**A HAPPY MARRIAGE.**  
It is a great joy to see a young man and woman united in the bonds of matrimony. The young man and woman of Acton are united in the bonds of matrimony. The young man and woman of Acton are united in the bonds of matrimony.

**EXTENSIVE FORESTS.**  
Extensive forests, covering valleys and hill-sides, are overmatured, and the spruce forest from a slender tree, which grows to the top of the forest. An extensive forest is formed, particularly well adapted for the various kinds of uses. As they perish they are succeeded by others, and so for generations, in ascending hills and labor, until, in the course of time, the bottom, under the influence of decay and the pressure from above, becomes turf. Far below lies hard coal, the upper part is light and spongy. At various depths, but sometimes as much as twenty feet below the surface, an abundance of bogwood is found, consisting mostly of oak, hickory and black ash, or of the rich chocolate-colored wood of the yew.

**GET RICH IN ONE MONTH.**  
An exchange tells of a simple and easy method for getting rich that it is a wonder there are any poor people in the world. No one is so poor he cannot get hold of a cent to start with. Now on the first day of the month deposit a cent in a bank, and on each succeeding day double the deposit of the previous day. Any one can surely do a simple thing as this, and at the end of the month your account will show the sum of \$5,308,709.13 to your credit. With this little sum you can retire and live in modest comfort the rest of your days, and even enjoy a few of the luxuries of life. Try it.

**THE LAWYER AND THE DOCTOR.**  
A prominent lawyer, a neighbor, who is a celebrated doctor. After walking some distance together, he says and says "I don't think we two ought to be seen together."  
"Why not?"  
"Well, you see, we being together, will remind the people of that robber who was arrested."  
"Why so?"  
"When the people see a lawyer and a doctor together it looks like a demand, 'Your money or your life!'"

**WILL BE A PRETTY BIG LIGHT.**  
A new lighthouse will be built on the north point of the coast of Brittany and will be known as the Kokmubi lighthouse. It will contain an electric light of 40,000 candle power, casting a beam which can be seen a distance of 24 miles, in foggy weather a distance of twenty-one miles. The highest order of light now in operation in the United States lighthouse service can be seen only twenty-one miles in clear weather.

**AN APPEAL.**  
"I don't know," said Jesus, climbing upon the table, "don't you think that bread of ten cents a week you could give me?"  
"Well, I don't know, my dear son, the answer. 'What do you want of the extra five cents?'"  
"I thought my debt was old enough to have a 'twelve and I want to give it to her."  
**OUT OF HUMOR.**  
Able Editor "You have not yet turned in your regular batch of jokes, Mr. Hawke?"  
Mr. Hawke (the professional humorist) "I'll try to do them tomorrow, sir. I have not all in the mood to-day."  
Able Editor "What is the matter? Are you ill?"  
Mr. Hawke "No, only out of humor."
