THE CONTRARY BOY.

I am the queerest sort of boy in the world has ever been. I am a Sampson, like his ever long, because from early dawn to the setting of the sun, always want to do things that really can't be done. For instance, when the summer comes, I sit down by the sea, and almost tear my hair with rage because I cannot shake. And though I went August night I often sit up late. And mean and groan because I don't get around on my seat. Then when the bright winter's here, and things begin to freeze, I feel though I'd like to climb up in the apple tree. And pluck the blossoms from the twigs, but know where there are. When the winds are blowing and the apple-tops are bare.

At breakfast-time I sit down and, often deeply sigh, because there's toast and buckwheat cakes instead of pumpkins pie. Yet, when we're eating, we pic my toys come down like flies. Because by that time I've a taste for toast and buckwheat cakes.

And I would say to other boys who think it's fun to be contraries, that they would best take warning now from me. Because I find the habit leaves me always dull and sad.

And makes me a very drear, ill-natured sort of lad.

—G. V. Drake, in Harper's Young People.

HE PITIED THEM.

Uncle Silas came up from Pookhorn on the Cape the other evening, the first time for 35 years. The electric system of lighting had not yet been introduced into Pookhorn, and Uncle Silas was somewhat surprised when he emerged from the depot and saw the electric lights in full blaze. He regarded them in silence for a moment and then drawing a long breath said:

"Gosh! I was awfully glad if I'd like to be them fellers what has to climb them poles to light them lights!" Boston Courier.

Thrifty Mothers Can Dress Their Little Ones Handsomely and Cheaply

Thrifty and economical mothers will buy new clothing for their children, yet the little ones are always well and handsomely dressed in school and church. This is the result of Diamond Dyes, which make all the fashionable colors with but little work.

Buits for boys and little dresses and jackets for the girls that have faded and become discolored, are quickly transformed into new garments by the magical work of Diamond Dyes.

These wonderful packages dye cost but 10 cents per package; they are simple to use, indeed any child can use them and get a grand color. The colors dye fast and strong, and in many respects far superior to the colors used in large dying factories.

When buying dyes for home use see that your dealer gives you "Diamond Dyes," imitation and worthless dyes will ruin your materials and garments.

Sick headaches and constipation are promptly cured by Burdock Pills, easy to take, sure in effect.

"My furrow," said the man at the sleep house, "is out of sight." "So is mine," replied another, "out of another's site."

The great demand for a pleasant, safe and reliable antidote for all affection of the throat and lungs is met with in Bicks' Anti-Consumptive Syrup. It is a pure Vegetable Compound, and acts promptly and magically in subduing all coughs, colds, bronchitis, inflammation of the lungs, etc. It is so palatable that a child will not refuse it, and is at a price that will not exclude the poor from its benefits.

IN THE SPRING-TIME. PAINES CELERY COMPOUND MAKES PEOPLE WELL.

THANKFUL PEOPLE EVERYWHERE ENDORSE THE GREAT MEDICINE.

IT IS A BLESSING TO THE WHOLE CANADIAN DOMINION

PHYSICIANS ACKNOWLEDGE ITS GREAT CURING

VIRTUES:

It Makes Strong Nerves and Pure Blood.

IT CURES DISEASE AND LONG-STANDING TROUBLES

An Ontario Man Strongly Testifies:

I am a strong evidence to the worth of Paine's Celery Compound.

This is the statement of Mr. G. J. Morris of Sheffield, Ont.

It makes people well!

This fact is so widely known and so fully borne out by thousands of magnificient cures that the simple statement is in itself sufficient.

The whole Dominion has been blessed by the marvellous work of the great medicine, and an army of rescued and saved men and women bless the noble discoverer, Prof. Edward F. Phipps, M.D., LL.D.

Master minds amongst the medical men of the country daily proclaim the potent and curative virtues of Paine's Celery Compound. They find that it makes strong nerves and pure blood, two essentials necessary for perfect health and strength.

Long-standing troubles and diseases are cured by Paine's Celery Compound when all other medical agencies fail in their work. For kidney and liver troubles, it is the infallible remedy. Nervous debility, exhaustion, sleeplessness and headaches are quickly swept away by the curing powers of Paine's Celery Compound.

This is the season when the sick, incurable agents are operating their evil work upon the healthfulness of our bodies to make life pleasurable for the summer. All should bear in mind the fact that Paine's Celery Compound "makes people well."

The following letter from Mr. G. J. Morris, of Sheffield, Ont., speaks of a won-
derful cure after "an ordinary means had failed to do the work."

"It is with great pleasure that I testify to the value of your great medicine. Paine's Celery Compound really does wonders. All I need do is to apply it to indigestion, kidney and liver troubles. After trying several medicines that did not affect a cure, I decided to try your Compound. Before using it I was so low in health that I could not lie or sleep. I could not lie in bed owing to pain in my back; it was only by resting on elbows and knees I was enabled to obtain a slight degree of ease. Before I had had time to improve I have in all taken fourteen bottles with grand results. I am a farmer and now work every day. Anyone who needs to go to bed at noon or earlier, or to any of my neighbors around Sheffield, where I am well known, I am a living witness to the worth of Paine's Celery Compound."
