NOTES AND COMMENTS.

THURSDAY, JUNE 16, 1882.

President Harrison has received the Republican comination for the Presidency. Blaine fuled to capture the convention .s. he hoped. There will probably be a sharp struccle between Harrison and Cleveland at the coming election contest.

The Act passed at the recent egesion of the Ontario Legislature, to prohibit the sale of tobseco, cigara, or cigarettes to persons under 18 years of age came into oper ation on June 1st. The penalty for selling or giving to such persons is not less than \$10 or more than \$50. Any person actual. ly under Is years, found using cigars. cicarettes or tobacco on the streets or in any publiculace is liable to a fine of \$1 to 55 for cach offence.

on its soldierly appearance. #Centus Bulletin containing the first of a series of reports upon the manufacturing industries of Canada, bas just been iesuel It gives the total number of ludustria establishments in Canada, irrespective of mining, as 15,765. In 18-1 the number was 42,923, an increase during the ten years of 25,842, or nearly 52 percent. The total number of employees in these establishments in 1891 was 877, 196, an increase of 112,361 or 44 per cent.

White Optario has had an over abundanze of rain the drought on the lower Rio Grande border continues anbroken. The napally-green range there is as barren as Sahara and seed planted in the spring had not apposted. In this particular region the losses of live stock will be ninety per cent. Great destitution exists among the Mexican population, which comprises three forthe of the inhabitants of this region and but for the contributions forwarded from various points in Texas, and by the Red Cross Society, hundreds would have starved to death.

The equalization of the assessments of the various municipalities of the County as effected at the meeting of the County Council last week was not so much of a farce as that of last year. The basis this year was an addition of five per cent. In the assess ment of the townships and a reduction of five per cent, from that of the towns and villages. The county rates for the various municipalities for the present year as follows :- Trafalgar, \$2652.12; Esquesing. \$2501.79; Nelson, \$1916.64; Nassagaweya, \$1016.31 : Milton, \$365.92, Oakville, \$447.31 Georgetown, \$2:0.03; Acton, \$217.95; Butlogton, \$319.96. Acton's appropriation is 34.31 less than last year.

Mr. Walter Shanley has written in favor of Prescott as the seat of a large grain elevator, because it is really the foot of lake navigation in Canada, and has a deep water front, where the largest vessels now navi gating, or that ever will pavigate these waters, can be brought close along side the rail, which also can be cheaply laid close along the water front, and where elevators can be so placed that long frains of cars can be pushed through without break of length; instead of as in most other places, expediting the handling of grain.

A bery of twenty-five beautiful Swedich girls, with red cheeks, blue eyes, blonde hair and trim figures, reached New York recently, bound westward with avowed object of busbend-getting. Before buying their tickets in Stockholm they had, sent their photographs to Minnesota; and ac enthusiastically were the samples received that, as one of the originals coyly remark ed: "Some of us have had as many as a dozen ofers of marriage." Commenting on this, the Philadelphia Record says: "While not precisely an evasion of the Al ien Contract Labor Law-though a farmer's wife in the West can find plenty of labor to turn her hands to-this new Swedien cure for the ills of bachelorhood in the agricultural States will bear watching by our home market maidens. There are thousands of the latter who, with a of turning out pies in sufficient number for the barrest time, would make ideal farm and embrace their opportunities."

Among the notices in the House of Com mons this week is one by Mr. W. Maclean of a motion to add a clause to the Midland Railway Bill, stipulating that po higher rate than two cents per mile charged for way passengers. It is probably the first attempt in Canada to regulate the rates of a railway company by legislation, although such supervision has long been assumed in the United States. It is not generally known that the railway rates. both for passengers and freight, are subject to the approval of the Railway Committee of the Pricy Council. The railway companies are required to fix their rates by a by-law that must be approved by the Governor-General in Council before aby change can be made. In addition to this, his Excellency may at any time declare a modification of the rates, although he may have previously approved of them. If the discussion of the legislative experiment profuces no other good result, it will least serve to inform the people of the saddress on the prisoner's behalf, and after Dominion that railway rates are indirectly under their coutrol.

## AN OPEN LETTER-MRSTOREY'S REPLY TO MR. WARREN.

MR. JOHN WARREN :-Str.-In replying to your letter of in tive and abuse, contained in last week's issue of this paper, addressed to me, should prefer to be governed by those ameultice prompted by gentlemanly instincts, and not descend to the low, coarse doggerel of personal abuse which characterizes your communication. It is by no means a difficult matter for a person to discover his origin, his passions and his early training by the methods he adopts in conducting a discussion. Ignorance may indulge in vituperation and assertion as its last resort in a lost cause; but to carry conviction to intelligent minds it must at least be sustained by avidence. If "out of the fullness of the heart the mouth speaketh," then the baseness of your letter bespeaks its origin. Take from it those portions consisting of villufication, distribe,

to deal with. I propose, however, to deal with you in such a manner as to convince the public of one of two things; either that you are ignorant of facts, or incapable of stating them. In doing so I shall not stint with the pessimist and pertainly very little necessary action to cope malicious censure. for you Now sir, you have stated on two occasions that I wrote the Grand Trunk Railway Co's solicitors on the question of compromise in the county's suit. After my letter denying your first statement you boldly roiterate the statement in last week's issue,

"Respecting the assertion you make that you did not write the Company's solicitors on this mittee meeting with the solicitors the chairman reported to the Council, and was saked to state what was the cause of delay, he remarked that this question was saked by the committee of Mr. S. In conclusion, respecting your estimate e replied by reading your letter, and holding it unfavorable, as your good opinion would be a damage to me. I am quite willing, however, to place my record of thirty-six years in this community alongside of yours without the least four of its suffering by comparison, though it might by contact. Your concluding reference to Storey's Factory and others is but one more instance of your petty animus, and will be remembered.
