Poetry.

NATURE AND GLORY.
In summer she puts on a mantle of green,
And covers the ground with her dewy crown,
Her hair is like the softest of down,
And her eyes are like the blue of the sky.
In Spring-time she wears the sunshine and dew,
And in Autumn she wears the golden and blue,
Her cheeks are like the blush of the rose,
And her lips are like the red of the rose.
We do not see her when she is so fair,
For she is so shy and so shy,
We do not see her when she is so fair,
For she is so shy and so shy.
We do not see her when she is so fair,
For she is so shy and so shy,
We do not see her when she is so fair,
For she is so shy and so shy.

Secret Family Reading.

Integrity Rewarded.
I wouldn't have anything to do with it," said Mrs. Nye, a dainty, little, hazel-eyed woman in a plain black gown, with white linen collar and cuffs, looking up at her husband, who had a staid, manly air as he stood by the door of their little tenement at the railroad terminus, holding his lantern and his hat.

WORK AND WAGES.

A German cook can earn \$22 a month. A weaver in Germany receives 60 cents a day.

WEDDED IN SLOVANS.

The recent visit for a moment, distant to West Virginia was shipping for a day or two at the place where he was to preach on Sunday and to him a constabulary came with a bridesmaid, and he and she were married.

AN OBJECT LESSON.

Among a lot of newspaper women, one of the group recalled the advice she had received from the man who read her copy, back in the years when she first began to write.

FOOD FOR THOUGHT.

The capacity of the horse for work depends much upon his harness. A stiff harness is more likely to injure the horse than a soft one.

SCHOOL BOY'S DEFINITION OF AIR.

Breath is made of air. We breathe always with our lungs and sometimes with our liver, except at night when we breathe through our nose when we are asleep.

ACCOUNTING FOR THE EARTH QUAKE.

The morning after a slight earthquake had shaken a certain region, a young man came to the teacher of the district school and said wistfully, "My teacher, when did this thing break out?"

HIS SECRET.

Sixty-five years ago a boy was born in Maryland; urban patron gave him nothing but a sound body, a shrewd mind, and a kind heart.

FARM AND GARDEN HINTS.

The dull boy needs more patient and encouragement on your part than does the smart one.

NEITHER A BISHOPWEN FEELS A LEADER BY.

It is not a borrowing, but a gift. The Franklin's a hundred years ago, some of the best of our nation's truest and noblest men were true to this day.

HON. GEO. E. FOSTER'S VIEW.

Some years ago Mr. Foster ably urged that a prohibitory law be enforced, and accomplish the following results. The claim is just as true now as it ever was.

THE DESTROYER AND HIS VICTIM.

By Livingston told a singular creature which he found in Africa called the "destroyer."

WAYS OF EATING ORANGES.

It is useless to see the variety of ways in which people eat oranges. One fact is a fact, and that is, every orange is a gift from the orange tree.

THE DESTROYER AND HIS VICTIM.

By Livingston told a singular creature which he found in Africa called the "destroyer."
