Montreal saloon keepers have been evad mig the hoense law, and keeping open on Sundays, by selling five cent luncheon tickets, which they contended constituted the purchasers boarders, and entitled them to all the liquor they desired. Last week Judge Desnoyers decide Fthat the luncheon ticket scheme was a violation both of the spirit and letter of the law and fined the saloukeepers \$100 and costs in each-case.

After eighteen months of persistent en course deavour to enforce the Scott Act in Susser N.B., which has been resisted in a spirit of desperation on the part of the liquor sellers, the temperance party has succeed ed in crushing the traffic, largely through the efforts of Rev. An interesting bulletin has just been issued from the census bureau relating to the religious of the Dominion. The statistics given show that the Methodists have made the greatest proportionate increase in the Dominion as a whole; follow ed by the Presbyterians, the Church of England and the Roman Catholics in the order maned. Two denominations have increased their strength in every Province in the Dominion-the Roman Catholica and the Methodists. The Church of Eng land has decreased in New Bronswick and Prince Edward Island. The Presbyterians have decreased to New Brooswick, Nova Scotia and Prince Edward Island. In Manitoba the growth of Presbyterianism has been remarkable, more than 28 per cent. of the whole population falling to that denomination. In British Columbia the growth of the Church of England is even more remarkable, that body baving 31 per cent, of the total increase of the population.

How Legislators are Paid-- Georgetown Divorce Case--Newfoundland Accepts.

NOTES FROM THE CAPITAL,

Owing to the adjournment of the House on Friday there is little to report as to the doings of that body. The following partieulars as to how the country's legislators are paid will no doubt interest many Free Phase readers :- He who comes to the room wherein this letter is written must pass a green baize door half way down the corridor. If he be an observant visitor he may capy a member of Parliament issuing thence with many bank notes in his hand. The room to which the baize door gives entrance is that of Mr. Robt. Brewer, accountant of the House of Commons. Than him you will find no more popular man in these buildings : than him none can tell more entertaining tales of members and other common men who have left this Hill for-

ANTCHOTES TOLD IN CONFIDENCY. Going some day into the cosy room where the versatile Brewer does his work, you will find him filling out many square, blank forms. You will be invited to sit down, and, having properly protested against being allowed to interfere with work, you take a chair facing the green lawns, and the Bodega' saloon, issuing from the doors of which are members of Parliament. The blank forms which Mr. Brewer is filling up are the declarations which the members of Parliament have to make concerning the number of days which they have served the country in the House. A member gets paid only for the days upon which he is in the Camtal, but he can declare that he has been present every day, when he may not have been in Ottawa half the time. This of

ONLY & WICKED MEMBER would do. From the sessional indemnity of \$1,000, eight dollars are deducted for every day's absence from Ottawa. Most of the members wait until the end of the lump. But there are some who draw the allowance in fifties and hundreds. Improvident Commoners may in fact get their pay is advance, but they can only draw seven dollars a day for as many days as that the limit of \$1.000 is not exceeded They tell of a certain Frenchman who, while he was in the House, went every norning with unfailing regularly to Mr. Brewer's office and collected his eight dollars. This gentleman differed from Sir Donald Smith, who since 1887, has DEATN NO INDEMNITY.

The old gentleman is in doubt as to the number of days he has been absent, and declines to make a declaration on account of this uncertainty. So Mr. Brewer now has several thousand dollars standing to the credit of the old knight from Montreal. Sir Donald is said to have announced that he would leave the money to some charity. But you may be sure that Sir Donald is the only one of his kind in the House. THE GEORGETOWN DIVORCE CASE. The Senate Divorce Committee were en gaged Friday morning and evening in taking evidence on the divorce application of Robert Bennett of Georgetown. The committee have not yet decided whether or not they will compel Bennett to advance money to his wife to enable her to defend the sait. Some evidence was taken in support of Bennett's application, a Milton man swearing that he had had criminal connection with Mrs. Benuett. The case will be resumed after the holidays.

THE OVER WORKED SENATE. The Senate had another long discussion should adjoarn, whether May 30th, June 1st or June 6th. Mr. Read, of Quinte, looking at the political situation, believed they would be here the best part of the summer, and he therefore favored a long adjournment, especially as there was very little business for them to do. As usual, there was a long discussion on this question of adjournment, which revives all the youthful fire of the senstors, and animates them with prolonged eloquence. Premier Abbott said should a few more long adjournments take place the agitation for the abolition of the Senate would become seru-

ous. The hon, gentleman finally agreed to adjourn until May 31st. NEWFOUNDLAND ACCEPTS. This is the time of year when every housekeeper is confronted with the question of repleuishing household supplies, among the most important of which are Housekeening Linens. Curtains and Curtain Muslins,

CARPETS ...

In Carpets it has got abroad that our prices are the lowest. This is not by socilent. Our reasons are many and varied for the close figures at which we will sell these goods, but the fact remains—our prices are as little as good clean material, honest work and honest dye will permit.

One of the marvels of the present day is the perfection attained by the English and Swiss in weaving Lace Curtains. These we show you in almost every conceivable variety, and at all prices. Chenille Curtains and Porteries, also, in effective, graceful patterns, and agreeable colorings. Our values in Curtains are very special this season.

In SMYRNA RUGS, MATS, CHINA MATTINGS, CRUMB CLOTHS LINOLEUMS, DIL CLOTHS, &c., &c., our assortment is very complete and prices low, We would draw your attention specially to a line of WINDOW SHADES with WIDE DADO HORDERS which we are selling at \$500. They would be cheap at 500
