BORN.

FARRIER—In Eramosa, on Friday, 13th Sept., the wife of M. Farrier, of a son.

HYDE—In Esquesing, on Wednesday, 11th Sept., the wife of Thos. Hyde, of a son.

MCCULLOUGH—At Harriston, on Saturday, 14th September, the wife of Dr. H. R. McCullough, of a daughter.

MARRIED.

SINCLAIR—DUGGAN—On Monday, Sept. 16th, at Grace Church, Brampton, by the Rev. W. F. Wilson, Samuel Sinclair, Chicago, to Mary E. (Minnie) Duggan, Brampton.

HUTCHISON—BUTLER—At the Manse, Acton, on Tuesday, 17th September, by Rev. J. W. Rae, Mr. Will J. E. Hutchison, to Miss Emma L. Butler, both of Georgetown.

DOUGLAS—MCPHEDRAN—At the Manse, Acton, on Wednesday, 18th, Sept. by the Rev. J. W. Rae, Donald Douglas, of Nassagaweya, to Minnie McPhedran, of Esquesing.

DIED.

JAFFRAY—At Galt, on Thursday, Sept. 5, Geo. J. Jaffray, proprietor of the Galt REPORTER, aged 57 years.

The Acton Free Press.

THURSDAY, SEPTEMBER, 19, 1895

NOTES AND COMMENTS.

The *National Trade Bulletin* says that prices of cheese never have been so low in Canada in the first week of September as during the past week. Some Quebec cheese factories have been closed up.

The Spanish Prime Minister, in speaking of Spain's attitude toward Cuba, says that home rule, like that enjoyed by Canada, will never be granted. Home rule is an impossibility while Spain controls the island

The Evening *Citizen*, of Glasgow, points out that as Britain buys $900,000,000 worth of stuff for her pantry every year, of which $80,000,000 is for fruit, it might pay Canadian apple raisers to pack their goods carefully and according to British taste. With a little care and precaution Canada can have command of the market.

Some people are apt to belittle the efforts of the Government to extend the mail and steamship routes. An instance of the extent to which the mail service to Australia, *via* the Canadian route has developed, is afforded by figures which have just reached the Postoffice Department of mail taken out by the Warrimoo last month. The Warrimoo had 263 bags of mails on board, upwards of 100 of which were from Europe.

The rapid decrease in the population of Ireland—from 8,300,000 to 4,600,000 in fifty years—is ascribed by Dr. Grimshaw, registrar general, to three causes. The frequent failure of the potato crop; the emigration, stimulated by the high wages in America and the low wages at home; and the lack of manufacturing industries, the result of which is that when the crops fail the people become destitute and have to leave the country.

A serious political deadlock is probable over the Newfoundland smuggling exposures. It is understood that the Government discourages every movement looking towards the prosecution of the offenders. It maintains that the fining of them before the Board of Revenue was sufficient punishment. The Board insists, however, and is supported by public opinion, that it is necessary to make an example now to prevent a resumption of the illicit practices on as large a scale as ever

The Montreal papers are much pleased with the appearance of Dr. Peterson, the new Principal of McGill College, who arrived the other day from Dundee, and who was accorded a hearty welcome by all connected with that institution. The *Witness* says that he is a young man in the prime of life, of a pleasant countenance, with broad shoulders, and altogether presenting physical virility unlike the conventional professor. The charm of his speech is that it has a slight smack of the Doric peculiar to Dundee.

The prompt action of the Government in rebutting the charges that filled or imitation cheese is made in Canada and exported to England has had the desired effect. Sir Charles Tupper, High Commissioner for Canada in London, on Monday sent the following cable message to the Department of Agriculture: "Editor *North British Agriculturalist*, admits and regrets the grave error made in using the word Canada instead of American. He is retracting editorially, and will publish evidence of purity of Canadian produce in Wednesday's issue."

The Fire Protection by-law is a current topic of conversation in town at present. The feeling is largely in favor of the by-law, though there are some who speak strongly against a fire engine, and they evidently think they are justified in so expressing themselves. Their conclusions have generally been arrived at, however, through misapprehension on some point. There are some peculiar arguments used. An esteemed and progressive Actonian man said to a fellow-citizen the other day: "I don't think a fire engine would do much in saving my place in case of fire, as my premises are of so inflamable a character." "But," replied the other, "In case a fire broke out in a store a few doors from yours wouldn't the engine be effectual in controlling the fire and saving your property." This changed the aspect of the situation and the business man referred to is giving the by law his undivided support. As citizens we must be unselfish as well as progressive in this matter.

OTTAWA SEPARATE SCHOOLS.

All the Brothers to be Withdrawn on October 1st.

OTTAWA, Sept 17.—The Superior of the Christian Brothers at Montreal, Brother Flamien, has thrown a bomb shell into the separate schools of Ottawa by notifying the secretary of the board that he would withdraw all the brothers from schools on Oct. 1. There are four schools, all attended by French pupils, manned by about twenty-six brothers. The reason given for this action is that the board broke the agreement at Garneau street school.

Freight Train Blown From the Track.

MADISON, Wis., Sept 16. A terrific wind storm passed near this city yesterday afternoon. A freight train was blown from the track at Madison Junction, and four men were seriously injured. The wind did considerable damage to farm houses and barns.

Farmer's Heavy Loss.

HAMPTON, Ont., Sept. 13. Andrew Griffin, 4th line, Clinguscousy, had his barn and outbuildings entirely consumed by fire this morning. All this season's crop was lost, stock saved, slightly insured; loss about $3,000. It is thought the fire was caused by a hot journal on the windmill power close to the barn.

A NOVEMBER SESSION.

Of Parliament is Very Probable—Preparations Being Made at Ottawa.

ELECTIONS ON IN THE SPRING.

OTTAWA, Sept 17.—Special expedition has been imparted to the preparations for the coming session of Parliament. Another request has been issued for the immediate completion of the departmental reports.

The staff at the printing bureau, which was shortened at the close of last session, has been reinforced and will be worked to its fullest capicity. This, it is said, was done in accordance with instructions wired from the West by the Premier. Everything points to a session in November, or early in December.

A French Canadian Minister states it would be impossible to deal with the school question and transact other necessary business at a session called in January, since Parliament would then have less than four months to run.

PRICE OF LIGHT WHEAT.

The New Plan of Deductions Fairer to the Farmer.

OTTAWA, Sept. 17.—It will be remembered that last year when a delegation from the Dominion Millers' Association came to Ottawa to interview the Government regarding mixing of wheat, a question of more immediate importance came up, viz., the scale by which deductions from the standard price of wheat were made by millers when purchasing grain of the lighter grades from farmers. When wheat was a dollar a bushel, the specific reductions of so many cents a bushel was perfectly fair, but with wheat, say, at fifty cents a bushel the reduction of the same number of cents per bushel gave ridiculously low prices for wheat testing 53 pounds to the bushel, and under. At the latter price for wheat testing about 52 pounds to the bushels, supposing the scale of deduction was 13 cents, the farmer would only receive 37 cents per bushel, and yet have to give 60 pounds in weight. It was suggested by Mr. Clancy, ex-M.P.P., that a fairer move would be to substitute a percentage scale of reduction and this proposition was agreed to by the Millers' Association last week.

A BONANZA IN ALGOMA.

Gold, and Lots of It, near Jackfish Bay. The Vein From 16 to 25 Feet Wide.

TORONTO, September 17.—A Port Arthur correspondent of the *Mail and Empire* says that a wonderful gold discovery has been made in the mountains near Jackfish Bay, Lake Superior, about five miles from the Canadian Pacific Railway, where it skirts the shore at that point. The vein or ledge has been traced one and one half miles, it having a width of from 16 to 25 feet, and conservative estimates are that it carries from $8 to $10 per ton in free gold, besides the sulphurates. In addition to this, in places, vein quartz may be broken off, which is literally spattered with the precious metal, and would easily go from twenty to thirty thousand dollars per ton. The correspondent says he has no hesitation in saying that, without exception, it is, so far as can be told at the present moment, the richest and most important mining discovery made in Algoma.

HON. WM. HARTY RESIGNS.

Rather than Face the Charges of Corrupt Practices in Last Election.

KINGSTON, Sept. 17.—The trial of the petition against the return of Hon. Wm. Harty as member for the Ontario Legislature concluded to day without evidence being submitted.

Mr Blake on behalf of Mr. Harty admitted corrupt practices sufficient to void the election. The petitioners withdrew the personal charges and the judges after consultation and with a precedent in the Dufferin case decided to report to the Legislature, the admissions made and leave it to issue an order voiding the election.

The respondent's costs were fixed at $300.

The judges' decision vacates the seat, and it is probable an election will take place within two months.

WHAT THE FAIR DOES.

A Toronto Paper's Idea as to the Value of the Exhibition From Some Standpoints.

The Toronto *News* says: "Not the least valuable of the influences of the Industrial Exhibition is the bringing together once a year of the city and country. This tends to the promotion of kindliness and hospitality on the part of both, and it opens the heart, broadens the sympathies, and betters the individual. Sometimes the city folk make jokes at the expense of their farmer friends, but they like to see them drop in at Fair time and they make them welcome. Many a man in this city during the past week has snatched a few hours' paiuful sleep on a short lounge, with his legs hanging over the end, and given up his comfortable bed to the old couple from the farm, or it may have been to the girls who had come to the Fair for the first time. And they did it cheerfully. This was not all pither, for they have lost a day's work to show the folk around, and have gone to the fireworks to please the country friends although every bone in their bodies were crying out for rest. Many of them will be saying to-day that they are glad the show is over and that they are tired to death of it, but after a good night's sleep, in their own beds, they will get up on Sunday in the most optimistic frame of mind and say, "Well those people seemed to enjoy themselves and I am glad of it. Hope they will come again next year. Country folk are not so bad after all."

A PECULIAR SUIT

TORONTO, Sept 17. An unusual application was made before justice Meredith in Court yesterday. The sum of $6,000 was deposited in the Dominion Bank some years ago by Frank Woods under the name of James Brown, who had deserted from the English army in 1869, assuming the name of Brown. Wood died in Toronto in April last, and his widow is now seeking to have the money placed in the custody of the Toronto General Trust Company, and to that end is applying to the courts to have Frank Wood and James Brown declared one and the same person. The bank some time ago paid the money into court.

$5,000 Blaze in Harriston.

HARRISTON, Ont., Sept. 13. A frame building known as the Oddfellows' block, and occupied by J. C. Brown, stoves and tinware, C. Johnson spring mattrass factory, and Weltie's repair shop, was destroyed by fire to-day. Building valued at $2,500 and insurance $1,600. Brown's stock about $2,500, insurance $2,100 partially saved.

During a review of the Sultan's troops at Fez the soldiers made an attack upon the tribesmen who were amping the spectators, killing nine and making prisoners of seventy.

NEWS OF THE DAY.

An Epitome of the World's Doings During the Week.

Mayor Stewart, of Hamilton, is expected home from Florence at the end of next month.

The Provincial Synod passed a resolution in favor of restoring denominational schools.

The British Association for the Advancement of Science has decided to meet in Toronto in 1897.

Sir John and Lady Schultz will hold their farewell reception at Government House Winnipeg to day.

It takes eight pages of a Toronto paper to contain the advertisement of lands for sale for taxes in that city.

Orders have been issued to have the Sault Ste. Marie Canal kept open on Sundays until the end of the season.

The total receipts of the Industrial Exhibition have been announced as $108,075.55 against $105,090 75 last year.

The Chinese are reported to regard the inquiry into the Kucheng massacres as a mockery and to be releasing the prisoners.

Two gunboats have been ordered to Kucheng, China, to enforce punishment of the rioters who attacked the missionaries there.

Alex. McEachren bookkeeper at the Bell Organ Company's offices in London, is under arrest on a charge of robbing the company.

Six women and one child were burned to death on the London & Edinburgh Company's steamer *Iona* on her trip from Leith to London.

Robert Coombes, aged thirteen years, has been found guilty of the murder of his mother in London, and sent to an insane asylum.

Milton Waters, aged 18, was killed at Niagara Falls on Friday night in trying to jump on an M. C. R. train while crossing the cantilever bridge.

The date of the Provincial plowing match has been fixed for Wednesday, Oct. 23, on the farm of Thos Cairns, south of the cemetery, Owen Sound.

The Provincial Synod, meeting at Montreal, rejected a motion to authorize the use of the revised New Testament in the Church of England.

Within two miles from the centre of Winnipeg Mr. Stephen Nairn has a wheat field which averaged 41½ bushels to the acre, and 63½ pounds to the bushel.

The Quebec Government has taken action to recover from the city of Montreal the sum of $500,000 received in Recorder's Court fees since Confederation.

The C. P. R. is opening new stations, putting on night operators and employing additional train crews to handle the big wheat crop in Manitoba and the Northwest.

At a meeting of the Missionary Board of the Disciples of Ontario, held in Toronto recently, it was decided to transfer the college of the Disciples from Toronto to London.

A Paris inventor named Turpin claims to have authority from the Porte to fortify the Dardanelles, and to be able to make the straits impassible to the united fleets of the world.

The Queen has approved the appointment of Sir Alexander Mackenzie as Lieutenant Governor of Bengal. Sir Alexander Mackenzie, K.C.S.I., is the son of the late Rev. J. R. Mackenzie, of Birmingham and Inverness, and was born in 1842.

EDITOR'S TABLE

Among other attractive features of *Peterson's Magazine* issued on September 21, will present some very beautiful gowns from the Maison Worth drawn by Sandoz. These are appropriate for the transition season between summer and autumn. An article entitled "Life in Puget Sound," by Mrs. Candace Wheeler will be of unusual interest, and among the lighter sketches will be a dialogue, by Francis B. Paine, in which the humors of "Summer Whist" will be amusingly outlined.

The October number of the *Delineator* is called the Autumn Number and contains a choice and varied selection of timely articles. It gives an authoritative exposition of Autumn Styles, illustrating a variety of novel, artistic and beautiful garments. Every department is replete with interest. Address communications to the Delineator Publishing Co., of Toronto, Ltd., 33 Richmond St. West, Toronto, Ont. Subscription price of the *Delineator* $1.00 per year, or 15 cents per single copy.

One of Fanny's latest productions is a home study entitled "What they could n't." It gives a view of the daily life, experiences and perplexities of a family endeavoring to keep up pace and appearances with the wealthy and aristocratic classes, upon the salary of an over worked father. The long and unsuccessful struggle of this erratic but by no means isolated family, to sustain a place with the Four Hundred, if given in well told and interesting detail. The final decision of the family to allow society to take care of itself and to mutually aid each other to financially independent position, irrespective of what society would say, was the important turning point in the domestic history. Upon this principal of mutual helpfulness and the relief of the burdened father, each member of the family decided to engage in some useful employment. With this determination put into successful operation true happiness and domestic fidelity, prevailed. This step led to others. The community was benefitted. Lives were consecrated to the service of the Master and the home which at the outset had attempted "What They Couldn't" accomplish, became a place of unalloyed joy and comfort. Every page of the volume is replete with interest and the lessons taught should have a salutory influence upon all readers. Cloth binding, gold stamp, 424 pages. Price $1.25. Wm Briggs, publisher, Toronto.

The Methodist Magazine for September, 1895. Price, $2 a year, $1 for six months, 20 cents per number. Toronto: William Briggs. A leading article in this number is a finely illustrated one by the Editor on "Savonarola, the Martyr Monk of Florence," with beautiful illustrations of that "Flower of Cities" and "City of Flowers." "City, Rice Swamp and Hall," or, Mission(ary) Triumphs in India," is the title of a splendidly illustrated article by the Rev. J. O. Angwin. The character study of Florence Nightingale, with portrait, describes a life of heroic devotion to duty. Among other interesting articles will be found a graphic description of a journey in winter through "The Land of the North," by E. W. Caron-Brooke, entitled, "In a Sledge through Famished Russia," and "The New Astronomy," in which the question, "What is the End of the Sun?" is resived by J. F. Gore. "Arthur's Mission" and "The House on the Beach" exhibit sustained interest.

FAVORITE PRESCRIPTION

HOW IT CURED MRS. SOMERVILLE OF BRANTFORD.

Her Case Had Baffled Ten Years of Treatment. The Trouble Brought on by an Attack of Typhoid Fever. She is Again Enjoying Good Health.

From the Brantford N. speaker.

That Dr. Williams' Pink Pills are a favorite medicine in Brantford and vicinity will be readily borne out by the local druggists, and that much suffering has been alleviated by the use of this wonderful healing compound is shown by the number of strong statements in favor of Pink Pills from this section. And yet the number of cases published is small in comparison with the total number that have found benefit from the use of this great blood builder and nerve restorer. It is true that Pink Pills are used in many cases to tone up the system, enrich the blood and stimulate the nerves where no serious illness exists, but it is equally true that in many cases in which they have been used, other medicines have failed, and the result achieved by Pink Pills may very truly be characterized as marvellous. The editor of the *Canadian Nationalist* came across just such a case recently. It is that of Mrs. S. Somerville, a well-known and highly respected resident of this city. Mrs. Somerville does not seek notoriety, but is willing that a statement of what Pink Pills have done for her shall be made public in the hope that some other sufferer may be benefitted thereby. "My illness at first," said Mrs. Somerville, "was a serious attack of typhoid fever. Although I recovered from the fever it left its effects that have caused me many years of misery. The doctor said that my blood had become impregnated with poison and that it would take a long time to eradicate it. The trouble seemed to have its chief seat in my limbs, which caused me a great deal of pain. For about ten years I continued doctoring, not continually, but at times, and I tried many remedies without permanent results. This went on until the end of '93, when I became so much crippled up that I despaired of getting relief. I had read much of the remarkable cures through the use of Dr Williams' Pink Pills and became interested in them. One day I asked my physician if I might try them. He gave his permission and I began using them. By the time the third box was finished I found myself very much improved. In fact, the pains had entirely left me and I was growing healthier and more fleshy. I continued using the pills until I had taken six boxes more, when I felt that I was entirely cured, and was enjoying better health than I had done for years. I am satisfied that to Dr Williams' Pink Pills I owe my recovery, and have implicit confidence in their curative power, and shall continue to recommend them to other sufferers."

Dr. Williams' Pink Pills for Pale People are not a patent medicine, but are a long tried prescription acting upon the blood and nerves. They are of great value as a tonic during recovery from acute diseases, such as fevers, etc., building up the blood and system, preventing the often disastrous after effects of such troubles. Sold by all dealers or sent postpaid at 50 cents a box, or six boxes for $2.50, by addressing the Dr Williams' Medicine Co., Brockville, Ont. Refuse all imitations and substitutes.

A COLONIAL EXHIBITION

To be held in Montreal from May 24 to October 12 Next Year

MONTREAL Sept 16. At a meeting of the directors of the Exhibition Company to day, it was decided to hold a grand colonial exhibition here next year opening on May 24 and closing on October 12. The exhibition will comprise the products of five colonies Canada, Australia, New Zealand, Cape Colonies and Newfoundland. All the exhibits at present in England will, it is reported, be sent over and supplemented by others. The Government is said to have granted the sum of $2,000 to the exhibition.

The present grounds will not be sufficiently large to accommodate the exhibits, and large additions will have to be made. The exhibition of which Mr Stiles is the promoter will be postponed on account of this action of the Montreal Exhibition Company until 1899.

A FOOL, A GUN AND A TRAGEDY

STE. THERESE, Sept 17. A fatality occurred here last night. Mr. and Mrs. Jos Vanier, being absent from home, their daughter invited Miss Alexina Cadieux and two gentlemen friends to spend the evening with her. About midnight while the men were preparing to leave, Joseph Laroche, seeing a gun standing in the corner of the room, picked it up, not knowing it was loaded, pointed it at his friend Duval, at the same time saying: "I will kill you." The weapon was discharged, and the contents, missing Duval, struck Mlle. Cadieux in the face, killing her instantly. Coroner Mignault is preparing to hold an inquest.

Wheat Crop of Europe.

WASHINGTON, Sept 17. A report on European crop prospects presented at reports to the agricultural department shows that the cereal output in G at Britain will be much below the average. Harvesting has been delayed in Switzerland and the wheat crop will be under 5,000,000 bushels.

In France the wheat crop is excellent and will exceed 300,000,000 bushels. Wheat in Germany is expected to make a better showing than in 1894. In Austria the crop is somewhat less than in 1894, which was 146,000,000 bushels. In Roumania new wheat has been raised.

An Excursion Steamer Burned.

BOSTON HARBOR, Out Sept, 16. The excursion steamer *Columbian* was destroyed by fire about half past five this morning. The steamer when first discovered was completely enveloped in flames, and in a short time burned to the water's edge. Having completed a prosperous excursion season, she was placed in winter quarters only a few days ago. The cause of the fire is unknown. The steamer was owned by Messrs. McManus & Co., and was insured.

FRAGRANT AS THE FLOWERS.

Is the new and delightful tooth preparation "Ivorine." Fragrant Ivorine is obtainingly pleasant to use, a perfect delight to the senses and possesses in a marvelous way the property of rendering the teeth white and brilliant. Ivorine hardens the gums, prevents decay, and imparts to the breath a delightfull fragrance.

Farmers wanting Hardy, Native Stock to plant this coming Fall or Spring may pay for it in work. We want men with or without experience on full or part time. Salary and expenses or commission. Write at once for further information. BROWN BROTHERS COMPANY, Continental Nurseries, Toronto, Ont.

Toronto, Ontario.

As Well as Ever

After Taking Hood's Sarsaparilla

Cured of a Serious Disease.

"I was suffering from what is known as Bright's disease for five years, and for days at a time I have been unable to straighten myself up. I was in bed for three weeks; during that time I had leeches applied and derived no benefit. Seeing Hood's Sarsaparilla advertised in the papers I decided to try a bottle. I found relief before I had finished taking half of a bottle. I got so much help from taking the first bottle that I decided to try another, and since taking the second bottle I feel as well as ever I did in my life." GEO. MERRETT, Toronto, Ont.

HOOD'S Sarsaparilla CURES

C. C. SPEIGHT, or
WM. HEMSTREET, Acton
Acton, Sept 17th 1895.

THE CORPORATION OF THE VILLAGE OF ACTON

BY-LAW NO. —

A By law to purchase a Steam Fire Engine and apparatus connected therewith; to provide for the construction of water tanks; and to authorize the issue of debentures to the amount of $4500.00 for the purpose of paying for the same.

Whereas at a public meeting of the ratepayers of the village of Acton duly called by the Reeve to discuss the question of Fire Protection, it was resolved that the Council be requested to submit a By-law to raise by debentures sufficient money to purchase a Steam Fire Engine and the apparatus connected therewith and to provide Water Tanks.

And whereas it is expedient and desirable that the corporation of the village of Acton purchase a Steam Fire Engine and the apparatus connected therewith, including Hose, and connect Water Tanks in various places in the said municipality.

And whereas for the aforesaid purpose it will require $4500.00.

And whereas for the purpose aforesaid it is necessary for the said Corporation to issue its debentures for and to borrow thereon the sum of $4500.00 as hereinafter mentioned, and that such debt and the debentures to be issued therefor shall be made payable in twenty years at the furthest from the day on which this By-law takes effect.

And whereas it will require the certain specific sum of $233.00 to be raised annually for the payment of interest during the currency of the said debentures and also the certain specific sum of $128.25 to be raised annually for the payment of the principal money of the said debenture debt, which sums are hereby settled as being sufficient for the purposes aforesaid; and in settling the sums to be raised annually for the payment of the principal of the debt a rate of interest on investments has been estimated at not more than five per cent. per annum to be capitalized yearly.

And whereas the total amount to be raised annually by special rate for payment of the said debt and interest is $361.25.

And whereas the amount of the whole ratable property of the municipality of the village of Acton was according to the last revised Assessment Roll the sum of $982,405.

And whereas the amount of the existing debenture debt of the said municipality is for principal money the sum of $13,190.00.

And whereas there is no part of such last mentioned sum or of the interest thereof in arrear.

And whereas this By-law has received the assent of the Electors of the said municipality before the final passing thereof.

Therefore the corporation of the village of Acton by the Council thereof enacts as follows.

1. For the purposes aforesaid a debt of $4,500.00 shall be created by the said Municipal Corporation and to raise the said money the said Municipal Corporation may and shall issue and dispose of its debentures for the sum of $4500.00. The proceeds thereof to be applied for the purposes aforesaid which debentures shall be sealed with the Corporate seal of the said Municipal Corporation and shall be signed by the Reeve thereof and countersigned by the Treasurer thereof and shall have attached thereto coupons for the payment of interest.

2. And the said debentures shall be made payable in sums of not less than $100.00 each at the expiration of twenty years from the day this By-law takes effect at the office of the Treasurer of the said village of Acton.

3. And the said debentures shall bear interest at the rate of five per cent. per annum payable half yearly from the date thereof on the 30th day of June and the 31st day of December in each year at the office of the said Treasurer.

4. And for the purpose of forming a sinking fund for the payment of the said debentures the said certain specific sum of $128.25 and for the purpose of paying interest upon the said debt the certain specific sum of $233.00 making together the sum of $361.25 shall be raised, levied and collected in each year during the continuance of the said debentures or any of them by special rate sufficient therefor on all the ratable property in the said municipality, such annual special rate to begin from the date when this By law takes effect.

5. That this By-law shall take effect and come into operation upon the fourteenth day of October, 1895.

6. The votes of the Electors of the said village hereon shall be taken on the 5th day of October, 1895, between the hours of nine o'clock in the forenoon and five o'clock in the afternoon at the following polling places in the said village of Acton and by the following deputy returning officers respectively:

Polling sub-division No. 1, Town Hall, T. T. Moore, Deputy Returning Officer.

Polling sub-division No. 2, Speight's Shop, J. C. Hill, Deputy Returning Officer.

7. The Clerk of the Village Council shall sum up the number of votes given for and against this By law on the seventh day of October, 1895 at the hour of eleven o'clock in the forenoon at the Town Hall in the said village.

8. The twenty-eight day of September, 1895, at the hour of eleven o'clock in the forenoon at the Town Hall is hereby fixed as the time and place for the appointment of persons to attend at the various polling places and at the final summing up of the votes by the Clerk of the said village respectively on behalf of the persons interested in the promoting or opposing the passage of the By-law respectively.

Finally passed after assent of ratepayers by the said Council the ... day of ... 1895.

Reeve.
Clerk.

NOTICE.

Notice is hereby given that the foregoing copy of By-law is a true copy of a proposed By law which has been taken into consideration by the Council of the Corporation of the village of Acton and which will be finally passed by the Council in the event of the assent of the Electors being obtained thereto after one month from the first publication of the said By law in the Acton FREE PRESS newspaper which publication was on the twelfth day of September 1895, at the hour, day and places in the said By-law fixed for taking the votes of the Electors of the said village on the said By law the polls will be held.

T. T. MOORE,
Village Clerk.

Dated September 9th, 1895.
