The reports of the copyright negotiations at Otlaws have been read in London with great interest by authors and publishers. If a compromise has been arranged which will not excite criticism and resentment in the United States, the negotiator of it will be received with open arms upon his return. The tramp problem is likely to prove serious one during the present winter, and municipal bodies should be prepared to deal with the perambulating gentry. The municipal stone pile scheme has been success does not lie in the accomulation of a lot of nicely broken stone, as a pile of a presence of the pile is an effectual means of avoiding visits of tramps, who soon got posted and keep away from towns where they are made to work.
