The Young Folks.

THE DOOR TO THE HOUSE.

There were little thoughts come in this door
And warmed their little toes,
And did not know that this house
Was the home of some one's known.

They scratches the tables and broke the chairs
And soiled the floor and wall,
For a mite who wrote above the door
There's a welcome for all."

When they enter saw the master alone,
He said it was time to go to bed,
And he wrote above instead: "Let none
Have good thoughts here."

And the good little thoughts came trooping in
When he drove the others out,
They were the walls and they swept the floor.

And sang as they moved about,
And last of all sang some,
With wings of a smiling face,
And above the door he wrote: "Here love has found a dwelling place!"

NOT TOO SLOW.

A larger was often questioning a man
Witness in one of the justice courts the
other day, and was going along fairly un-
til he asked the witness what his occu-
pation.

"I'm a carpenter, sah."

"What kind of carpenter?"

"They call me a jacking carpenter,
sah."

"What's a jacking carpenter?"

"He's a carpenter, who is not a fast
carpenter, sah."

"Well explain fully what you understand
a jacking carpenter to be," insisted the
lawyer.

"Boss, I declare I dunno how ter speak
any mo' 'cept to say hit am 'je' the same
dissense as 'twist you and er fast-sue
lawyer."

VALUE OF AFFECTION.

If men were to feel no incentives to kind-
ness more than his general tendency to
congenital nature, New York and London,
with all their multitudes, would have to
him the desolation of a wilderness; his
affection, not compassed into a narrow
compass, would vanish like elemental fire
in boundless evaporation; he would lan-
guish in perpetual indifference; and though
he might, perhaps, in the first vigor of
youth, amuse himself with the freedom of
enjoyment, yet, when once he should
come and enterprise, he would aban-
don himself to the fluctuations of chance,
without expecting help against any calam-
ity, or feeling any wish for the happiness
of others.

Our Young Girls

OVERSTUDY AND TOO RAPID GROWTH OFTEN PRO- MOTES DISEASE.

**WE SEE SALLOW AND
BLOODLESS FACES AND
ATTENUATED AND
LANK BODIES.**

Paine's Celery Compound,
the Great Brain Food
and Flesh-Builder
For all Young
Girls.

Overstudy in school and in the house, confinement for hours each day in body-vested buildings, and a too rapid growth of body, very often promote disease and suffering. Thousands of young girls are suffering to-day. They may be seen going to and from school. Their sallow, bloodless faces, their attenuated or lank forms indicate disease.

Mothers are to blame for the unhappy and dangerous condition of their girls. They strongly encourage their daughters to overstudy, thus exposing the brain-brain neglect to warn them of the rocks and quicksands on which many lives are wrecked. The results are often terrible. Headache, nervous prostration, debility; irregularities of the system, dyspepsia, liver troubles, an other forms of disease, being quite and army of young girls to the grave every year.

Wise and prudent mothers, when any symptoms of danger assail their girls, invariably use that great brain food and flesh-builder, Paine's Celery Compound. This compound strengthens the blood and gives it a free and healthy circulation; it braces the nerves, gives physical strength, promotes good digestion, and gives sweet natural sleep.

No other medicine in the world can give the satisfactory results that flow from the use of Paine's Celery Compound. It should be the chosen medicine for every young girl who is delicate, weak and sickly. Mrs. A. R. Stinson, 19, William St., London, Ont., writes as follows:—

"Scott's Emulsion is a duty to write you for a remedy for my daughter, a small child, and to make known what Paine's Celery Compound has done for my girl. She has been delicate all her life. I have tried many medicines, and have had her under allopathic and homeopathic treatment, with but little benefit. Almost in despair, and as a last resort, I tried Paine's Celery Compound, and after using three bottles she is now perfectly well and strong. I have also used your medicine myself for complications arising from overwork and loss of rest, and am greatly benefited thereby. I would like to let you know that I am in no way affiliated to do as I have done, 'tis Paine's Celery Compound, and be convinced of its wonderful virtues."

BURNING,

tional, and such ordinary
blood diseases, and

Paine's Celery Compound. The
Medicinal, the most
powerful, great, oiling Ulcers,
abscesses, fistulas, and
ulcerated sores, are
cured by Paine's Celery
Compound. It is a direct
remedy, and
most wonderfully painless and

"The awkward thing in the world," says a cynical old laborer, "is a woman land
hunting a gun." Diana shuns this; did you
ever see a man hunting a baby?

Now is the time.

The benefit to be derived from a good
medicine in early spring is inestimable.
Something must be done to purify the
blood, overcome that tired feeling and give
necessary strength. Aviation is warmly
lauded, but, many weeks, perhaps
months, must elapse before the result
can be induced in. To impart strength, and
to give a feeling of health and vigor
throughout the system, there is nothing
equal to Hood's Balsamaglia.

When two hearts beat as one they hit
hard.

Biliousness and Liver Complaint, Head-
ache, etc., are cured by Balsamaglia.

A Great Battle.
Is continually going on in the system,
the dominion of impure breath strives to gain
victory over the constitution, to subdue
it to his will, to drag victims to the grave. Hood's Sar-
saparilla is the weapon with which we
defend one's self, drive the desperate enemy
from the field, and restore bodily health
for many years.

Hood's pills cure nausea, sickness, indi-
gestion and biliousness. 25c.

Judge: "Witness, in this alteration did

entire system, thus curing dyspepsia, con-
stipation, sick headache, biliousness, rheu-
matism, dropsy and all diseases of the
stomach, liver kidneys and bowels. It also
removes all impurities from the system
from a common plump to the worst scro-
fulous sore.

A Cranky Temper.

There are many persons who are con-
sidered of a naturally cranky disposition.
whose real fault is not that they are
sluggard, inert and the greatest fatigued
quarrel, and there are many people
who say that there is no more
money spent for the restoring of harmony
in a household than Hood's Liver Lotion.
Get a dollar's worth and be happy.

They are sold at 25 cents a box, or five
boxes for a dollar.

The one man a man always has a
feeling of sympathy for his wife's hu-
band.

The coughing and wheezing of persons
troubled with bronchitis or the asthma is
excessively harassing to themselves and
annoying to others. Dr. Thomas' Elixer
Oil obviates all this entirely, safely and
speedily, and is a benign remedy for in-
flammation, sore, sores, ulcers, piles, acidity and
spinal trouble.

The real beauty of woman never fades.
A doctor's bill seldom reminds us of
the comfort he brought when we needed

The Best Pills. Mr. Wm. Vandover,
Sydney Crossing, Ont., writes: "We have
been using Paine's Pills, and find them
by far the best pills we ever used."

Delicate and Debilitated Constitutions
these pills act like a charm. Taken in
small doses, the effect is both a tonic and a
stimulant, mildly exciting the secretion
of the body, giving tone and vigor.

Sweat is the sign of all disease, after
long continuance it becomes cold, it
becomes the sign of fever, but probably
takes a few doses of Scott's Emulsion
and spinal trouble.
