APPRECIATED!

Our Efforts to Please our Customers.

When the public expresses a want, we are bound to supply it in a little better shape than any other house. This is in part because of our long experience in watching its wants and providing for them, and partly because of our knowledge of and access to the manufacturing centres of the Old World. Our position is unique in these respects.

If you want to know how our prices run, take a look through our stock of Gloves and Hosiery which we profess to sell at 25 per cent. less than anywhere else in the city. Or note the good value in three special lines of Dress Goods at 10, 15 and 20 cents respectively. Fine Serges at 40 cents, and Black and Colored Henrietta Finish Cashmeres at 50 cents.

Dividing interest with the Dress Goods are the Jackets and Wraps, and they are worthy comrades, essential to each other. The most stylish Dress with an indifferent Wrap, or the reverse, always fails of satisfaction. To meet the demands of intelligent taste, these two stocks must be equally perfect, and they are.

"I think the Hats and Bonnets are just lovely this season!" Of course it was a woman who said it, and of course it was G. B. Ryan and Co's she was talking of. The hats and bonnets are charming. More graceful in design, and more dainty in outline and trimming than for many a season past. The reasons of our superiority in this department you are well acquainted with. We do not need to give them here.

MANUFACTURING DEPARTMENT. Millinery, Mantle, Dressmaking, Clothing.

In all these Departments we have the very best talent, and in each there is a large per centage of increase from season to season in the volume of business done, showing that the public appreciate our efforts to give them the very best work at the least possible price. It is always an easy matter to get the price down by reducing the standard of work, but our effort is to raise the standard of work and still keep the price as low or lower than those who produce inferior work. This can only be done by means of large capital to take cash discounts, access to the best markets, economy in business and close attention to the same, (getting to work at 10 s.m. won't de, we could not give our customers the best results in that way.) Good judgment in baying, selling only for cash, and a large turn over in proportion to expenses. In all these things we are pre-eminent and claim to sell from 10 to 20 per cent, under other houses in the same line.
