The First of the Season.
An interesting chess match was played by the club on Monday evening. The sides were captained by John Harvey and James Matthews. There were fourteen sets of players and six games were played by each. Eighty-four games were played and Matthews' side won the laurels by twelve games. The checker club now numbers some thirty-two members.

Christmas Entertainments.
The various Sunday Schools will soon be busily engaged in making preparations for the usual holiday entertainments. St. Alban's Sunday School has a concert and tableaux on Monday evening, and Knox Sunday School will probably arrange for their usual anniversary on Christmas night at a meeting to be held this evening, and Knox Sunday School has in view the customary New Year's evening entertainment.

The New Public School.
As this fine building for our public school nears completion its appearance is enhanced and beautified both within and without. The porch and bell are now about completed and present a fine appearance, and the metal crest surrounding the deck of the roof, put up this week, gives a finished appearance to the building. We understand the contractor will about soon place his contract this week. The Free Press will give a detailed description of the building in a week or so.

A Good Appointment.
Rev. Dr. Griffin of Galt, was last week elected to fill the vacancy caused by the death of Rev. James Gray, Treasurer of the Representation Fund of the Methodist Church. Dr. Griffin will fill the position with grace and ability and to the general satisfaction of the church at large. While the members of the Geolp Conference will feel his retirement from active work within its borders very keenly, they realize that the importance of the office demands the services of one of the best men in the church, and unfeignedly wish him God-speed in his new relations.

Died at her Home in Saginaw.
The following is sent for publication in the Free Press by friends of the deceased:—After many months of constant suffering, Mary Catherine, wife of George Forbes, died at her residence in Saginaw, Mich., at 11:20 a.m. November 22nd, of consumption. She was born in Hutton Co., Ont., and has resided with her husband in Saginaw for the past 15 years. She leaves a husband, one daughter and three sons. The funeral took place from the house on Thursday afternoon, and was largely attended. The Rev. Alex. Danks and Rev. Dr. Washburn officiated. The interment took place at Forest Lawn Cemetery.

The Public Health.
Dr. Iren, Medical Health Officer, has handed the Free Press the following note for publication:—

During my term of office as Medical Health Officer several anonymous complaints concerning the sanitation here have been sent me. These have been sent on the past. However, in the future such complaints must be signed by some person. The name of course, will be treated with confidence so far as is compatible with my duties.

Those interested should accede to the very reasonable request and give their complaint force by signing their names to all communications to the Medical Health Officer.

The Municipal Elections.
As the coming municipal elections will be held on Monday, 2nd January, there will probably be a very large vote polled. The state says they must take place on the first Monday in January and the nomination a week before. Christmas and New Year's fall on Sunday, but will doubtless be observed on the following Monday.

As to the nominations will practically be held on Christmas and the election on New Year's day. There is no election excitement as yet and the contest will, as a quiet indeed. The necessary School Trustees will be elected at the same time and place as the members of the Council, as arranged last year.

The Season's Crop.
After a careful investigation the Ontario Department of Agriculture has come to the conclusion that the crop of 1892 in this province has been to some extent disappointing. In eight of the leading field crops the yield has been below the average of the past eleven years.

There is an improvement in five crops, namely, fall wheat, rangel, warts, carrots, turnips, and hay. The acreage under cultivation does not vary a great deal, although it is apparent that the farmers are raising less barley and rye than formerly. Potatoes are very much below the average both in quality and quantity. It appears also that the fruit have in some localities turned out poor crops, with the exception of fall or early apples, which have been altogether too plentiful for the market. In the main the weather is responsible for the indifferent showing.

The heavy rains followed by a prolonged drought had a depressing effect upon nearly every branch of agriculture. Ontario, like every other country, has to take the good with the bad, and although we have not an uncomfortable abundance, the crop is sufficiently large to yield a fair return for the labour expended upon it.

It is currently reported that the Gladstone Cabinet, yielding to Radical pressure will delay the introduction of the Home Rule bill until after the passage of the franchise reform measure.

The Prohibition Commission has about completed its labors in British Columbia.

A DOSE OF

Ayer's Cherry Pectoral has saved many a precious life. Croup and Pneumonia are diseases that must be treated promptly, if at all. While you are preparing to call the doctor for your child, your neighbor has cured his little one with a dose or two of Ayer's Cherry Pectoral.

This medicine should be in every household, especially where there are young children. Taken at the first symptoms, it checks the progress of disease, and cures soon follows.

Ayer's Cherry Pectoral has a wonderful effect in curing colds. It was my little child's life that was saved by it. I was so anxious to see my child cured that I bought a bottle of Ayer's Cherry Pectoral, and after taking it for three months, my child was cured. It is the best remedy for croup that can be had. —Mrs. J. M. Doherty, Red River, Cal.
