

**TALK OF THE DAY.**

**An Echo of the World's Dilemma During the Week.**

Hollis Harbor was taken over by the British on Monday. The British fleet is still in the harbor. The British fleet is still in the harbor. The British fleet is still in the harbor.

**The Acton Free Press**

THURSDAY, NOVEMBER 10, 1921.

**NOTES AND COMMENTS.**

It is thought that Parliament will meet for the depth of business at the end of January, and that this is generally expected to be indicated by the increase in the number of notices in the *Canada Gazette* of applications for new charters or amendments to old ones. Six such notices appeared in last issue of the *Globe*.

The world's greatest gold hole is at last to be closed. The Sultan has resolved to put Mexico into something like a healthy condition. The decision is the effect of an intimation from the British Government that unless the whole of the country is taken under the British flag, the Sultan will have to leave Mexico.

The Finance Minister has signified his intention of introducing a federal trust money act to the order of the day, and as strong pressure has been brought to bear on the Government in this matter it is likely that the desired legislation will be passed at the next session of the House. Complaints have been made from various parts of the country that the Government should not only to clean the town, but to erect at his personal cost a great lodging house capable of containing 5,000 persons.

The question of the coming vote on Prohibition should not be allowed to get mixed up with politics, and prohibition workers will make a mistake if they allow themselves to be side-tracked by the politicians. There are plenty of them in both parties to make a large majority for prohibition if all the votes are polled.

The woman's orange crop in Florida is much above the average in quantity, being estimated at 5,000,000 boxes, and is much earlier than usual. While during the whole of last season some 25,000 boxes were shipped through Savannah to New York, more have already been shipped there this year. Considerable quantities of oranges are now being shipped to Europe, where Florida oranges are now beginning to compete successfully with Mediterranean fruit.

The military displays and various other affairs keep Europe in a London cable says a German magazine publishes a summary of the military preparations of the various countries. The German army is estimated to consist of 1,000,000 men, more than 60,000 cartridges were used and \$10,000,000 was expended. Austria had 250,000 men, Russia called out 215,000, Germany 160,000, France 170,000, Italy 145,000, England 20,000, Spain 25,000, Romania 32,000, Holland 15,000, Belgium 32,000 and Switzerland 50,000.

New York auctioneers are reporting a hard time today, says the *Star*. The hard times have driven people to the last resort of selling their furniture, and many people are being driven to sell their houses. It has been a period of the rich and well-to-do people, who have adopted every conceivable means of raising money. That is one reason why persons who may have less cash can go to the auction rooms up town and buy furniture for a price a fraction of its real value. Some auctioneers, who are men of capital, are buying great quantities of second-hand material of the sort to hold over against the return of better times.

The financial situation will continue to be their annual "Thanksgiving" for President Cleveland's proclamation in regard to the day is "the day that day let us forget our ordinary work and employments, and as solemn in our usual places of worship, where we may recall that God has done for us, and where from grateful hearts we may utter tribute of praise and song may reach the Throne of God. Let the union of kindred and social meeting of friends lend cheer and courage to the day, and let generous gifts of charity for the relief of the poor and needy prove the sincerity of our thanksgiving."

The annual report of the inspector of penitentiaries for the fiscal year has just been issued. From it we learn that the number of convicts in the Dominion penitentiaries on July 1 was as follows: Maine, Kingston, 100; St. Vincent, 70; Paul, 304; Dorchester, 174; Manitoba, 71; British Columbia, 90. Total 1,144, a decrease of 31 as compared with previous statement. Of the above Kingston has 33 female and Dorchester 1 of the male penitentiaries at Kingston more than half are under 30 years of age. Rev. Mr. Cartwright, Protestant Chaplain, recommends the repeal of the rule forbidding the entrance of newspapers. He says if this were done discipline would be improved, and there would be less temptation to break the rules. The inspector endorses this recommendation.

The New York *Star* and *Spectator* of Oct. 26, says "The man, woman or child who goes hungry in this country has only himself or herself to blame, and if he or she starves to death it is simply suicide." The *Star*, commenting on the above, says: "The *Star*, commenting on the above, says: 'Hear it, men of America, for it is a declaration that fittingly repeats the old maxim that it is not the fault of the man who starves, but of the man who does not work.'"

The high position attained and the honor and respect which have been conferred upon Sir John Thompson, who was knighted by the British Government, is a fitting recognition of his services to the country. Sir John Thompson is the only living Canadian upon whom the honor has been conferred. When Sir John Macdonald completed forty years of public life for Majesty conferred upon him a like honor to that which has fallen upon the present Prime Minister. It is a fitting recognition of his services to the country.

**ELECTION BY-LAW PASSED.**

The Council met on Monday evening to consider the by-law proposed by the Mayor for the election of members of the Council. The by-law was passed by a majority of 10 to 5.

**AN AUCTIONEER'S STORY**

A truly valuable work is the Canadian Almanac for 1921. A list of all the Post Offices in Canada is given, with the railway which locates or nearest railway station through which the goods of the Dominion are to be transported. A most interesting article, "The Flag of our Country," written by a retired naval officer, tells us all about the flag and arms of the Dominion. The "House of Commons" is a most interesting article, written by a retired naval officer, tells us all about the flag and arms of the Dominion.

The Council met on Monday evening to consider the by-law proposed by the Mayor for the election of members of the Council. The by-law was passed by a majority of 10 to 5.
