NOTES AND COMMENTS. A report of the dividende remaining unpaid and unclaimed balances in the chartered banks of the Dominion for five years 9. and upwards, prior to the 81st December, 1832, has just been issued. In 1831 the balances amounted to \$417,374; last year they amounted to \$127,931, a reduction of part w | lot 2, con. 1, sam \$200.

The Dowager Duchess of Sutherland, after six weeks' incarceration, has been released. She seems to have fared very well while there and no serious results are anticipated. Her imprisonment has been 2, sam \$700. only a kind of chrysalis state, not at a unpleasant. No doubt the duchess would rather have served imprisonment than to have produced the letter which she destroyed and which has caused so much trouble, from the possibility that the intelligence of the cause of her first husband's death, as asserted in the destroyed parchment, would have revealed to the public her knowledge of Lieut. Blair's death, which

the Grand Trunk Railway Company has been compelled by the courts to pay to. Halton county some \$90,000 because the Northern Railway Company violated its independence bond by amalgamating with the Grand Trunk, the people of Halton are at a loss to know what to do with the money. There is going to be a big grab for it, and it looks just now as if the lawyers will reap a harvest of magnificent proportions. Henry Carrique, a substantial farmer of Trafalgar township, was in town to-day, and he got talking with a Spectator man about the situation. Mr. Carrique is a strong advocate of the policy of baving the money divided among the land owners of the six municipalities,; or 'portions of municipalities, which voted bonuses to the Northern railway twenty years ago and which have been paying for those bonuses ever since. These six municipalities are: Part of Nelson township, part of Trafalgar township, part of Esquesing township, the towns of Burlington, Milton and Georgetown. Shortly after the action between the county and the Grand Trunk had been finally settled in the courts, William Pettit and John Biggar, farmers of Trafalgar, instituted legal proceedings to compel the county to pay over the money to the municipalities interested. At a recent meeting of the Halton County Council two resolutions were passed which appear to be inconsistent with one another. One resolution was that the money should be paid to he group of municipalities; the other was that a solicitor be retained to defend the action brought by Mesers. Pettit and Biggar. This latter resolution has caused a storm of indignation among the land owners of the group of municipalities, who think it reveals an intention on the part of the County Council to rob the group of the money which has been awarded by the courts. Mr. Carrique says he thought Mr. Pettit's action against the county was premature and unnecessary when it was first

The entertainment in the Brick Church on Tuesday evening was very largely at-1:nded. Williams' Quartette Club renderel a large number of selections to the delight of the audience. Mr. Fred Christie of Toronto, read four or five homorous numbers from the works of James Whit. comb, Riley and others, but the attraction of the evening was the ventriloquial productions of Mr. Will A. Dixon, of Toronto, 5.30. who is a master of the art. His various imitations were remarkably true to life and affor led almost endless amusement. The programme was for the most part enjoyable but some who were present have doubte as to the propriety of holding an entertainment of this character in a church. : Rev H. B. Sunday Morning News, Montreal. Impressed with the penistency with which the most setouishing accounts of cures effected through the agency of Dr. Williams' Pink Pills for Pale People in a recitation which was given very acceptalmost all the newspapers in Canada and the United States, a reporter for the Bunday Morning News, to satisfy himself generally of the genuineness of these cures, determined to investigate a case for himself which had recently been brought to his notice, where the cure was claimed to be due entirely to the efficacy of this medicine. Aware that Dr. Williams' Pink Pills had been tried in the case of a gentlemen resid ing at 709 Sher rooke street, in the City of Montreal, who had for years been afflicted periodically with rheumatiem, the reporte set out on a journey of enquiry to accertain what the result had been. Arriving at the home of Mr. Ganville, the gentlemen re ferred to, he found him apparently enjoy-
