The Young Folks.

MY LADY JUST OVER THE WAY.

My lady just over the way tells me now—

That she has three nice, perfect boys;

They have always combed and their clothes

always fit them like gloves she hears—

Ladies, dear—

And never does she hear—

From home near—

The little ones set no rules.

But I would not change you for them, little

ones.

Now that you're nice, no one, though

you'll say—

I cannot manage that way—

Yes, I say—

That I cannot manage that way.

"Don't they say?"

Or worse—well, that is—I suppose.

But I could not change you for them, little

ones.

Nor you, Trick Tom; no, nor you, Bright

Pete.

We have but many boys, silent and cold,

And steady they come with all of her gold,

To feel the close of a baby's warm hand.

Or hear the word "mamma." You can't under-

stand—

No coddling down, and to-night when we

pray—

We'll think of my lady that lives over the way.

JOHN'S FORETHOUGHT.

"John," said a wife who was supposed to be on her death bed, "in case of my death, I think a man of your temperament and domestic nature, aside from the good of the children, should marry again."

"Do you think so, my dear?"

"I certainly do, after a reasonable length of time."

"Well," now, do you know, my dear, that rather my mind of a great burden. The little widow Jenkins has acted rather de- more toward me since you were taken sick. She is not the woman that you are, a strong minded, intelligent woman of character, but she is plump and pretty, and I think would make me a desirable wife."

The next day Mrs. John was able to sit up, the following day she went down stairs, and on the third day, she was planning for a new dress.

IT IS BETTER

Not to let your sail be bigger than your boat.

To let your recreations be manifold, not singular.

To bend the neck promptly to bow the forehead.

To think before you speak than to speak before you think.

To hold your good name; for it is of more value than gold.

To put your foot down where you mean to stand and kick it there.

To look well to your feet when they are likely to lead you into the paths of sin.

To labor to keep alive in your breast that little spark of celestial fire called conscience.

To stick to your own opinion, if you have one, and allow others the same liberty of sticking to theirs.

New Versions of the Bible.

Having completed its share of work on the revised version of the Apocrypha, the Cambridge University Press is about to begin a large edition to the Septuagint version of the Old Testament, which will take many years to complete. The readings of all extant Greek Biblical manuscripts and fragments will be given, as well as the evidence of the old Latin, Egyptian, Syro-Hexaplar and Armenian versions, and the quotations in Philo, Josephus and the Christian Fathers. The editors will be Rev. A. E. Brooks, of Kings, and N. M. Leam, of Christ's. The first volume will be ready, it is hoped, in five years.

SENSIBLE SAYINGS.

That leisure is wasted which is not made to yield improvement of some sort.

We cannot be wise in everything, but we can at least be pious to our susceptiments.

The man who fails to "grind his ax" is the one who fears that the country is going straight to destruction, and proclaims it most loudly.

The man or woman who speaks in the simplest, most direct, unequivocal language is the least liable to be misunderstood, or to suffer the mortification of explaining or correcting.

A Humble Apology.

& London winter was both witty and sarcastic and didn't know the fact."

"Do you call that a real outlet, writer?" said an exquisitely nice man of the most delicate type even in that favorite region of squalities, the West End. "Why, sir, such a real outlet as that is an insult to every self respecting soul in the British Empire!" The walter hung his head in very shame for a moment, and then replied in the language of humblest apology: "I really didn't intend to insult you, sir."

She Wanted to Know.

Agnes—Do they carry cattle on this ocean line, ma?

Mamma—No, indeed. This is one of the finest about.

Agnes—Well, the percentage is for peers, and why isn't the steamer for steerers?

There was a snow blockade on the Canadian Pacific railway in the mountains, and no through trains from the west reached Winnipeg for three days up to Monday.

RESPECT FOR THE NERVES.

Respect for the nerves, then, demands the avoidance of a number of every kind whether mental or physical. Too much mental exertion of the digestive organs, too much. Muscle riding draws too heavily on the heart and lungs, too much thinking over-freighting over-laden the brain.

But in fact overworking the digestive and assimilative organs or straining the heart or lungs to support the nerve centers to regulate the fatal lesion; for so long as the derangement is not beyond the power of vital force to rectify, it is but temporary, and the equilibrium will be restored.

The true thing of living a healthful life would seem to be this: take care of the nerves; to do this guard against overwork, that is, over expenditure of energy. But a majority, perhaps, of fairly intelligent people do not know when they are making the most destructive inroads on their vital supply, and such ignorance is very hard to reach with the enlightenment of science. A person of weak stomach by eating a bit of pie may bring about a nervous weariness, but that caused by a hard labor. He has made up and upon a sort of disorder, and they cannot supply the force. It is the bearing of a weak horse because he cannot draw a load. Excesses are what prevent success.—Editor's Outlook, in the Chautauquan for March.

A Timid Housekeeper.

Mrs. Newell—We will have to have a speaking-tube from the dining-room to the kitchen.

Mrs. Newell—Why?

Mr. Newell—Well, I must get some way

of talking to the cook without having her throw dishes at me."

One Source of Pain and Suffering under Human Control.

An eminent specialist in studying profoundly the construction of the kidneys and their diseases as well as the diseases of the bladder and urinary passages, has soundly re-organized the fact that in order to treat kidney and bladder diseases successfully a remedy must be prepared especially for these organs, and one rich in healing powers. After much research a remedy was found, which proved a success in the manufacturer. After being prepared in general practice by several physicians with great results, it was placed on the market and known as South American Kidney Cure. In order to give relief in six hours in all derangements of the kidneys or bladder, Bright's disease, diabetes, inflammation or ulceration of the kidneys, urethritis, calculi, hemorrhage, and catarrh of the kidneys, inflammation of the bladder, etc. Sold by J. V. Kannawin.

All our actions take their hue from the complexion of the heart, as landscapes their variety from light—Bacon.

There never was a new world but, a world of high form, for all the earth is fair—The very nature of many creatures being such that were the forms of other and differently shaped diseases rooted in the system of the patient what would relieve one ill, it would aggravate the other. We have, however, in Quinine Wine, when obtained in a sound, undiluted state, a remedy for many and grievous ills. It is entirely pure and really efficacious, relieving pain and lameness, stiffness of the joints and muscles, and worms or bursts, besides being an excellent specific for rheumatism, and bronchial complaints.

Burdock Pills do not grip or suck. They cure Consumption and Stick Headache.

NEW RICHMOND STREET METHODIST CHURCH.

Rev. A. B. Chambers, LL. B., the Popular Pastor of the New Richmond Street Methodist Church, Toronto, Ontario, has given the public their Quinine Wine, which is the best cure for Consumption, and one which has done all this and even more. It has been taken in thousands of cases, and the trial has effected wonderful cures, bringing health, strength and joy to the afflicted.

I have prescribed Scott's Emulsion in Consumption and even when the digestive powers were weak it has been followed with good results. If P. Y. Kenyon A. B. M. D.

Norway Pine Syrup cures Coughs, Cold, Hoarseness, Sore Throat, Asthma, Bronchitis, Lungs Troubles.

Many historians take pleasure in putting into the limelight of prides what we have neither said nor ought to have said.

Varicose.

No remedy cures Coughs, Colds, Hoarseness, Sore Throat, etc. as well as Dr. Wood's Norway Pine Syrup. It heals soothes and strengthens the Tungs and Ulcers.

There is but one temple in the world, and that is the body of man. Nothing is holier than high form.

Nothing is more important in any remedy, for all the earth is fair—Novalis.

The Public should bear in mind that Thomas' Electrode Oil has nothing in common with the injurious, deteriorating, class of so-called medicinal oil. It is entirely pure and really efficacious, relieving pain and lameness, stiffness of the joints and muscles, and worms or bursts, besides being an excellent specific for rheumatism, and bronchial complaints.

Its Farm Features.

Such as Live Stock, Dairying, Horticulture, Poultry, Manufacturing, and successful farmers, supplemented with illustrations by this artist, Mr. W. H. Munro, and a series of farm features added, such as General and Local Markets, Crop Report in their various districts, Standard News and Letters among the Farmers.

These good things are being said of of the Rev. A. B. Chambers, LL. B., for his straight talk for secularized schools. Quite aside from the merits of the question, the vigorous and able manner in which Mr. Chambers handled the subject has been universally admired. In the same frank and straightforward manner this gentle man, whom the New Richmond Street Methodist Church has engaged, will speak to their pastor another letter or, talk of the help he comes to those who use Dr. Wood's Cough Powder. Mr. Chambers knows from experience in his own family, and he says over his own signature, how helpful this remedy is for cold in the head and chest. In hay fever it will give relief in ten minutes. Price 50 cents.

Sample bottle and blower sent on receipt of two 3 cent stamps.

Diplomacy consists largely in backing down with dignity when you have gone too far.

There is a danger in neglecting a cold. Many who have died of consumption, etc., had a cold at the beginning.

It is not safe, in going into the cold, to go directly into it.
