**NOTES AND COMMENTS.**

It is said that the Kucheng inquiry will proceed with world importance soon. China officials. The *Acton Free Press* in an article treating of the Chinese outrages, says that Secretary Olney may be relied upon to take vigorous action in behalf of the Americans maltreated.

A meeting of the Manitoba Cabinet was held Saturday, all the Ministers being present. The rejoinder from Ottawa on the school question was up for consideration, but no action was taken, the minister being left over for further consideration. It is not thought that any further steps will be taken before next month.

Ten thousand dollars of the American gold that goes to Great Britain this summer will not be grazed by the United States post office. This is the amount of Holbrook's first prize, awarded by the Smithsonian Institute to Lord Rayleigh and Professor Ramsay for their discovery and investigation of argon.

The English liquor death rate, according to the Registrar general's latest return, stands higher now than it ever did before. In 1892 there were 768 deaths directly ascribed to intemperance, which gives an annual rate of thirty-four per million persons living. For 1893 the figures were 2,171 victims, or at the rate of seventy-three per million persons living.

Talk about the Manitoba crop has for the time being superseded discussion on the Manitoba school question, and there is harmony in all the breakings too. Canadian *Globe*. Yes; and in addition to the harmony there is a great deal more profit to the country and to individual in the Manitoba crop than in the Manitoba school question as it comes now before the general public.

Czar Nicholas has started a fund of \$250,000 for journalists and authors in distress and to provide for their orphans and widows in distress. Czar Nicholas would be in better business if he would allow "journalists and authors" to say what they think without being sent to Siberia. Then they could get money enough to provide for themselves without any of his autocratic charity. *Exchange*.

The Ottawa correspondent of the  *Globe* says: There is good reason to believe that Parliament will be called together sometime between the middle of November and the middle of December. The Government realizes that the session must not be short by a forced dissolution and are therefore making active preparations for a general election. Some think that the Government may seek to take their opponents by surprise early in the session by advising dissolution before the natural end of the session.

In his statistical researches, the Dominion officer has happened upon some interesting figures in connection with Canadian newspapers. He finds we had last year 919 newspapers and periodicals in the Dominion. Of those 92 were daily, 35 being morning and 57 evening. The rest were weekly. There are 590 weeklies in the country. Nearly half the dailies (11) are printed in Ontario, which has in 341 papers, considerably more than half the total number in the Dominion. Quebec has 150 newspaper publications, 14 of them being dailies.

Not only has Canada agreed to carry New Zealand mail on the coastwise trade, but arrangements have been completed for steamer to call at New Zealand on both outward and homeward trips. The New Zealand government is giving an annual subsidy of \$100,000. Arrangements have also been started for a reciprocal treaty between the two colonies. A Japanese line of steamers between Japan and Australia will shortly be started, and thus afford an alternative route between British Columbia and Australia via China and Japan.

Since 1891 there has been a considerable space of parcel post conventions, more than a score of important routes having been added to the system. The Postoffice Department has been obliged to issue an entirely new schedule of parcel routes to come into operation on the 1st of October. It shows that a tariff has been arranged for the carrying of parcels to almost every part of the world open to foreign commerce.
