Recent disclosures of bribery and corruption in connection with the Panama trials in France have caused a widespread conviction among the humbler and supposed ignorant classes that every man connected with the public administration has his price. A couple of old persons living in Puteaux sent 500 france to M. Cafnot the other day with the request that he - hasten the decision of a lawsuit in which they were interested. The money was returned but the couple cent again to the president of the republic, evidently believ. ing that he could not resist the temptation a second time.

One of the presidents of the board of tax commissioners of New York city recently recommended that all taxation of the personal property of individuals in that city be abolished and the levy placed only on real estate and corporations. He thought it would encourage rich people from all over the Union to go to New York and live, spending their money there, increasing consumption and making trade lively. It is exid that there is \$4,000,000,000 worth of personal property in New York state that adoually escapes the assessor as it is, and of course there are proportional amounts in other states.

It is evident from the discussion in th Senate last week that the Government in tends to take no chances in the matter of a cholers outbreak this year: A thoroughly efficient quarantine will be established atall important sea ports, and steps will be taken to goard the country against an invasion by way of the States. While pany him. authorities are divided as to whether we have to fear a cholera outbreak next aum mer, the general opinion among medical men is that the dreaded plague will find small encouragement in Canada, the healthy state of the country generally and | business of the municipality on Monday the excellence of our sanitary arrange. evening. Article of Merit and worth from which he or his family have been signally benefited, and whose commenda-tion may serve to extend those benefits to others by increasing their confidence. My wife has for many years been a sufferer from severe Nervous Headache

for which she found little help. She has tried many things that promised well but performed little. Last fall a friend gave her a bottle of Hood's Saraparilla. It seems surprising what simply one bottle could and did do for her. The attacks of headache decreased in number and were less violent in their intensity, while her general health has been improved. Her appetite has also been better. From our experience with Hood's Sarsaparilla

have no hesitation in endorsing its merits." HOOD'S PILLS are the bert family cathartie,

## MILLINERY

The success of our Millinery Department in the past is well known to all. We spare neither expense, thought, nor effort in producing Millinery that shall excell in every particular. Not content with this, we go jurther, and ensure our customers Millinery not only the best of its kind, and the most stylish, but different from that to be found elsewhere. All this, added to excellent workman-ship, will maintain our leadership in this department.

The time of year having arrived for the Spring Millinery Openings at the Torquito wholesale houses, the various milliners from this and other cities in Ontario have paid their semi-annual visit there, each one selecting a parcel of goods varying slightly, if at all, from that of her heighbor.

Our Miss Kelly sailed from New York by the "Britannic," on February 1st, arriving in Liverpool on the 9th. After spending 15 days visiting the various millinery centres in the Old Country, making selections from the foremost Millinery Manufacturers in the world, she completed her purchases in time to sail from Liverpool on the 25th by the "Servia," reaching New York about March 4th. She will remain in Mew-York for a few days, to purchase any American novelties she may consider desirable, and will then return home. We promise dur customers a range of choice in Millinery this spring that will somass any previous showing.

Our new goods are coming rapidly to hand. We have now 80 cases of goods in bond at the station here, which we shall pass. out in a few days, when we will be ready for our Spring Trade. i ...
