**NOTES AND COMMENTS.**

Halton continues to hold the banner for prominence in moral reform. Our little county of four townships says "yes" for prohibition by the substantial majority of 1429. We are open for congratulations.

Windsor is Ontario's baby city. It gave a victory against prohibition in the recent vote. The  *Globe* says: Windsor is the only city that has voted that has voted against prohibition. The Baby City wants its bottle.

The Quebec Legislature was postponed on Monday. The deadlock between the Assembly and the Council was ended by the latter withdrawing their amendment to the city of Montreal bill, providing for the election of the Mayor by the Council.

The mayor will be elected as heretofore by the people.

At a meeting of the County of Waterloo Temperance Executive held at Guelph on Monday, a resolution was passed to the effect that the adoption of Local option may be a step backward and that the present duty is to work directly for total prohibition, to secure for the Local and Dominion House thoroughly honest pro-hibition legislation as may be within their respective provinces.

Graduated sugar is now cheaper than it has been before in the history of the trade in the United States. The sugar trust has fixed a price at 1 cent a pound, less 10 and 2 per cent discount, making the net price to jobbers 37 1/2 cents a pound. Among the causes tending to cheapness are the large Cuban crop, which is estimated 20 per cent over last year's yield, and the policy of the Sugar Trust to depress the price of raw sugar at the time the bulk of it comes into the market.

Statistics respecting disasters and crime in the United States during the year have been compiled by the Chicago  *Tribune*, the totals of which are food for reflection. Fire, in 1893, destroyed property worth \$185,366,000, and caused the death of 1,417 persons. Explosions killed 777, and mine disasters 536. There were 6,015 murders during the year, and only 1,26 official executions. Of suicides there were 1,033. The total sum embezzled during 1893 was \$19,296,000.

Oakville appears so be retrograding as far as its number of ratepayers is concerned. There is a strong probability that she will have only one representative in the County Council this year. The Star says: "According to latest reports Oakville is not entitled to a separate reeve. If this be so, the Committee on Finance presented their twenty-third report recommending payment of the following amounts:

Mr. McTigue, work on streets, \$4,11  
C. T. Hill, Township roads for street, 1,11  
John Atkinson, J. Atkinson, 1,11  
Aberconway, Work on Streets, 1,11  
David Mills, Work on Streets, 1,11  
Moving on, 1,11  
Moved by Joseph Anderson, seconded by John Williams, who the twenty-third report of Finance Committee just read for trial at Hamilton Asizes Tuesday, and adopted. Carried.

The Council adjourned at 8:30 o'clock.

The Board of Trustees of the Public Schools met on Monday evening at 7:30. Chairman Cook presided and the following members were in their places: Moses Hyde, Harding, Holmes and Wallace.

The Committee on Finance presented their two hundred and second report, recommending payment of the following amounts:

In its leading editorial on the result of the Plebiscite vote on Prohibition the  *Rockwood Register* says: Earnest, faithful prohibitionists are constantly asking "What next?" With an emphatic answer to this question, the editors of Ontario have answered Sir Oliver's question. The people do not care about Prohibition. The country is ripe. Well proportioned come, to will there be an other series of political gyrations that will stave off for another decade the square consideration of the practical question? If we listen to the siren sound, history will repeat itself, the moral effect of this most necessary measure will be frayed away, and ten or fifteen years hence we will be busying ourselves with the preparation of a new petition for prohibition. If we have the opportunity, and without delay press our demands honestly, firmly and unfalteringly upon the powers that be, we shall promptly precipitate the issue, divide the country upon it, produce the necessary condition for successful legislation and administration, and install a government pledged to prohibition and able to give us the thing desired.

**THE COUNTY WINS AGAIN.**

The suit seeking distribution of the Bayview Money among "The Group" defrauded.

**IT BELONGS TO THE COUNTY.**

The tedious and expensive litigation between the county of Halton and Grand Trunk Railway was not ended when the equally sustained her position in court after court and had the money paid into her "coffers." The fight is over.

No one private individual

and the majority of the members of the County Council who own property in the group declared themselves in favor of placing the money recovered at the disposal of the county as a whole for county purposes.

This course, in face of the fact that the bond was given to the county, was adopted by all parties and the court, and the judge ruled that the money should be turned over to the county.

Following up their objections, a suit was entered in the name of Mr. Biggar, looking to the distribution of the funds among the litigants in "the group." In this suit the judge made a ruling that was given by Judge Street at Guelph Hall last Thursday.
