Whinkey Makes Unsafe Drivers.

A couple of young fellows from Grerge own, with a team of white horses, spent Tuesday afternoon in town. During their suit they were liberal patrons of the hotel bare and by night were bardly able to take care of themselves and not able to drive their team properly. About eight o'clock they drove into the rig of Mr. William Whitley, Nassagaweys, at the corner of Mill and Main streets, and took a wheel off his buggy. Mr. Whitley was bot ninred but one of the Georgetown young men received a severe shaking up.

Scarcity of Water. Thus and many other parts of Ontari were probably never as scarce of water at this season of the year. The wells, creeks, springs and even the swamps are showing the effects of the lack of the usual fall rams. Should winter set in as things are at present many farmers and others would be put to great inconvenience in securing water. Places that a year ago were cover ed with several inches of water, are now perfectly dry and it will take heavy falls of

rain to "fill up the swamps"-which it is and must be dope before winter can set Orange Blossoms at Dublin. The most interesting event of the sesson in this part of Exquesing township was enacted at the home of Alex Waldie Esq., one of our most prominent agriculturists, on Tuesday afternoon. At four o'clock in the presence of a large number of relatives and friends, Mr. Waldie gave his daughter Flora in wedlock to Mr. Duncan McDongall, an enterpriting young farmer, son of the late John McDougall,

ed the ceremony. The wedding presents were numerous and gave ample proof of the popularity of the young couple. Kind Words of Farewell. On Monday evening the members Knox Church Y.P.S.C.E. met at the home of Miss Carme MaPhail, Vice-President, to spend a social hour with the president, Mr.

I. V. Smith, prior to his removal. A very pleasant evening was spent and the follow ing address was presented Pres knox Church 1.P B.C. E. DEAR SIR AND BROTHER. Having tearned f your intention to leave our village for another
