tention that the Remedial bill will never become law, that those Ontario mon who supported the measure in Parliament against their convictions can never be reelected, and that a public sentiment against the coercion of Manitoba is now rising all over the country, which will be the dominant force in the elections to be held at an early day.

The Judicial Committee of the Prive Council has grauted to the Dominion and the Province of Quebec leave to appeal from judgments rendered by the Supreme Court of Canada. The Province of Ontario is the respondent in both these cases, which arise from decisions affecting arbitration between the Dominion and the provinces in reference to the payment of bounties to

The Insurance Monitor finds that "the drink bill of the United States is four times as great as the entire cost of all the life meurance that is carried by the citizens of this country when the one is compared with the other." The Toronto News makes this very time Is observation. The departmental stores are teaching the small dealers the advantages of the cash principle as, they could not learn it from any other source. On anything but a strictly cash basis the big catablishments could not live for more than a year, for that is the very essence of their success. The money is paid before the goods are delivered in every case. If that had been the practice with other merchants in the past many would not now be mourning heavy losses, while those who honestly paid for their goods would not have been charged a double profit to make up for the failure of quighbors to pay their dobte. In fairness to his best outtomers, and to himself, every merchant should follow the example of the departmental stores and get cash for his goods. And business men generally in their dealings should adopt this correct principle of
