BORN.

HARE.—At Milton, on Wednesday, Aug. 14th, the wife of Mr. Robert Hare, of twins, son and daughter.

LANGFORD.—In Georgetown, on Tuesday, August 13th, the wife of Rev. D. G. Langford, B. A., of a daughter.

MARRIED.

FAHL—CLARK.—At the residence of F. C. Willmott, Milton, on Wednesday, Aug. 14, by the Rev. G. A. Mitchell, B. A., Rev. T. R. Fahl, of San Diego, Cal., to Emily J. Clark.

ALDRIDGE—MCCORMAN.—At the residence of the bride's father, Glenholme, Man., on Wednesday, 26th June, by the Rev. T. E. Carter, assisted by Rev. W. A. Sippell, Rev. A. R. Aldridge, B. A., to Mildred, youngest daughter of Mr. Samuel McCorman, formerly of Crewsons Corners, Ont.

DIED.

PIETELL.—In Acton, on Saturday, 17th August, Elizabeth Best, wife of John Pietell, aged 36 years.

ARMSTRONG.—In Guelph, on Saturday, August 17th, Janet McNaughton, relict of the late James Armstrong, in her 79th year.

DEMPSEY.—In Acton, on Wednesday, 21st August, Eleanor, Swackhamer, widow of the late Francis Dempsey, in her 80th year.

The Acton Free Press.

THURSDAY, AUGUST 22, 1895.

NOTES AND COMMENTS.

Sir Ambrose Shea will leave England next week on his way to Newfoundland. Presumably Sir Ambrose comes on a visit, but it is generally believed that this trip is merely a preliminary to his appointment to the governorship of the colony.

According to a recent ruling given by the Postmaster General a "private post card" must not exceed the dimensions of the large post card, issued some time ago by the Post Office Department, viz: 6 inches long by 3 5-8 inches wide, nor must it be less than 3 1-4 inches wide.

The question of the development of mines in British Columbia is at present attracting much attention in financial circles in London, and it is probable that several mining experts will visit the province in the autumn. If the reports made by them of the results of their investigations shall be favorable a large influx of British capital may be expected.

The Dominion statistician, Mr George Johnson, tells us that the voters' list lately prepared contains the names of a trifle over twenty seven per cent. of the entire population of the country. This indicates that the present franchise act must in practice, as it does in theory, approach very near to the suffrage mark. If manhood, coupled with Canadian citizenship and a certain brief residence in the country, were made the voting qualification, the resulting lists would not probably be very much larger than those we now possess. But their preparation would be immensely simplier and much less costly. Further, they would be much more satisfactory. Undoubtedly already men whose names are on these newest lists have left the country or have died. It would be perfectly safe to say that to day our franchise is possessed by dwellers in the United States and in the cemeteries. The whole number of voters has been swollen to 1,053,735, an increase of 221,498 over the total of 1891, and the proportion to population has also advanced from 23 43 per cent in '91 to 27 04 in '95. We have more people than we had, and more of them who will take an interest in the government of the country. *Star*

THE PROHIBITION CASE

Delay in Handing down the Privy Council Decision.

LONDON, Aug 15. The Canadian *Gazette* says that the judgement in the appeal to the Privy Council to decide whether the power to pass prohibitory liquor legislation belongs to the Federal or the Provincial authorities of Canada will not be given until November. The case was argued at length before the Judicial Committee of the Privy Council at the beginning of the current month.

SWINDLED OUT OF $1500

A Galt Man the Victim of an old Trick.

GALT, Aug 19. Angus MacBean was victimized out of $1500 by the substitution trick Saturday. A young man representing himself as the son of a Berlin banker pressed Mr MacBean to sell his farm, and a deal was made for $20,000. To bind the bargain the stranger was to deposit $5000 and Mr. MacBean $1500. The $6500 was counted out and put in a tin box, which Mr MacBean was to hold, the purchaser retaining the key. Soon after the money was deposited the stranger found it necessary to leave for Galt, and not returning Mr MacBean opened the box and found his $1500 gone and only a pile of newspapers left him.

HORSE RACING AT FAIRS

The Official Interpretation of the New Law on this Point.

The official deliverance of the Ontario Minister of Agriculture on the vexed question of speed contests at fairs has been received by the FREE PRESS. The rule is laid down that premiums shall not be awarded for speed alone. Mr Dryden's letter reads as follows:

"Several applications having been made to this department by various agricultural societies for an interpretation of section 29 of the Agricultural and Arts Act, 1895, the following decision is given to the officers and directors for their guidance as being the evident intention of the Legislature when passing the act.

By section 9 of the said act, the object of such societies, as relating to live stock, is confined to two things, (a) the purchase or importation of valuable animals, and (b) awarding premiums for excellence in raising stock, etc. Sub-section three of this section declares that none of the funds shall be expended for any purpose inconsistent with the above.

The opinion of the Legislature, as expressed in section 29, was that horse racing as ordinarily conducted, is inconsistent with the objects above set forth. It is presumed, therefore, in awarding premiums for light horses of any class that form, soundness and style shall always be considered as well as speed, and that no horse shall be placed first for speed alone. If, in the judgment of the officers or judges it is deemed desirable to test the speed of the contesting horses, it is competent under this clause to do so, but the prizes must in every case be awarded on general excellence as possessing the above characteristics. Neither is it intended that purses shall be prepared of offerings from owners of contesting horses, but that premiums shall be offered in the ordinary way.

It is hoped that the operation of this clause will do away with the professional race horse at our agricultural shows and tend to promote the development and encourage the breeding of sound, stylish, right stepping horses, so much in demand in the great horse markets of the world.

JOHN DRYDEN,
Minister of Agriculture.

MANITOBA'S GREAT CROP

A Million Dollars' Worth of Grain Being Cut Every Day This Week.

LABORERS GETTING BIG PAY.

WINNIPEG, Man., Aug 20. Reports coming from all sections of the province and the North West generally show that wheat cutting is in full blast. It is not conceived that this or any other country ever saw more magnificent wheat fields, and farmers generally are jubilant. It is estimated that for all this week in Manitoba there will be cut at least 2,000,000 bushels of wheat a day in the province, and at 50 cents a bushel that would mean a cutting equal to $1,000,000 a day. Except in Rock Lake district, extending from Morden to Cartwright and including the Pilot Mound and Crystal City section, more than one half the crops have been cut.

Reports come in to-day from Elm River settlement centering fifteen miles south east of Portage La Prairie, immediately across the Assiniboine, and show that districts to be four or five days earlier. Over one-third of the wheat is already cut, is of the very finest sample and perfectly ripe.

The view from the top of the elevators here, almost a hundred feet high, is wonderfully beautiful to-day. The expanse of country in the heart of the wheat raising district of the province spreads over the entire range of vision 12 to 15 miles. An almost continuous golden yellow sea waves around from the southeastern deep indentations of the wide-spreading Assiniboine River forests to similar indentations of the forests southwestward. This lovely rich waving yellow spreads away east, north and west as far as the edge of the horizon, only broken by isolated masses of foliage, showing natural or artificial groves of trees by patches of dark summer fallowing and green fields of vegetables or pasture. The vast plain seems to be all under cultivation and is such a sight as has seldom been seen in ancient or modern times, because of no apparent divisions of fields, the wire fences being allotted out among the rank standing grain.

Many fields are dotted with stacks which stand very close together. Self binders are going everywhere and seem to creep in the distance, but in reality are moving swiftly, for slow-walking horses are not tolerated on binders when all the farmers' issues are at stake. At distances of over two miles even with a powerful glass, the binders are almost invisible when on the opposite side of the fields, only the horses' heads and the revolving arms being in sight.

The top of the grain looks as level as the surface of a great barn floor.

A large delegation of the Spring Wheat Millers Association of Minneapolis representing the leading millers and bankers of that city, is visiting this province, extending their trip from Dakota and Minnesota. They were entertained by W. W. Ogilvie, the Canadian Milling King, at Winnipeg, being driven around the city, then banqueted.

In replies to toasts the visitors spoke well of our grain prospects and advancement. Mr. Pillsbury, the Great Minneapolis Miller, in a private interview, said the crops are in splendid shape. Mr. Edgar of The *Northwestern Miller* has increased his editorial since his trip north. Hon S. C. Wood is in the province on a visit of inspection from Toronto, to see the grain fields. Mr J. S. Willison of *The Globe* party is going around by Melita, up to Brandon and Minnedosa, then eastward.

Mr W. W. Ogilvie, the big miller who has just returned from a southwestern tour is greatly pleased with the outlook, and confirms the report of the Government. He estimates twenty five bushels per acre for the whole of Manitoba and the North West. His firm have built 17 elevators this summer and now have 74 in the west with a capacity of 2,760,000 bushels. He is greatly pleased at the increased fine appearance of the many herds of cattle. Mr Ogilvie left for Montreal to-day.

Mr Conklin, reeve of Springfield, near Winnipeg, claims to have one field that will yield 60 bushels to the acre. Cutting is general there, some farmers having nearly finished.

The probable price of wheat is of course a most interesting question just now. Grain men cannot give the opening price very closely. They say the Eastern dealers are very chary about buying at any but a very medium price. The best posted men here think the market will open at from 50 to 52c but it is thought they are looking on prices. Farmers are hopeful of getting 60c, but it is doubtful if wheat will realize that much.

The first wheat will strike the market in 10 days. It requires two weeks to fill it properly for threshing if weather is dry. Last year the farmers rushed their crops into the elevators and sold right out earlier than ever before. This year there will be more holding for higher prices. Farmers have not been more hopeful for eight years past, nor during that time has there been less pessimism among them.

The laborers from the East are nearly all taken up. This morning some farmers were hiring eight or nine men for a month at a dollar and a quarter per day. All show a determination to rush the harvest faster than ever before.

FORESTERS' SUPREME COURT

Important Changes at the Session Just Adjourned at London Eng.

LONDON, Aug. 9. The Supreme Court decided during to day's session to increase the rate of assessment upon new members between the ages of 40 to 49. The salary of the Supreme Chief Ranger was fixed at $10,000 yearly, that of the Supreme Secretary at $3,000 yearly, and that of the Supreme Treasurer at $2,000 per year. The auditors' salary was fixed at $800 per year, and that of the Supreme Physician at $2,500 per year.

The report of the Supreme Chief covering the work of the organization for two years, was presented, and his recommendations, including one that the session of the Supreme Court be held every three years instead of every two years, adopted.

Oronhyatekha and other officers were re elected. Henry Collins, Toronto, was chosen Grand Treasurer.

The next session will be held in Toronto in 1898.

Guelph Central Exhibition

Pleased with the success that has attended their efforts for the past few years the directors are sparing no pains to surpass all former exhibitions held in the Royal City, and, barring any unforseen emergency, the thousands of visitors cannot fail to be instructed and delighted with all that is in store for them this year. No other exhibition in the province issues a more complete prize list and is more faithful in carrying out its details than its directory, so that both exhibitors and visitors are in every respect satisfied.

If you want first class Guelph sash and doors at Guelph prices, T. Eedle, can fill your order at his planing mill.

WILL TEST A FIFTH CLASS.

Samuel Laird Demands it and the Board Concludes to Try it.

The Board of Trustees of Acton Public met Monday evening at the call of the chairman.

The minutes of last meeting were read and confirmed.

A communication from the Minister of Education relative to probable amendments to the Truancy Act was read.

The committee on Finance presented their fifth report recommending payment of the following:

S. F. McLeod, wood [illegible] ... $1 00

Moved by T. H. Harding, seconded by H. Swackhammer, that report just read be adopted. Carried.

The school was reported to have received its semi annual cleaning.

At this juncture the chairman explained that his principal reason for calling the meeting this evening was to consider the formation of a fifth class in the school. A number of ratepayers had spoken to him about the matter. The question in his mind was, is there a sufficient number of scholars qualified for a fifth class to warrant the disarranging of the school to form this class?

Mr Samuel Laird who was present then arose and said: "Well, gentlemen, I am here to demand a fifth class for you, as a matter of right and not favor. The law says it is to be done and if we don't get it I'll write Mr. Ross, Minister of Education, about it."

The members carefully canvassed the matter in its various bearings and freely discussed the present views in the desire to arrive at a conclusion best suited for the requirements of the school and the school children of the municipality. It was felt that it would be hardly fair to have the principal of the school devote his time to a very few fifth class scholars at the expense of the entrance class and others in lower classes, for that it would be wise to form the class for a small number of scholars, if such action would necessitate the hiring of an additional teacher and the furnishing and heating of another room. It was thought however that if a fifth class could be maintained with at least average to the school under present arrangements that it would be well to give it a trial and, with this in view the following resolution was passed:

Moved by Robert Reiner, seconded by T. H. Harding, that the principal be instructed to organize a fifth class at the re-opening of the school and that he be requested to report regularly to the Board the progress of the new arrangement and its practicability as a permanent one. Carried.

The necessary [illegible] in the north side of the school has been underdrained by the Board since last winter.

Moved by T. H. Harding, seconded by H. Swackhammer, that the Secretary be instructed to advertise for tenders for storm windows for the school. Carried.

The Board then adjourned.

There were present at the meeting: Reeve Hyndman, Chairman T. H. Harding, Robert Wallace, Robert Reiner, and H. Swackhammer.

THE SPLENDID HARVEST

The Reports of Our Seasons Crops in Ontario and the North West.

TORONTO, Aug. 12. The most important bulletin of the year of the Ontario Bureau of Industries is that which forecasts the harvest. For some days the Bureau has been receiving reports from about a thousand correspondents in all parts of Ontario, and these reports have been summarized by the Department. On the whole the reports go to show that the crops in Ontario for this year, so far as can be forecasted are of a satisfactory character. The fine feature of the report is the comparative lightness of the hay crop and the shortness of the cereals. The acreage under corn is twice that of the annual average of the previous thirteen years.

WINNIPEG, August 12. The C. P. R. issued the crop report at noon to-day covering every agricultural point in Manitoba and the North West. The remarkable feature is that the reports from all points are of a similar nature. No damage has been done, except in irrigated places, where the grain was knocked down by the rain. Wheat will average from 25 to 40 bushels to the acre, oats 40 to 70 bushels and barley 40 to 50 bushels. The oats and barley harvest are about three fourths over. Fifteen per cent of the wheat has been cut, and next week will see much of it in the stack. The root crop promises to be the largest in the history of the province.

WALKER McBEAN & CO.

We take this opportunity of stating that no truth in the report that was circulated last week that we were going to give up our TAILORING DEPARTMENT. We have no doubt it was done for a purpose. Our cutter Mr. Miller has left our employment. He came to us last week and said he wanted to resign his position. We told him we didn't know if we could, expecting his resignation as he was under a contract for one year and so far we decided we found out he had been long getting to be a stock some distance from here without our knowledge and then we found that once we came to the conclusion that a party who would do that was better out. Our employment and therefore we decided to let him go. We are getting to get some of Toronto's best cutters by the 1st September then we shall have our New Fall Tweeds in, the best and largest assortment ever seen in Georgetown at prices that will astound every one. We guarantee to save you from $1 00 to $2 00 a suit. When we shall have our prices out we'll get.

We thank the public generally for their very liberal patronage since we started in Georgetown and you can always rely on getting the very best value going for the money. We are here to stay and goods bought and after taking them home if not found as represented bring them back and we will refund the money paid for them.

Before ordering your FALL CLOTHES see our stock and get our prices and then all we ask and we know if you are a judge of quality and price we will get your trade. It stands to reason we can undersell all of them. We buy for cash and sell for cash. No bad debts, no bookkeeper to pay. Fit and finish guaranteed.

The Great Cash Store,
WALKER, McBEAN & CO.
Georgetown and Toronto.

Farmers wishing Hardy Native Stock to plant this coming Fall or Spring may pay for it in work. We want men with or without experience on full or part time. Salary and expenses or commission. Write at once for further information. BROWN BROTHERS CO., Limited, Continental Nurseries, Toronto, Ont.

A Premium at Last.

"I have eight children, every one ailing and health, but one of whom but has taken Scott's Emulsion, in which my wife has boundless confidence."

IN DEEP DESPAIR.

A MONTREALER RELATES HIS WONDERFUL EXPERIENCE.

He Had Tried Foreign and Local Physicians and was Operated Upon Without Success—Dr. Williams' Pink Pills Cured When all Other Medication Failed.

From the Montreal Herald.

Instances of marvellous cures by the use of Dr. Williams' Pink Pills for Pale People are numerous, but the one related below is of special interest, owing to the peculiarity of the illness, and also to the fact that in present instances, the gentleman is well-known in Montreal. Mr. Charles Frank, inspector of the mechanical department of the Bell Telephone Company, at 371 Aqueduct street, and who resides at 51 Argyle Avenue, in an interview with a *Herald* reporter, related the following wonderful cure by the use of Pink Pills. Mr. Frank, who is 25 years of age is a Bohemian by birth, a well-built, intelligent, speaks several languages fluently, and is now apparently in good health. "My illness came about in a peculiar way," said Mr. Frank. "Up to three years ago I was in the best of health. About that time while in Glasgow, Scotland, where I was employed as a clerk in a hotel and while sailing on the Clyde, a storm came up, and I had a pretty rough time of it for a while. I evidently must have injured myself internally, although I felt nothing wrong at the time. On my way home, however, I felt helpless on the street, and had to be conveyed home in a cab, as my legs were utterly unable to hold me up. I was confined to bed for several days in the same helpless condition, when I rallied, but found that my urine was of a strange reddish hue. I called in a physician, who

[illegible] ached, but did me no good. ... called on Sir George McLeod, M. D., who also prescribed and advised me to go to the hospital. I was averse to doing this, and he advised me then to try a change of climate telling me that my bladder was affected. I acted on his suggestion at to change and came to Montreal. I did not do anything for about a year as I wished to get cured. All this time my urine was tainted with blood although I was suffering no pain, but this abnormal condition was a source of continual anxiety. I finally went to the General Hospital where the physician in charge advised me to stay which I did. After remaining there for five weeks with no benefit, a consultation of physicians was held and I accepted a change to which I this time agreed. After the operation was performed I was no better, and my condition remained absolutely unchanged. From this out I was continually trying medicines and physicians but derived no benefit from anything of anyone. I was in despair as the physicians that I consulted I could not decide as to my trouble. I told the hospital one more and they said they would operate again but I did not care to undergo a second and perhaps equally unsuccessful operation. Some friends thought my trouble was consumption of the bladder others that it was Bright's disease but could not give their strange bloody conditions any name.

Finally I went to work [illegible] telephone ... I worked myself up to my present position. But I was in a state of constant anxiety as I felt myself getting weaker all the time and was restless and sleepy and weak in the legs. I was also pale and ill looking, no doubt owing to the loss of blood. From a naturally cheerful man I became morose and gave up all hope of ultimate recovery. One Saturday, some months ago, while walking along Bleury street, having seen the advertisement of Dr. Williams' Pink Pills in the Montreal *Herald*, I stopped at John F. Lyons drug store and bought a box. I had tried so many medicines that I said to myself, If they don't cure me I can't be in any worse off than before. After taking the first box I felt stronger and more cheerful, although there was no change in the bloody condition of my urine. But I felt encouraged and continued taking the pills until I had [illegible] six boxes. I am glad now and more so on the recurrence of my trouble and as you can see the flush of health shows on [illegible] my face. To think that I was cured by the use of $5.00 worth of Dr. William's Pink Pills after trying a number of physicians and undergoing an operation is safe is a puzzle to me, and I am sorry that I didn't know about this grand medicine before. I would have willingly given $200 or $300 to have been guaranteed a cure by anyone."

"I am willing," said Mr. Frank in conclusion, "to see anyone who wishes to verify this interview, as I consider it my duty to my fellow men and a matter of gratitude for the marvellous cure their medicine has effected. I have come to the conclusion that Pink Pills are the best blood builders in existence, and I think everyone should try them."

For Handkerchief, Toilet and Bath.

NEWS OF THE DAY.

An Epitome of the World's Doings During the Week.

Samuel Edison, father of the inventor, celebrated his 92d birthday on Friday.

Sir Charles Rivers Wilson, the new President of the Grand Trunk, is in Montreal.

John Johnson of Kent County was killed by lightning during Saturday's storm.

A Belleville boy named Pope was captsized from a boat Monday near that city and drowned.

James Pearson, a three year old son of a Hamilton citizen, was fatally burnt while playing with matches.

The Grand Trunk freight sheds at Aurora were burned Sunday night together with a small quantity of goods.

An explosion in a barracks at Tonla in Russia, killed 150 persons, it is said. Nihilists are blamed for the outrage.

Probably 25 persons were killed by a boiler explosion in a Denver, Col., hotel Monday and a great many others injured.

Five boys, ages ranging from fourteen to eighteen, were drowned on Sunday at Killaly, the Assiniboine in Selkirk County, Quebec.

Lawrence Croxley, a seventeen year old boy, was struck by lightning and instantly killed in his father's barn near Sebringville on Saturday.

Prince Yu Hung Pak, the Corean Minister of Interior, who is exiled from Corea, passed through Winnipeg Sunday en route to Montreal.

It is said that Republicans in portions of Spain are taking advantage the despatch of troops to Cuba to make uprisings for the overthrow of the monarchy.

Out of the deaths Toronto has had this year 40 are to be traced directly to the work of the firebugs, while there are 96 which come under the head of "Cause unknown."

The Laggan and American commission for inquiring into the massacre of missionaries in China have arrived at Kucheng, and a number of arrests have been made.

The Canadian Artillery expects to arrange to compete at the Dominion rifle artillery meeting. It was the Canadian riflemen that at the meeting of the National Rifle Association at Bisley.

THE EDITOR'S TABLE.

In addition to some beautiful and distinguished late summer toilettes in *Harpers Bazar* to be issued on August 24th, there will be specially prepared and very practical and detailed paper entitled "Early Autumn Fashions for Men." A striking portrait of Miss Winnie Davis accompanied by a short biographical sketch, will interest people who want to know something of the charming personality of "The Veiled Prophet." The same number of the *Bazar* will have a supplement containing a brilliantly illustrated story entitled "The Forecast Princess of Bohemia," by L. A. Wallis Budge.

In the September number of the *Delineator* which is called the Autumn Announcement Number, the display of fashions for the coming season is exceptionally large, and the styles are handsome enough to suit the most exacting taste. The issue is also notable for the variety and quality of its reading matter. Mrs Frances Hall Jenkins, the Secretary of the Board of Lady Managers of the World's Columbian Exposition, contributes to the *Delineator* in a most interesting way. Subscription price of the *Delineator* $1 00 per year. Address all communications to the *Delineator* Publishing Co., 17 and 19 Richmond St. West, Toronto, Ont.

THE BOOK OF THE FAIR.

[illegible] This unique work is now in full [illegible] and illustrated in exhibits of the Art Palace at the World's Fair. It gives the finest reproductions of a large number of the best paintings, water colors, statuary etc., on exhibition and a brief though complete descriptive review of the subject, history and distinguishing feature of each. That the intelligent and progressive people of the closing years of the nineteenth century fully appreciate a genuinely good thing in literature is proved by the reception of the Book of the Fair. Its receipts are not confined to America and Europe either, but in Australia, in India, in China, Japan and the shores of Africa it is being welcomed in thousands of homes.

The text covers every conceivable detail from start to finish and the illustrations are a picture gallery in themselves. It is a grand work worthy the enterprise of the well known publishing house, The Bancroft Company, Auditorium Building, Chicago, Ill.

A BEWITCHING SMILE

is one that is full of the glory of white teeth of pearly whiteness. One of the teeth here important yet neglected often to the wearing of their beauty or destruction is the use of enamel eating deleterious tooth powder, delightful refreshing imparts pearly whiteness to the teeth, prevents decay, gives fragrance to the gums, and a delightful fragrance to the breath.

Broken in Health

That Tired Feeling, Constipation and Pain in the Back

Appetite and Health Restored by Hood's Sarsaparilla.

Mr. Chas. Steele
St. Catharines, Ont.

C. I. Hood & Co., Lowell, Mass.

For a number of years I have been troubled with a general tired feeling, shortness of breath, pain in the back and constipation. I could get only little rest at night on account of pain, and had no appetite whatever. I was ill for a long time, but I never got before half the [illegible] was gone. I tried a great number of medicines but did not get any permanent relief from any

Hood's Sarsaparilla Cures

[illegible] upon recommendation of a friend, I purchased a bottle of Hood's Sarsaparilla, which made me feel better at once. I have continued taking Hood's Sarsaparilla, having taken fifteen bottles, and

What you'll have to pay $1 75 and $2 00 for, you can buy the same from us for $1 25 and $1.49, and that's worth saving.

Come to the Great Cash Store.

We take butter and eggs and give you the highest price and are going, and turn round and sell you reliable goods at 25% to 30% less than the most of stores sell the same kind of Goods.

[illegible] Come right to Mammoth House, try us once, don't [illegible] you know [illegible] where else, if you are a judge of goods and prices.

We Welcome you all

To this Great Sale at

Walker, McBean & Co.

Georgetown and Toronto

Agents for the Standard Patterns.

Pandora's Box.

While nothing but evil resulted from the opening of Pandora's Box, nothing but good results from the use of

Vanoni Sleeve Puff

Like the lid of Pandora's Box it will not stay down. If it rebounds. Flatten it, it rises with supreme indifference.

Does away with interlining.
Gives the right puff.
Is light and graceful.
Can be transferred from one garment to another in just two minutes.

Price 30c. Per Pair,

Can only be bought at the Lion.

Dress Goods

ARRIVING DAILY.

Secure your Dress now and get Miss Crossland to make it as soon as she returns. While other stores are marketing their mistakes, we are showing the latest results of French dramatic loom art and German textile industry backed up by the more enduring qualities of the English and Scotch productions.

Acton, Aug 19th, 1895.

VOTERS' LIST, 1895.

MUNICIPALITY OF THE
VILLAGE OF ACTON,
COUNTY OF HALTON.

NOTICE is hereby given that I have transmitted or delivered, to persons mentioned in sections 5 and 6 of the Voters' List Act, 1889, the copies required by said sections, to be transmitted or delivered of the list made pursuant to said Act, of all persons appearing by the last revised Assessment Roll of the said municipality, as electors for members of the said Legislative Assembly and at Municipal Elections, and that said list was posted up at my office at the Town Hall, Acton, on Tuesday, 6th August, 1895, and remains there for inspection.

Electors are called upon to examine the said list, and if any omissions or any other errors are found therein, to take immediate proceedings to have the said errors corrected according to law.

THOS. T. MOORE,
Clerk of the Municipality of Acton.

Dated at Acton this 6th day of August, 1895.
