CHURCH IN ACTON, on Thursday, 1st January, the Rev. Dr. L. H. Hartnett, Minister of the Methodist congregation, of Acton, Ontario.

MATTHEWS, infant son of Anthony Mason, died 10 days.

NOTES AND COMMENTS.

Speculation is rife as to the probability of a general election at an early date. Amongst the difficulties confronting the Dominion Government in the way of disposition of the file, so that the new lists of voters can be ready for use till April. It is likely a short session will be held prior to dissolution.

The Suez canal, never closed by ice, carries in a year about 10,000,000 tons. The Canal at Suez, Marne, in the 234 days of the past season when the canal was free from ice carried 15,195,860 tons. The Suez canal is the commerce of the whole world, the "Suez" for the commerce of the United States and Canada between Lake Superior and the eastern ports.

By the prohibitionists the recent decision of the Supreme Court of Canada is not looked upon as final. They refuse, in fact, to consider the constitutional bearings of the prohibition question settled until the Privy Council has spoken upon the subject. In the meantime, however, their interest in the Federal campaign has been greatly strengthened. They are being urged, in view of the altered circumstances, to make every candid effort to secure himself upon the ballot.

Mr. Cory, member for West Hastings, persists in his determination to retire from politics with the dissolution of the present Parliament. It was announced some time ago that Mr. R. B. White, of Cardwell, would not seek re-election. Now comes the intimation that Mr. Mason, of North Grey, has done with politics. If this be authentic, at least three Conservative members for Ontario will not take part in the coming election as candidates.

Attorney General Bilton and Treasurer McMillan of the Manitoba Government have been asking for an increase of their Provincial subsidy, on the basis of 200,000 in the province. The last census gives the province about 122,000. The increase per capita for 200,000 population would be about \$40,000 annually. The Provincial Minister got an official reply from Mr. Foster, stating that the Government would agree to pay an increase on the subsidy, on the basis of 160,000 of a population, which would mean an increase of about \$30,000 annually.

The British Government's decision to assent to the removal of the Newfoundland Disabilities Bill, framed in favor of members of the Whiteway party and passed by the Colonial Legislature, will, it is thought prove a strong lever to aid Newfoundland's entrance into the Canadian Federation. A delegation consisting of Sir William Whiteway, Hon. George Brown, and others will go to Ottawa probably next week to negotiate for terms under which the colony may enter the confederation, and the Legislature will adjourn for a month to await their return, when it will consider the matter.

A "Reform Club" has been started in New York for the purpose of trying to induce the United States Congress to adopt the Canadian bank note currency or a system of banking in all its details similar to that of the Canadian banking system. In a pamphlet issued by the Sound Currency Committee of the reform club, a succinct account is given of the principal features of the Canadian banking system prior to 1867, and the situation of the banks in 1867, and the final perfection and passage in 1868 of a general banking act, which is the foundation of the present system of bank note currency.

Is not the following elaboration by the Oakville Star to be equally applicable to Acton? "Oakville should not be like Toronto and drift for a lost object, before providing good fire protection. Better prepare for any emergency and be ready to meet and prevent it. With greater pressure and more complete appliances no doubt much of the damage done at the recent Toronto fires might have been averted. And now after this lesson the local council is beginning to move. But how much better if they had taken action sooner. As at Oakville, we have ample fire engines are quite good for their kind, but there is far to go yet. Some say gas engines. Others favor water works. But let it be either, we should have protection. The council should take this matter into consideration at once and act promptly. Let there be no further delay."

THE EDITORIAL TABLE.

The Book of the Fair. By Hubert Horace Bancroft. Part XIII. Price \$1. The Bancroft Company, Chicago. The Book of the Fair is the only work in English attempting to reproduce in print the Fair portion entire. In this respect it is without a competitor. It conveys neither to art alone on the one side, nor the dry statistics on the other; but aims to present in attractive and accurate form the whole realm of art, industry, science, and learning, as here exhibited by the nations, so far as can be done within reasonable limits. The work, when completed, will consist of 1,000 imperial folio pages, 12x16 inches, to be bound in 13 vols. of 40 pages each. It will contain over 4,000 of the finest illustrations, from official sources, many of them full-page plates, covering 100,000 square feet of surface. The Part at hand is fully equal to its predecessors.
