R. B. Jermyn Millinery

IS OUR HOBBY.

No department in the house receives so much attention as this; probably because no other department requires such careful study. Another reason is, our long experience in this line has endeared it to us—hence our success. It is no idle boast to say we keep abreast of the times. Parisian ideas scarcely strike this country till they are reflected in our Millinery department. We were sorry to disappoint so many last Saturday. Our Milliners worked till midnight but were unable to get all orders out. This week they are making an extra effort and guaranteed to fill all orders on time. We have ranked the large millinery houses of the Dominion and the result is we open and pass into stock to-day three cases of newest effects in Straws, Ribbons, Laces, Flowers, Tips and Ornaments. The old truism that goods well bought are half sold has never been more clearly demonstrated. We have the inside track in buying and so customers may expect exceptional good value in every case.

Store closes at 7 o'clock every evening but Wednesday and Saturday. R. B. JERMYN.

A Jumble of Facts

WHAT it will pay you to ponder and take advantage of. One thing we want to impress on you, our advertisements, as well as our dealings, never rely on extravagant statements. Prove every assertion we make and you will find it verified.

PONGORS! Do you know the material by the name? Perhaps not. Well, it's a combination of a silk warp and wool filling, light in texture, drapes beautifully, never ripples, makes up elegantly by itself or in combination with other material—say a Challis—and taking it altogether is one of the very best things for Spring and Summer wear. We show over a dozen various colorings.

CHALLIES! It is only necessary to mention the name. Brings to your mind at once a picture of delicate shadings, exquisite style, grace and beauty of a summer dress. Never saw them so nice as this season. To see them is to want them. Some twenty different styles in stock—and going very fast.

PARASOLS! What need we say about them? Their variety endless—values unsurpassed. Between 50c. and \$10.00 we can supply almost any shape, size, style, color or design. We import them direct from the manufacturer, so by them in large quantities—and give you the benefit of the very best goods to be had at the price asked.

MILLINERY! A great season has just passed. In order to keep pace with the growth of business, we have had to nearly double our staff of trimmers, and yet they are pushed to get out the orders. It couldn't be otherwise. The large stock, refreshed by constant purchases, and the styles we produce, enable us to hold first place easily against all competition. There is a characteristic elegance about our Millinery that you don't find elsewhere.

TABLE LINENS! What housekeeper doesn't take a pride in the quality of the linens that adorn her table? You don't need to pay a large price to get something very handsome from our stock. Without exception the best values we have ever shown.

This is what we're after—the simply dollar. And to get this—and get it when we are selling the goods at all—we are working, planning, scheming and trying, by overcharging that honest, old-fashioned work and intelligent content of business can secure, to give you the very biggest dollar's worth of goods that it is in human power to give.

The party sailed from London for Zanzibar, thence to march inland for seven months to Katanga. It is expected that the work of this expedition will take two years to complete.

EATEN BY LOCUSTS. Arizona, May 18th.—The French savant, Konrad Henrichs, president of the Ethnological Society, who was employed by the Government on a mission of investigating the locust plague in this province, has met a horrible death. While examining a deposit of locusts' eggs at the village of Sidral he was overcome with fatigue and heat, and fell asleep on the ground. While sleeping he was attacked by a swarm of locusts. On waking he struggled desperately to escape. He set fire to the insect laden bushes near him, but all his efforts were ineffectual, and when finally the locusts left the spot his corpse was found. His hair, beard and necktie had been devoured. Henrichs was a member of the French Academy and the author of several valuable works on insects.

THE NEW VICTORIA COLLEGE. The Corner Stone of the Fine Building is Laid in June.

TORONTO, May 18.—The report of the Building Committee for the new college in Queen's Park was presented at the meeting last week. The estimates for the new building of \$1,800,000 have been raised to \$1,850,000. Some objection was raised to the increase, but satisfactory explanation was offered by Chancellor Burwash and Rev. Dr. Poole, who said that the plans had been changed and that the buildings would now be much more elaborate. The main features of the original plans had been adhered to, but several very important improvements had been added, making the buildings more costly.

It was arranged to have the corner stone of the new college laid in the second week in June, during the session of the Toronto Conference. The corner stone will be laid by Mrs. George A. Cox.

COMING AND GOING.

Visitors to and From Acton and Various Other Personal Notes.

Mrs. A. C. Henderson, of Toronto University, is home for vacation.

Miss Lizzie Ramsey, of Eden Mills, visited friends here during the week.

Mr. Fred H. Smith, of Trunk Toronto, spent Sunday with his Acton friends.

Mr. Edward Nicklin, who has been ill for some weeks, is able to be about again.

Geo. Blair, photo artist, has left Ottawa for Port Elgin. He spent Sunday in Acton.

Mr. Stafford Zimmerman and family intended leaving for Portage La Prairie, Man., on Monday evening, but he was taken ill on Monday with inflammation of the lungs. It will likely be some weeks now before he is able to go.

The grip and influenza seem to be making a concerted attack upon the great ones of the earth. Mr. Gladstone is said to be suffering from influenza. Mr. Blake is having a very acute attack of indigestion, it is called, and both Sir John Macdonald and Mr. Laurier are hors de combat.

KNOX CHURCH ANNIVERSARY. Two Masterly Sermons by Principal Caven—An Interesting Social Gathering.

The Anniversary Services of the Presbyterian Church last Sunday and Monday were of a most interesting character. The sermon was observed at the morning service on Sabbath, the scene being presided by Rev. Principal Caven. The evening service was well attended, the usual congregation being considerably augmented by members of sister churches in town, particularly by those of the Methodist Church, the regular evening service being withdrawn on account of the special occasion in Knox Church.

The two discourses of the learned Professor were highly appreciated by the large audience. The one, convincing and expressive exposition of the gospel given in plain, simple, yet most chaste English, without attempt at oratory or adornment by so eminent a minister of the Presbyterian body was most attentively listened to and favorably commented upon.

The tea-meeting held in the Town Hall following evening was a decided success. No tickets were sold nor was any special effort made to refreshment to ensure attendance, yet a full house rewarded the exertions of the church.

After tea in the Council Chamber the audience was addressed by the Rev. H. H. Abraham, M.A., of Burlington, and Rev. A. B. Winchester, of Berlin. Both gentlemen were well received and listened to with interest. The topics taken by both were away from those usually, or at least often, chosen by speakers at social gatherings, and those present were treated to something far superior to the usual tea-meeting talk.

The pastor, Rev. Mr. Lee, is to be congratulated on having secured these gentlemen for the meeting and those present were fortunate in the privilege enjoyed. A standing vote of thanks was tendered through the chairman, Mr. Lee, to Messrs. Abraham and Winchester.

Suitable music from the choir filled in the intervals. Proceeds about \$15.

CANADA AND JAMAICA. The Exhibition Demonstrates that a New Trade is Probable.

OTTAWA, May 16.—Mr. Adam Brown, the Canadian commissioner to the Jamaica Exhibition, says the exhibition was a great success, and there are prospects for a large trade between Canada and Jamaica if the people only take advantage of the favorable impression our products have made. The keeping qualities of Canadian flour have been thoroughly demonstrated, and our products are now on a more favorable footing than those of the U.S., equally so with our cheese, butter and bacon.

A market has also been opened for a large number of our manufacturers, for which very many orders have been sent in addition to the disposal of almost the entire stock of the exhibitors.

LATEST FROM OTTAWA.

The Parliamentary Leaders Again in Their Places—Next Week Will be Full of Interest.

SESSIONAL JOTTINGS.

OTTAWA, May 20.—The two leaders were on deck once more Monday afternoon, Mr. Laurier for a few minutes and Sir John for the greater part of the session. The Premier looked fairly well, but in the several little speeches he made he showed signs of weakness. He cannot raise his voice much above a whisper and even this with little exertion obviously tires him.

Mr. Laurier is better, but pale, and has frequent fits of coughing. Both gentlemen were handsomely received by their friends and opponents. In fact, the House gave each leader an ovation. Mr. Laurier was the first to enter, and loud applause from both sides testified to the general satisfaction at his presence. Shortly afterwards Sir John entered. His appearance excited general expressions of good will. The Premier made quite an effort to appear his usual self. He took the full direction of the House in hand, and left none of the work to the subordinate Ministers.

That effort told upon him as evinced by the faltering steps with which he left the Chamber when the House arose, and by the additional pallor of his face. The Premier gave to-day another evidence of his iron will, which declines to be subject to what is regarded by some as an inclination of temporary bodily weakness, but by others as a much more serious sign. The Conservative members confess to a feeling of relief at the Premier's appearance, which, they say, is much better than they had been led to expect. Beyond question there has been a decided alarm, which, the presence of Sir John in the House has alone been able to allay.

As indicating the extraordinary number of petitions which the House has been deluged this year, it may be stated that up to Friday 1,387 petitions had been presented in two weeks the House has been sitting, more than were handed in during the whole of last session. The bulk of the petitions refer to prohibition and Lord's day observance, and the clerks in the journal office had to observe the Sabbath by utilizing it for the purpose of catching up with arrears of work.

THE SENATE JOURNAL. Of the great avalanche of petitions which has fallen upon Parliament since the beginning of the session the petitions for legislation to enforce observance of the Lord's day as a day of rest have made no inconsiderable portion. Mr. Charlton's bill, if it becomes law, will amply satisfy the prayer of these petitions.

OF THE SENATORS APPOINTED BY ROYAL PROCLAMATION, when the Canadian Confederation was formed in 1870, only thirteen remain. Two, Sir Alexander Campbell and Hon. J. C. Aikens, retired from the Senate to accept lieutenant governorships. The Confederation senators who are still members of our house of peers are Sir David Macpherson and Messrs. Allan, Armand, Boldford, Chaffers, Dickey, Flint, Government, McClure, Miller, Odell, Rescoe and Wark.

THE DEATH OF SENATOR LEONARD at London at the advanced age of 77 removes another of the Confederation members from that chamber and another of the few remaining Liberals. There now remain in the Senate thirteen members appointed at Confederation, as stated above, of whom four are Liberals. The Senate as it stands now contains only fourteen Liberals.

THE GENERAL UNDERSTANDING is that the budget will be brought down on Tuesday next, May 26. The Opposition will make this the basis of their chief attack of the session, to be followed by the first division of Parliament. The fact that so far the Liberals have persistently refused to make any pairs will disadvantageously affect the majority of the Government, as at present, while there is only one Liberal absent from Parliament, Mr. Casey, there are three or four Conservatives.

As a great many have all over the Dominion on the recent general election depend on the first division, those who risked their money on the result of the poll have an additional risk in the absence of members at the time the division is taken. The Conservatives have been warring that the Government majority will be over 26, and the Liberals accord from 21 to 24.

MR. JAMIESON'S PROHIBITION resolution was reached Monday, and although there was a general call from all parts of the House that it be proceeded with, the member for North Lanark asked that it be allowed to stand. Think delays are serving a useful purpose. They allow the delay of petitions to continue and give time for special representations being made personally to members. The strength of public sentiment for prohibition being brought home to the legislators in a way that has never been attempted before. In addition to an unprecedented number of petitions, the members of the House are receiving almost every day circulars from the Dominion Alliance, the Provincial Alliance, the W.C.T.U., Grand Lodge L.O.G.T., Grand Division Sons of Temperance, representative church officials, and personal constituents, urging them to support the prohibitory resolution. This array of petitions has been systematically laid for a great combined movement upon Parliament, and high hopes are entertained that a great step in advance will be made this session. Mr. Henderson, your member from Halton, is a regular attendant at the prohibition meetings.

CAPITAL CONCERNS. Of the seven divorces applied for only three are to be granted this session. Sir John and Lady Macdonald gave a dinner to a number of M. P.'s and their wives Saturday evening.

Speaker White gave his first official dinner Saturday night.

The Dominion estimates, which were brought down on Monday, ask for an expenditure of \$43,157,000, or five millions less than last year.

Mr. Jamieson's prohibition motion is very simple and direct. It is: "That in the opinion of the house the time has arrived when it is expedient to prohibit the manufacture, importation and sale of intoxicating liquors for beverage purposes."

The Dominion Illustrated.

The publishers of the splendid Canadian weekly journal, the Dominion Illustrated, announce that the response to their offer of prizes to the value of over \$8,000 in competition open to subscribers only, has been most gratifying. The nature of the competition renders it a reliable one, whether the competitor wins a prize or not. The period covered by the competition does not expire until June 30th and all persons subscribing now may compete as readily as any and on even terms. For full particulars of the competition send a sample copy of the journal itself, send 12 cents in stamps to the publishers, The Scotian Litho. & Pub. Co., Montreal.

DEATH.

PHILLIPS—In Toronto, on 20th, the wife of Dr. A. M. Phillips, N. B. of a son.
