TO THE FEW

Who are Over Two Years in Arrears
for Their Subscriptions.

The Free Press is desirous of holding all its subscribers, and it is only natural from its lists with great reluctance, but the desire to hold names does not carry the publisher to the extreme of submitting to send the paper for nothing. There are very few who seem to expect this; to the credit of the Free Press' readers, and as evidence of the class of people among whom it circulates, it must be said that a few who like the publisher kindly in mind, and attend with a fair degree of promptness to their renewals. There remain a few, however, who neglect their obligations, and as requested repeat have failed to produce an effect up to this time, it is hoped this kind reference to the matter will bear fruit and remittances follow from all in arrears.

When the price of the paper is so cheap, and modes of remittance so easy and safe, subscribers who allow their accounts to overrun two years need not be surprised if the publisher ceases to hold them in his list, and with a fair degree of promptness to their renewals. There remain a few, however, who neglect their obligations, and as requested repeat have failed to produce an effect up to this time, it is hoped this kind reference to the matter will bear fruit and remittances follow from all in arrears.

NOTES AND COMMENTS.
The Canadian Pacific railway authorities declare that the company has up to date moved three million bushels of this season's grain from North-West points to the lake front. The movement of grain is now proceeding at the rate of one hundred thousand bushels a day.

According to the latest enumeration, Canada has a Roman Catholic population of 2,922,432 souls. The clergy is made up of 30 archbishops and bishops; 2,663 priests; 405 ecclesiastics. There are also 12 seminaries, 28 classical colleges, 467 pensionates and academies, 2,782 schools for boys and girls, 145 hospitals and asylums, and 105 religious communities. The churches number 1,820, and the chapels 215.

The Telegram sums up election trials in the following fashion—Election trials practically decide not which party is most virtuous but which is the most trifling in covering up its tricks. Members are unseated generally because supporters are bad enough to use money corruptly and not bad enough to forget all the facts when they are in the witness box. The members whose agents are bad enough to swear them round the copper, keeps her seat.

The representative of the United States at the Emigration Conference recently held in Paris says that the consensus of opinion in the congress was that consular inspection was necessary for the reception of emigrant traffic from France to the United States. He also expressed the belief that an inspector should accompany every emigrant ship and mix with the emigrants in order to learn their real character. If he prevented half a dozen criminals from landing in each year he would more than earn his pay.

The British Trade and Navigation return for the first nine months of the present year show that there was a falling off of about £9,000,000 in exports from the United Kingdom as compared with the corresponding period of the previous year. Of this decrease only a little more than one-third was to export to the United States, and this is fully accounted for by the abnormal exports of the September quarter of 1890, in anticipation of the McKinley tariff. The figures for this year show an increase of £9,000,000 over those for the same nine months of 1889.

The revenue of Canada for the month past was \$2,569,307, and the expenditure \$3,881,457. The revenue for the five months of the fiscal year ending November 30 was \$15,038,617, and an increase in twelve months of nearly two millions. The expenditure on account of consolidated fund was \$3,981,457 for the month, compared with \$5,514,811 for November, 1890. In the five months of the current fiscal year the expenditure has been \$12,565,074 against an expenditure for the corresponding period last year amounting to \$11,793,449.

The final revision of the Dominion Voters' List for the county of Halton was completed last Thursday. The list is now in the hands of the Queen's printer at Ottawa, and will probably be gazetted on Saturday. It has been stated in the daily press that the writ for a new election in this county has been issued. This is a mistake. No writ for Halton has yet been issued. The fixing of a time for the new election will, no doubt, depend a good deal on the decision of the Government as to when parliament will be called together, and what time the new voters' list will be ready for use.

In a patriotic address at Kingston the other evening Rev. Principal Grant claimed that the recent exposure at Ottawa will sweep some persons in Canada from public life. The demand of the hour was made for Parliament who are not merely party-hawks or seekers for office. They wanted men who were unselfish and honorable. Men who could rise above party so that their own actions would demand sacrifice. Leaders rose above party to federate the Dominion and steadily man can rise above party to serve a nation from corruption. Canada must have a pure and honest Government when she has ever had, with none of both parties in it, and strong enough to repel trifled overmen instead of offering but slight apologies for them; strong enough, without forfeiting from conscientious or sole considerations. If they could not get such a Government, then evil days were in store for them. He called for courage on the part of electors. If they demanded a good government he declared they can have it.

Preston School Damaged by Fire.
Peterborough, Dec. 7.—At half past eight o'clock this morning the fire alarm was sounded, and it was found that the Preston public school was on fire. By hard work the pump in the hall building was saved. The part totally destroyed was the wing which contained the Kindergarten, fifth division, and the class-room. The Galt fire company was sent for and quickly responded, and was soon throwing a strong stream on the building. The building was insured.

THE HESLOP MURDERERS

At last there appears to be a clue.
Damaging statement.

THREE MEN IMPLICATED.

Brantford, Dec. 8.—There is a strong probability that the Heslop murder mystery is about to reach a solution. People have almost forgotten the circumstances of the sensational end of the Lancaster treasurer, but died while so placidly defending their home last January, but while public opinion has been content to let the tragedy pass away among the list of unexplained mysteries, the machinery of the law has been quiet, but it is believed none has been truly closing round the perpetrators of that dastardly deed, and matters have now just, about reached a climax. The number power of the police force has been to the belief that the truth would sooner or later be disclosed and so it has turned out. From the first Chief Vaughan, of the Brantford Police force, has reason to suspect that John Beerman, a white man, living at Middleport, near the Indian Reserve, and, who bore a bad reputation, knew something of the affair, and it was accordingly decided to arrest him on a charge of stealing steers. Ossutawatomie and County Constable Hunter were entrusted with the task of capturing the culprit, and when they secured their man he was under the influence of liquor and made a damaging statement which seemed to more than confirm the suspicion entertained. He stated that if they would let him off on the cattle stealing business he would put them on to something a great deal better, after asking if there was not a reward of \$2,000 offered with regard to the Lancaster business and also remarking that knew who did it, and that he could tell where the jewellery was.

FEAR AND TREMOR.
When brought to the jail here Beerman, who had somehow recovered from his醉, sat pale and trembling, and it was noticed that when the door closed behind him he manifested a fear and apprehension altogether out of proportion to the crime with which he was ostensibly charged. The police was committed for trial, and his case is down to come up at the County Court, which opened here to-day. Meanwhile Detective Greer, of Toronto, had been at work on another task. As the result of his inquiries he went to Lewiston and begged a couple of Indians named Samuels Gooley and George Douglas to this side of the line, when they were arrested and lodged in Brantford jail, where they have spent three weeks past on the trivial charge of which they were held, of arresting Beerman on the direct charge of murder, and the others for alleged complicity in the crime.

It is asserted that both the Indians have made statements at different times to various people, in which they have, so it is alleged, given stories of the crime which fit in very closely with the account of the two unfortunate witnesses of the crime—the mother and daughter. When they were told that Beerman had said he would tell who killed Heslop both the Indians volunteered statements to the police, which, if true, would be strong evidence in confirmation of the detective's suspicion in regard to Beerman.

A MARVELLOUS ESCAPE.
Samuel Jackson, Puslinch, Thrown From His Wagon by a Train.

Galt, Dec. 7.—This evening about 6.30 o'clock Mr. Samuel Jackson, of Peacock, farmer, in driving over the Hartwood street railway crossing had a narrow escape from instant death. A passing train caught the rear end of his wagon, twisting it around, the sudden jerk throwing Mr. Jackson to the ground. He plucked himself up to the rails and, although the wheel of the wagon passed over him, he managed to bring the horse to a standstill. When picked up it was found that he had not sustained any serious injury.

SOUTH OXFORD ELECTION.
No Evidence Offered Against Sir Richard Cartwright at Ingersoll.

Ingersoll, Ont., Dec. 7.—There was an unexpected termination of the election petition proceedings against Sir Richard Cartwright this morning. It was in this petition that the treason charge was made against Sir Richard Cartwright, Mr. Learier and Mr. Ernesto Wimber, of Ingersoll. Falconbridge and Street took their seats on the bench at eleven o'clock, when Mr. Welsh, for the petitioners, said that he was instructed to offer no evidence in support of the petition. Judgment was pronounced dismissing the petition with costs.

HUNDREDS OF DEAD DUCKS.
They get Caught in the Niagara Rapids and are Carried Over the Falls.

Lockport, N. Y., Dec. 8.—One of the strangest things that has happened at Niagara Falls in some time is the large number of wild ducks which have been going over the falls the past week. The birds which have been centring in large numbers over the Falls for two or three weeks past float down the river until they are caught in the rapids and seem unable to rise out of the swift current and are then whirled over the brink. The largest bag of this game was made the other night when a dozen hunters picked up some 400 in the river below the falls.

Dismissed. From the Civil Service.
OTTAWA, Dec. 7.—An Order-in-council has been passed formally dismissing from the civil service John R. Arnold, A. E. Bradley, Horace Talbot, Ernest Dionne, Auguste Henrion and H. J. Bronkirk. None of the above have received pay from the Government since their suspension. Mr. Bradley was within a year of supersannation, when he could have retired from the service and been entitled to nearly \$2,000 a year. The wrongdoing of every one of these men was exposed by the courageous course of the Parliamentary committee last session, and the Government had no other course open to them than to dismiss them.

CAPTURED BY CUPID.

Princess Mary of Teck Wins the Heart of Prince Albert Victor.

London, Dec. 7.—Prince Albert Victor, Duke of Clarence and Avondale, the eldest son of the Prince of Wales, on Friday proposed to and was accepted by Princess Victoria Mary, aged 15, the only daughter of the Duke of Teck, at Eaton Hall, where both have been staying lately with a large party. The young Prince came to London to inform his parents, who had been defending their home last January, but while public opinion has been content to let the tragedy pass away among the list of unexplained mysteries, the machinery of the law has been quiet, but it is believed none has been truly closing round the perpetrators of that dastardly deed, and matters have now just, about reached a climax. HAPPINESS.
Happiness often consists in reading a good paper, one that leaves a pleasant smile on the mouth, one that can rise upon you with pleasure with the knowledge that you have gained something of permanent advantage. There are papers which do not give this happiness, but which, while exciting for the moment, result in permanent evil, although the immediate effect at the moment may not be apparent. The Mental Witness is a paper of the first class. It is good; The Own Little Liver Pudding we will give to 2,500 persons who will dispose of three, six, nine or twelve boxes of our Pudding, at 25c. per box amongst their friends, an elegant assortment of the finest Watches, Silverware, etc., etc. You pay no money in advance.
