The Legislature in Maine has enacted a law which requires all public schools to devote some time each week to teaching kindness to animals. This is an excellent idea. If we are not mistaken not a few teachers in this Province, without instructions from the department, strive to make their pupils numane in disposition. A kind regard for the brute cheation will not make the rising creation any less manly or womanly.

The Church of England is taking a hold stand in the cause of temperance and prohibition. At the meeting of the Synod of Toronto Diocese this week the following resolution was passed :- "In the opinion of this syrod, the drinking saloons are unmitigated evils, and that we pledge ourselves to use our utmost endervors ! further all legislation which shall tend to the restriction and ultimate extinction such salocus.' Some of those who spoke on the question were anxious to make the resolution even more sweeping.

There has been promulgated the modus wivendi betweeen the British and American governments. It provides that Her Majesty's government will prohibit seal fish ing in Behring, sen in as far as it controlled by the power. Every yessel or person offending against this prohibition may be seized by ships of either power. I is provided that the governments may either or both of them, nominate arbitrators to settle any dispute/ Sir Juliar Paunceforte and President Harrison signed the document on behalf of their respective gevernments.

The temperance people of Halton are decidedly aggressive. The great battles electoral lists under the Franchise Act they fought, the victories they won, and under the heading of legislation provoked a delphia. the defeat they sustained-are these not little discussion near the close of session all written in the chronicies of the defunct | last night. And it is a fast suggestive of as to their intention regarding the revision the dominancy of their principles, that, in of the lists this year. He traced briefly the whole County of Halton there is but the history of the revisions. The first one newspaper opposed to the modes revision was in 1886. It was suspended in operanda of the temperance element .- | 1887; it was again suspended in 1888, and

Nearly all the Atlantic steamship companies carrying steerage passengers to New York have now taken measures to prevent the shipping of such persons as are legally debarred from the United States. They derided the new law when it first came into force two months ago, but they soon learned that it could not be successfully opposed, and afterwards that it would be to their advantage to sustain it and to aid in applying its provisions. They have ascertained, moreover, that it is easy for them to get all the steerage passengers they can carry without violating the American law.

The appointment of Mr. C. D. Barr, elitor and proprietor of the Lindsay Post, to the Registrarship of the County of Victoria, is one to which no possible exception can be taken, as Mr. Barr is in every respect well qualified to fill the position acceptably. This recognition of his services to his party, moreover, is well deserved, since the Post, in addition to being one of the best and strongest of the provincial weeklies, has done valuable work for the Liberal party for years past. Mr. Barr will doubtless prove as capable in his new ephere as he was as a journalist, and nothing more could be desired.

The new system of fares introduced by the railway managers in Austria and Hongary is said to be the chespest in the world. The usual fare for third class passengers is about 6; mills a mile-which would be \$6.50 for a 1000-milé trip. The commutation rates for lead service are still lower. Workman can travel to and from their places of work for two cents a trip up to eix miles; for four ceuts up to twelve miles; str cents pp to cichteen miles; eight to twenty-fenr; and ten to thirty miles. Yearly tickets good for 30-mile trips daily are sold for \$17.40. Girange as it may scent these rates have proved profitable to the railways, the treffic having increased so rapidly that the accomodation is taxed the nimost. United States managers have been considering ite introduction.

Abbott undertaken the formation of a Cabinet, and that this decision has been arrived at with a full understanding with those of colleagues who have been spoken of connection with the premierable and with assurances from them of their cordial

The only question now exercising the political seers at. Ottawa is whether the new arrangement is to be temporary ermanent. The manth of the dead Chief tain has descended upon the Conservative cader of the Senate, and Hon. J. J. Abbott is Premier of Canada to-day. It is an pen secret that Sir John Thompson, the Minister of Justice, was first entrusted by the Governor-General with the task forming a Cabinet, but declined the honor, and referred his Excellency to Mr. Abbott, By a formal order issued from the war whom he strongly urged to accept the call. There can be no doubt that Mr. Abbott's selection is the result of a compromise. THE NEW PREMIER.

The new Premier is upwards of 70 years portfolio, and while not a strong man politically, is regarded as eminently safe Belgian railway officials, after three and feliable. This Mr. Abbott refused to concede because of the undue preponderence which it would give to the Quebec section, and Mr. Chap in his old position as Secretary of State.

THE NEW LEADER IN PARLIAMENT. It is thought to be a misfortune that the new Premier will not lead the ministerial forces from the benches of the House Commons. His position will be materially weakened through his absence from the fighting arens, although it is understood that Sir John Thompson, who retains his position as Minister of Justice, will be the Government mouthpiece in the popular chamber. The uneven fight which is sai have taken place between Sir John Thompson and Sir Hector Langevin for the leadership in the Commons had only one possible ending and the minister of Justice will of course be the leader of the party in power.

REVISIONS OF ELECTORAL LISTS. The item of \$150,000 for revisions the list was revised in 1889. It was dead in 1650, and he wanted to know whether it was to die again in 1891.

CONSCIENCE MONEY. Mr. Fremont, M. P., to-day forwarded to the Marine Department the sum of \$2 conscience money. It had been handed to him by the Jesuit fathers at Quebec from a person who had come under their influence, and felt bound to pay to the department that which he had neglected to do for some TANKEE FISHING SCHOONERS.

Collectors of customs on the Atlantic coast of the Dominion have been notified to look out for three Yankee fishing schooners, Sir Knight, Lady Elgin and Flora Delloway. The two former at Shelburne, N. S., and the latter at Barrington, N. SIRJOHN A. MACDONALD.

The issue of The Dominen Illustrated to the 20th inst. will be devoted almost exclusively to an account, with full illustrations, of the event which is in all men's minds, the funeral of the dead premier, Sir John A. The Dominion Illustrated sent its own photographers and artist to Ottawa and Kingston, and the number to be issued on the 20th inst, will be a memorial worthy of the occasion, and one that throughout Canada will be preserved as a sad souvenir of the man whose death has left so great a void in the hearts of the people as well as in the public life of the country he has served so in large figures. long and so devotedly. -

HOW MUCH WHEAT IN A BARREL OF FLOUR

Ordinarily four and one half bushels are counted equal to a barrel of flour, but there is reason for thinking that, taking a scason's run in a good mill, with careful milling, on average wheat, with a record of receipts and sales of flour, accurately kept, the score will run very close to five bushels of wheat to a barrel of flour. Only last week a well-known winter wheat miller, who grinds large amounts, told that his records of wheat received and flour made on the grain of the 1889 crop called for a figure so close to five bushels that he was content to let it go at that .- Milling World.
