

**DEED.**  
MARRIAGE of Misses, on Saturday, July 10, 1910, at the residence of the bride's father, Mr. J. H. ...

### The Acton Free Press.

THURSDAY, JULY 10, 1910.

#### NOTES AND COMMENTS.

Parliament is not yet prorogued and may require another week still to complete the business of the session. The subsidy to the fast Atlantic steamship service has been passed. Something over \$1,000,000 in railway subsidies has also been voted this week.

In regard to the temperance work has been greatly aided by the active influence of the women who are allowed to franchise equally with the men. The drinking habit is largely disappearing from that country and crime is disappearing with it. In 1904 only eight persons were imprisoned in the whole island, with a population of over 1,000,000.

It is a reminder of what a marine is now getting on the great lakes that the new steamers launched for service between Lake Erie and the Northwest ports are larger than the average of ocean liners sailing from Boston, are swifter and are built on lines identical with craft that plow the high seas. Ten years ago 5,000-ton steamers on the lakes were things undreamed of.

Chicago will have to pay dearly for her inability to prevent the destruction of property by rioters. An act passed in 1907 provided that whenever any building or real or personal property, except property in transit, shall be destroyed or injured in consequence of any riot or riot composed of two or more persons, the city, or if not in a city, then the county, in which such property was destroyed, shall be liable to an action by or in behalf of the party whose property was thus destroyed or injured, for three-fourths of the damages sustained by reason thereof. The cost of the strike will amount to over \$1,000,000.

Dismissing the fast steamship project for Canada, the Rochester Democrat observes: One object of the promoters of the line is to open a market across the ocean for perishable products. It must be confessed that the Canadians are full of pluck and enterprise. If half their enterprise were shown by the congress of the United States we should soon control the carrying trade to and from our Atlantic ports. With a population of about 6,000,000 Canada is undertaking commercial ventures which would appall the average congressman. While the Canadians may not succeed in adding greatly to their trade or resources, something will be accomplished.

The fast Atlantic service, in aid of which the Dominion Government has granted large subsidies, will it be claimed, be of more importance to the country generally than it might at first seem. It is not a movement tending to benefit the few at the expense of the many, as some politicians have declared, but the new communication will aid in the work of making for Canada a future. The Australian mails, which have always gone by way of San Francisco and New York, because of the New York Atlantic service was a fast one will soon go by the Canadian route to Britain, while the cold storage will promote the dairy industry and furnish a means of shipping perishable freight. This is the third link in a chain that will bind the British empire more firmly together.

The Canadian Gazette in noting the remarkable fact that many more emigrants are returning to Europe from the United States than are going thither, remarks this wide difference between the United States and Canada: That in the United States migration point may almost be said to have been reached, the immigrant is not wanted, and there are not the inducements that once attracted him westward in the case of Canada. The suitable immigrant is wanted as much as ever he was, and the inducements which the western regions hold out must attract an increasing flow of settlers when the tide of immigration returns, as return it will. The sur is an obvious one for Canada. The rural population of the United Kingdom must find an outlet for their surplus where and they will go to that land whose attractions have been most effectively kept before them.

#### BOARD OF EDUCATION.

The Estimates of the Current Year are Slightly Lower than in 1910.

The Board of Trustees of Acton Public School met on Tuesday evening in the Council Chamber at the call of the Chairman.

Members present: T. H. Harding, Chairman, G. H. Cooke, Geo. Hynds and Robert Hines.

The minutes of last meeting were read and confirmed.

The Committee on Finance presented their third report recommending payment of accounts as follows:

Government Grant	\$ 101.00
Municipal Assessment	100.00
Interest	101.00
Contingencies	101.00
Total	\$ 403.00

Moved by Geo. Hynds, seconded by T. H. Cooke, that the Secretary of the Board be instructed to request the Municipal Council to provide the sum of sixteen hundred dollars (\$1600) by Assessment, in addition to the Government Grant of \$101, being the estimated requirements of the Board for the current year. Carried.

The Property Committee was instructed to have the school well put into proper condition.

Heard adjourned at nine o'clock.

Gaudier offers to row Humberby, the Australian, in England or America, but says he will not go to Australia.

### A JOYOUS REUNION.

LARGE GATHERING OF SCHOLMATES After Separation of a Quarter Century by More.

PUPILS OF THE LATER LITTLE

The school house in the village of Littleton, Ontario, was the scene of a joyous reunion of the pupils of the later Littleton school, who had been separated for a quarter of a century.

The gathering was held on Friday, July 9, 1910, and was attended by about 100 of the former pupils of the school, who had been separated for a quarter of a century.

The reunion was a most interesting and enjoyable one, and was held in the school house, which had been recently renovated.

The day was spent in the school house, and the former pupils of the school were reunited in a most interesting and enjoyable manner.

The reunion was a most interesting and enjoyable one, and was held in the school house, which had been recently renovated.

...the fact that there had been a union in the past. That union was when we were pupils together. We had then, out from this theoretical to the practical issues of life to battle by ourselves. After twenty years and more we are called back from the business career and perplexities of life. We have to retrace our steps, and re-learn the things of school days, and re-learn the things of school days, and re-learn the things of school days.
