NOTES AND COMMENTS.

Mr. Henderson, the Conservative candidate for Halton, is a man of good common sense, an able speaker, and an expert politician. He will find our young friend, Mr. McGregor, a woman worthy of his steel.

There should be no doubt as to the result of the election to be held in Halton, Ontario, on the 29th inst. Mr. Henderson, who is again the Conservative candidate in that constituency, was properly considered last session as the Ministerial following from Ontario.

Shortly before the new year the Statistical Institute in Madrid made public the results of the last election in Spain, according to which the country contains 8,612,231 males and 8,088,138 females, or a total population of 16,700,369.

While the supply of natural gas in many important American centres is giving out, the wells on the Niagara peninsula are showing no diminution, and in other parts of Ontario large flows of this fuel are being obtained.

A cablegram has been received by the Dominion Government from the Imperial authorities with reference to the pending reciprocal arrangements between the United States and the British West India Islands.

GOLDEN LION, Guelph.

A Fashionable Cut.

That isn't the kind of a fashionable cut that you get with one of our \$14.00 suits. It's necessary to fall half the length about 1000, and leave the other half outside. There's money in it—more money for you than for us. They were made with an eye to the producer's interest—they were made for service as well as for show. This eye thing will bear all the emphasis we can give it! You may easily do worse; you cannot possibly do better, and the chance are you won't do so well.

MANTLES

This is the subject we delight in. It must be on account of the delightful goods we show in this line. The reason why we have not said more about them in this fall, it is so well aware of where they can see the largest selection and the Best Value in had so many other lines to talk about.
