MRS. HARRISON IS DEAD.

The Country Mourner with President Harrison in the Last of His Wife.

Windsor, Oct. 26.—1:40 a.m.—Mrs. Harrison's illness has the outcome of grip during the winter of 1920-21 which left her with a cough lasting for several weeks.

While at Cape May Point in the summer of 1921 she contracted a cold which caused a return of the cough, and it lasted during the winter of 1921-22.

She was sufficiently strong to go to the hospital at the end of the winter, but she had a second attack of the grip, followed this time by catarrhal pneumonia lasting about nine days.

The coughing spells then increased in severity until at last they were accompanied by bloody expectoration, and about the first of May she suffered from hemorrhage of the lungs which, although not very severe, caused great prostration.

An examination of the lungs several days later revealed a dullness at the apex of the right lung. From this time until July 6, the date of her removal to Loon Lake, N.Y., there was a rise of temperature of about two degrees each night, and her respiration was labored and irregular.

Several days after her arrival at Loon Lake she commenced to improve. On September 7 she was stricken down with an attack of sub-acute pleurisy, accompanied by an effusion of fibrous fluid, completely filling the cavity of the lungs on the right side.

The disease progressed steadily, resisting treatment with every known remedy, until eventually the left lung became involved, and then the condition of the patient was hopeless.

At the time of Mrs. Harrison's removal to Washington, September 20, her right lung was the seat of a pleurisy. The disease progressed steadily, resisting treatment with every known remedy, until eventually the left lung became involved, and then the condition of the patient was hopeless.

Neill sentenced to be hanged.

LONDON, Oct. 21.—The jury in the Neill case have returned a verdict of guilty. They were out only five minutes. Justice Hawkins at once sentenced Neill to be hanged.

After the verdict was announced Neill was asked if he had anything to say why sentence of death should not be pronounced against him. He shook his head in the negative, but did not open his lips. In sentencing the prisoner Justice Hawkins said the murder of which Neill stood convicted was one of diabolical and unparalleled atrocity. He did not dare to trust himself to speak regarding the details of the crime. The law knew but one penalty and that was death.
