NOTES AND COMMENTS

The members of the County Council are evidently finding their \$85,000 somewhat of ap "elephant" on their hands. Now that they have secured the railway's money they don't know what to do with it, and it will legally disposed of.

Lerd Aberdeen has been appointed Governor-General of Canada, says a special despatch from Ottawa. His term will not begin until September. Lord and Lady Aberdeen sail this week for this country. ont they will spend the sammer in taking in the World's Fair and in rusticating at His Lordship's British Columbia rapch.

By the provision made for liquor option in Ontario any village, township, town or county, may secure liquor probibition. In thirty-five such municipalities the contest has already taken place, and in twenty-five of them it has been successful. An appeal was made by the liquor interest, after its mauner, to the Supreme Court, for the "queshing" of the law, but the decision of that court has established the validity and constitutionality of the law.

Mr. Marter's bill to prohibit the sale of liquar by retail men, will, it is said, not be allowed to go through the local house without apposition from the liquor men of the province. Opposition will be made to the meacure when it is brought up in the House, which will probably be to-day. Almember of the Opposition, it has been that the government will grant the demand for a plebiscite which is now being voiced by so many citizens of the province.

officials when they are guilty of taking members knew whether they had met to bribes. Baihant, the corrupt ex-minister | divide the fands or ron the whole G. T. R of public works, must be imprisoned five system. years, pay a fine of \$150,000, lose his rights | About the only thing accomplished was Charles de Lesseps and Baibant, gets two matter. years' imprisonment, while Charles de Lesseps gets five years. The three men together-Baihaut, De Lesseps and Blondin -most pay back to the Panama company's receiver the \$75,000 which was paid from its treasury as a bribe to Baihaut.

thy announced his determination to con- Union, presided. tions in the country the agitation in favor of tariff reform. During his speech he of the assets of the Confervative party. The stock in trade, he said, used to be the of the Union was also ordered to be printed Old Man, the Old Figg. the Old Policy. The Old Man was gone ; the Old Flag and | county. the Old Policy remained. S-izing a Union and they may keep the Old Policy." Ac. will be held about the 15th of June. cording to the Mail, "the people thundered | An interesting programme will be pre his feet, waved his baton, while the band struck up the Red, White and Blue, and playedit again and again."

Mr. R. W. Phipps, Superintendent of Forcatry, in writing to the press on this subject | C. Ford, Nelson. says with regard to the influence of forests on agriculture, it should never be forcotten that continued experience has proved them to be the chief means of modifying and The decidoous trees of a forest, after a joyable. heavy rain, distribute the overplus of moisture slowly to the surrounding atmosphere yet, in a few days, it is dissipated. Not so with the pine; it at once absorbs full half of the showers which fall upon it, and continues for weeks thereafter to impart their moisture to the air. So complete, where not destroyed by the operation of man, is the great plan of nature, that the gresence of trees in sofficiency renders a dry season more moist and a moist one more dry than they would have been had these natural protectors been destroyed. For these reasons Mr. Prippe looks with peculiar interest on the proposed establishment of a large forest reservation in Ontario, measpres concerning which, it is probable, will be taken during the present session of the legielature.

THE COUNTY COUNCIL.

Decide What to do With the Proceeds of the Rallway Sult.

NO DECISION ARRIVED AT. The County Council met at Milton Tuesday at 1.50 p.m. The Warden in-

seat speech pongratulated the members on the successful termination of the suit, Halton v. G.T.R. He then recommended so adjournment for thirty minutes in order that the Railway Committee could completo their report. A quartette of the members decided to visit that might botheir future home, the 'Castle

an Allan.' After securing the services of the gentlemanly and courteous manager they were conducted into the polished and whitened corridors. The first impulte of the writer was to look to his boots to see that he was not going to defile the precinct of the castle, for any place so scrupulously white and clean it is not of an one's privikge to enter. They got a practical lesson on cleanliness and economy. The company were assured by Mr. VanAlfan that the gentlemanly boarders" at the Castle cost the enormous sum of 4 3/5 cents per day, or \$16 10,44 per year. There are five prisoners, or rather, pensioners, one com mitted for vagrancy, who is chief cook, the

other four for "poverty"; and yet we ar told poverty is no crime, however innocenit may be. After thanking our conductor require some considerable time and possibly | we retired fully convinced that there are legicative action before the money can be | many more uncomfortable homes in the county than the County goal. The Council resumed business at 2 p.m deputation from the 20th Battalion

headed by their popular colonel, ad dressed the Council on the matter of supplementing the government pay, by a grant of \$500. But a somewhat similar request was made at the last regular meeting an this met with the same fate.

The Railway Committee then introduced their report and gave the Council a long array of figures showing the costs to date which amount to \$6,350. The amount of costs taxed to G. T. R. is \$1548. The amount the County will have paid when the last debenture and interest are liq uidated will amount to something over \$112,000. They also presented a letter from their solicitors which stated that so far they had been onable to find that any par ticular section of the County was especially mentioned. The bond given by the Railway was given to the whole county; the suit was entered and won by the whole County, and warned the Council lay themselves open for personal liability

without proper authority, as they might There is a great diversity of opinion in the though the measure was brought in by a Council as to the disposition of the funds and while there is no doubt all are disposmade a public bitl. The general idea is ed to give fair play, according to their light, they will be largely influenced by their own interest and the interest of the municipality they represent. The more the question was discussed the more perplexing it be decrease. Over 58,000 left the country is France knows how to punish public came until it was doubtful if some of the

OUR MUNICIPAL RULERS.

The Council and School Board both have Sessions Monday Evening. Both the Council and the Board of Edu cation met on Monday evening, but neither had much business before them. The Council met at eight o'clock and

after hearing the minutes were about to adjourn for want of business. At this juncture Mesers. W. Tarten and W. Jeans, representing Acton Cornet Band came into the Chamber and addressed the Council asking a grant of \$50 for the purchase of dew music and a new instrument

After briefly discussing the question, and explaining that as the Committee on Streets add Walks have not prepared their estimate for the year, the matter was 'tabled for some future consideration, upon motion of Councillors Havilland Williams. This matter was followed by a petition signed by about a hundred ratepayers, asking the Council to build a bridge and open Brock street from Main Street across the stream to Cook's survey. This was presented by Messrs. W. P. Campbell and W. Edmiston, property owners in the por-

Reeve Pearson stated that nothing could be done in the matter for the present, inasmuch as the Council had found the map of Cook's survey imperfect and mislesding, and in its present shape it could not be accepted by the Council. Again, when the lots were sold in that survey Cook promised to build bridges to facilitate the ingress and egress of residents to the property. The Reeve also explained that as Mr. Harvey has a right of way twenty-five feet on each side of the stream his interests

must be taken into consideration. Considerable further discussion followed. Moved by G. Havill, seconded by John Villiams, that the petition for bridge from Main Street to Cook's survey be laid on the table to be considered at some future time.

Council adjourned at 9 o'clock. The School Board met upon theadjourn-

ment of the Council. Rev. G. B. Cooke in the chair and all members present except Mr. Harding. An account of \$32.45 for blinds for the

new school was passed. The only other matter considered was | make their appearance creditable. the purchase of a new bell for the school. There is little need of advertising to create an interest and enthusiasm in what we are doing in Spring Millinery this season. We never had so successful a Millinery opening, never such large

ment is the latest the be had, nor that everything we show you is new and fresh in our Milinery stock. We do not send a special buyer to Europe for Mill nery alone, without showing you as a result all the leading novelties of that extensive market. In whatever locality any line of goods we deal in may be purchased most advantageously, there our buyer will be found.

For Millinery, that locality is Europe. New York Millinery has its good points, and for these our buyer visited it; but London and Paris are the points par excellence, both for style and price, for Millinery and goods pertaining thereto; and a single glance at the exhibit in our show room will do more to convince you of this than a host of arguments. We never made a more captivating showing of Millinery then you will find in our Millinery Department this
