The Young People's Bostety of Christian indeavor of Knoz Church has now been organized two years. The second anniversary will be marked by a sermon in behalf of the society on Bunday evening next by Rev. H. R. Horne, L.L.B., of Plora Acton Union Plowing Match.

> special Services in Progress. Much interest is manifested in the special vangelistic services which were commenced in the Methodist church on Tuesday evening. The attandance at the opening service was very encouraging, being larger than is usual at the manguration of special services here The pastor has associated with him Rev. A. H. Rauton, an evangelist who is highly exteemed and whose labors have been attended with marked success. He is an excellent speaker, a spirited worker, and his method of conducting a service commands the attention and interest of the congregation from the opening of

> the song service until the close of the meeting. The subject on Tuesday evening was "The sin against the Holy Ghost." It was very ably handled, fast evening the topic was. > Dwight L. Moody, at Toronto. Mr. Dwight L. Moody, the famous Chicago evangelist, arrived in Toronto very quietly and uncetentationaly on Saturday morning. His mangural services on Sunday brought together the largest crowds of people that ever attended similar services in the city. The great Massey Hall was packed to the doors and thousands are said to have been turned away The second day's meetings were also attended by immense crowds. They partock very much of the same character as the Sunday services. The first endravor in Mr Moody's campaign is to get the christ latt forces with which he is to work filled with his own enthusissm. To this end his first meetings have been devoted. As his first discourses were on the elements of prayer his second subject was the elements of syangelistic work. Upon this text be spoke buth Monday afternoon and evening and from what he urged upon his andience may be gathered some of the secret of Mr. Moody's success, about which a good many people are conjecturing. "I would rather get ten men to work," he declared, "than to the work of ten men, because while they were working I could go off and work also." Each successive service finds the Hall incapable of accomodating the crowds. The Metropolitan Church is being need for overflow meetings. A number of our nitt-
