers, who work with the Americans in a great many articles of manufacture. We have also captured the carriage trade. I will not weary you with details, but simply say that in every way the effort which Canada has made has

The Stouffville Tribuac gives its readers

some spring medicine in the form of advice

which is good for all dwellers in towns and villages. All yards should be cleaned of the winter's accumulation of rubbish, so as to avoid, as far as possible, the contamination of shallow wells; and as a further precaution the wells should be emptied after the surface water disappears. The removal of unsightly buildings and fences. and a cost of paint applied to those which cannot be removed, will improve many other places in Ontario besides Stouffville. The advice to attend to drainage, to plant shade trees and to eradicate weeds is also matters many a pleasantly situated little town or village could attract summer

health and comfort of its own people.

made that the Government at Ottawa line decided that the Manitoba School Act shall not be disallowed. In making this known, however, care is taken to show that the He said his arrest was due to spite. decision is not a blunt denial of the demands of the opponents of the Act. The petition of the Roman Catholic prelates, it is pointed out, did not ask for disallowance, but simply requested that the rights of the minority in Manitoba should be protected. the petitioners believing that if a remedy existed it could only be secured by way of appeal under the special provisions of the Manitobe Ast. The Government takes the ground therefore, that in not advising disallowance it is in no way doing violence the wishes of those who desire that the egislation in question shall be blotted of the statute books of Manitobs. It willing, on the contrary, to bear the cost of the legal proceeding by which the constitutionality of the obnoxious Act is being tested and at promises that, in the event a final judicial decision favorable to the province, if will consider the petitions pr sented to it for redress under the provisions

of the Maultobe constitution:

#### DOES IT MEAN WAR.

The Movements of some of the Euro pean Nations are not Peaceful. RUBBIA IN THE BALKANS.

Loxpox, April 15 .- Some nueasiness felt in diplomatio circles, and is publicly expressed; at to the aspect of affairs on the Danube. No doubt whatever exists that the Russian Government is actively mobil ising very large forces of cavalry infantry and artillery along the frontiers. Russian influences are completely paramount in Roomania and Servia, and what described by a German diplomatist as state of political war exists between the Russian agents and Bulgaria. How serionaly the situation is viewed at Berlin. notwithstanding the optimist statements recently published in the Berliu official press, is inferred from the fact that whereas two mouths ago German officials nego trating for a new Bulgarian loan were advised by the German Government not t take measures to bringat out in Berlin iest Rassian susceptibilities might be offended, it is now understood that the Beriin banks will take the loan openly and that quotations will be made for it when it it issued

The consequence of this need not be dwell upon. In short, many things indicate that Lord Salisbury's "sudden summer shower of war" may break over Europe at any moment. So far as Servia is concerned Russian influence is now openly accepted. King Milan's negotiations with Patchich appear to be coming to a satisfactory conclusion on this basis, the King giving up all his Austrian proclivities, and the Russians agreeing that Queen Natalie shall be kept out of the country on the conditions agreed upon between her husband and the regents. Mesnwhile the Servians are negotiating for the purchase of 100,000

THE ELISER'S IDEAS. Braux, April 15 .- Emperor William in a speech at the Marine Academy, at Keil, said that the pary would have to assume the chief offensive role in the next war, and must endeavor to annihilate the enemy by a grand coup. The duties of the navy would resemble those of the cavalry on shore. The next German military manorurres, be said, would be conducted on the strategic principles of the English system, which alone resembles warfare.

LOCAL PROHIBITION.

Campaigning in York County-Strong Agitation at Weston.

Wester, April 14 .- A temperance meetng of unusual interest was held in the town hall here last evening. It was held under the auspices of the society, which has kept up weekly meetings for two years with great success in the line of securing pledge signatures. Encouraged by the result of their efforts, the workers met to consider the advisability of taking another step forward. Mrs. S. C. Philp, the president, was in the chair. After devotional exercises and an interesting musical programme Mersrs. James Thomson and F. S. Spence, of Toronto, spoke at some length to an andience that was full of excrestness and enthasiasm, explaining the details of the new local option legislation. By an almost manimous standing rote the large meeting declared its warm approval of a proposal to agitate for a prohibitory by law for Weston, and pledged itself to work energetically to make the campaign a sweeping success. committee to superintend details of the movement was appointed consisting of Messrs. W. Cruicshants, W. Beasley, John Linton, A. Kaske, J. Hemshaw, J. Bull W. Ellerby, Dr. Charlton, Dr. Irwin, Rev. Mesers, Harris, Philp and Reid, and Mesdames W. Cruicksbanks, J. Cruicksbanks, Agar, Brown and Philp, and Misses Moore, Maguire and Fraser, with power to add to their number. The then of Toronto June tion is also at work to secure a probibition by-law, and it is likely that a number of other municipalities in the County of York will follow the example of these two, and strike out for immediate total local pro-

UNDER THE ST. CLAIR. The First Engine Passes Through the effects of strong drink. the Sarnia Tunnel.

Sirvit, April 10 .- The first locomotive o pass through the G. T. R. tunnel under he St. Clair river here did so yesterday, making the run through the tunnel from the Canadian to the United States side and then returning, having a flat car attached to it. The run back from the United States side was at the rate of 15 miles an hour. The track was in first-class shape, and everything worked smoothly and satisfactorily. On the locomotive were Mr. Hobson, chief engineer; Mr. Hillman, mechanical superintendent : Mr. Blaiklock, assistant mechanical superintendent; Mr. Percy, sesistant to the general manager, and a ropresentative of the associated press. There was a large crowd on hand to see the first engine commence the trip through the on the United State side. The cheering from an enormous trowd and the screaming of whistles welcomed the passage of the first locomotive under the St. Clair river.

FOR ROBBING THE MAILS. Arrest of a Clerk in the Kingston

Post Office. KINGSTON, April 16 .- Bobert J. Gowdy, clerk in the postoffice, was arrested this morning for tempering with Her Majesty's mail. For some time past, it is money letters have been disappearing and the post-office authorities have been trying to solve the mystery. A decoy letter dressed to a citizen of Belleville was posted and a watch was set on Gowdy, who seen to enter an outbuilding. He watched through auger-holes by the spectors, and it is claimed pulled letters ou excellent. By attention to these little of his pocket and proceeded to investigate their contents. After he had torn the corner of one letter the inspector shouled visitors, besides vastly improving the from above, "Ab, there, I have caught you at last. He then jumped into the building and seized Gowdy. Three letters were The announcement is now definitely found in his possession. Gowdy was then being guilty and says the letters that were in his pockets were addressed to himself.

> FRANCE VERGING ON BANK-RUPTCY.

Panes, April 18 .- Apropos of the future morease of the French army and of the Minister of War's demand on the Budget Committee of the Chamber of Deputies for further appropriations, Senator Barthelemy St. Hilsire, ex Minister of Poreign Affaire, said to-day: "It becomes more and more evident that Pracce is on the highroad to bankruptcy. France is one of the richest countries in Europe. So, too would we pillion france a year. But suppose he spent each year 1,500,000 france, and kept kept on doing so year after year! What would his wealth amount to under such circumstances! And yet this is just what France has been doing for a long time.

The most agreeable, rentorative tonic and mild stimulant is Milburn's Beef, Iron

QUELPH HORSE SHOW. Lacked Considerable of its Old-time Enthusiasm and Had'a Small

Entry List. The annual spring show of the Goelph Entire Horse Association came off in the Market Square, Goelph, last Friday afternoon. There was a large crowd present. The entries were not so numerous as last ear's, so that the work of the judges was not heavy. Most of the horses shown are well known: John Duff's Reform added another red ticket to its laurels. Armadale making a good second. Peter Beaver's Parry Ribb easily took first in the agriultural class. Mr. Laidiaw's Crown Prince Royal is a well built horse, rather light for agricultural, but more suited for general purpose. Outario Chief, a bright bay, is of similar build. Swallow is a

good horse, a favorite around here, and took dret in the carriage class. John Clark's is a young mahogany bay, which promises well. The third prize taker was a chesnut with a very showy action. In roadsters, Peter Beaver's horse had good size and action. Mr. Fitzgerald's had speed and action, while Mr. Collins' was a chunky colt, not so clean limbed as the others. Dr. Greenside's thoroughbred Orange Boy has no competitor in his class, and this year egala took first. The following is the

TRIED IT IN THE LODGE ROUM So That he Would be Certain to be Buried with full Masonic Rites.

Sr. Catutaines, April 14 .- Richard Ratcliffe, the prominent Mason who committed Nassau. suicide last week, it now appears attempted suicide in the Masonic Temple.. He appears to have visited the rooms, put everything in order for his funeral, laying the fabrice, etc. paraphernalia out as was his custom when there was to be a Masonic funeral. He then took a piece of rope which he found in the ante room and fastened it over the transom of the door leading into the paraphernalia room. His whole weight must bare been allowed to rest on this; either to test the rope or in an attempt to hang him- their market. self, as the marks of the rope are plainly visible on the wood. He took the rope away with him and with it successfully finished the awful deed in the store. The careful manner in which everything was arranged for the Masonic service shows that the suicide was coolly premeditated, no thought entering his mind that he would not be baried with full Maronic rites.

No Tariff Changes This Session.

OTTIVA, April 16th .- It is officially stated that the Government, broadly speaking, has decided not to smend the tariff at the coming session. Possibly something may be done with sugar duties, but the change, if any, cannot be determined until the Customs Department clauses of the Mc Kinley bill show their effect upon Canada.

Women as Police Judges.

Archison, Kas., April 9 .- At the recent election Mrs. Mary T. Burton, formerly editor of the Kanear, and at present postmistress, was elected police judge at James town. Mrs. Jessie McCormick was elected police judge at Burr Oak. Both are strong prohibitionists. Mrs. Burton is the widow of a prominent politician, who died from to 79 for.

Killed at Indian Head.

INDEX HELD, Assa., April 16 .- An Engglishmen named For, while driving on trail pear the railroad two miles east of here this afternoon, was killed by his horses becoming scared at a passing train, and springing forward, suddenly throwing him from the back of the wagon on his Paul, Minn. head. For had only arrived Saturday from England with a large family of small

Literary.

The various types of horsemanship in America, from the bareback Indian rider of early pioneer days to the more civilized but less skilful equestrian of our own times tunnel, and whistles blew from all quarters are the subject of a short series of entertaining papers by Colonel T. A. Dodge, U. S. A., to be began in Harper's Magazine or May. These articles will be appropristely and beautifully illustrated from drawings by Frederic Remington.

Only 12 Cents.

The sum of 12 cents in stamps, sent the Sebastin Litho. & Pab. Co., Montreal, the publishers of the Dominion Illustrated will secure a sample copy of that journal which has lately been so lately improved, and which its enterprising publishers are endeavoring to introduce into every house n Canada. It is the only high-class illustrated weekly published in the Dominion and no pains are spared to make it more and more worthy of the praise of the home circle. With every sample copy is sent out a circular with rules and regulations of the prize competition now going on, and which any new subscriber may enter. The prizes aggregate over \$8,000 in value.

The first Dominion protest is announced and Mr. Burnham, in East Peterborough, both sides that the election must be fought over again in the courte wherever the slightest shadow of a chance of success presents itself. It is probable, however, that a great many petitions will be entered with a saw off in view. When a great deal of litigation is in sight our stern moralists are prepared to let the alleged bribers off easily, provided they can thereby find the

WATER IN SAHARA'S DESERT. Pasis, April 12 .- A despatch from Oran

says that an enormous reservoir of water, 120 feet below the surface, has been discovered at El-Goles, a small caravan station in the midst of the Sahara desert. The reservoir was discovered while a number of workmen were engaged in sinking a well at El-Goles. The shaft sunk already gives 40 gallons of good clear water per minute, and it is expected that this amount can readily be increased should it be found that a larger quantity is necessary. The discovery is of the highest importance will undoubtedly tend to develop the caravan trade of El-Goles, which is one of the stopping places in the Sahara desert of caravans which travel across that region. This is first time that water has been found at so slight a depth in the Sahara.
