The Actons Win Adala.

The second Haltow Peel Longon match stween Acton and Brampton was played here on Saturday. It resulted in Acton's, favor with a score which is hardly complimentary to the efficiency of the players o orther side. The game was remarkable for errors by both visitors and the home tonin, and for this reason was not very interesting to the spectators. The score was 11 to 26.

An Accident to An Acton Lady. On Saturday evening Mrs. Thomas Hen derson, of Acton, who was visiting relatives on the seventh line, met with an accident of a somewhat serious character The was driving to Georgetown in company her sister in taw and when opposite M Fred Barber's residence a dog jumped at the horse causing it to become unmar ageable. The Sole Leather Tannery. During the past two months extensive improvements and additions have been progress at the sole leather tannery of Beardmore & Co. On Monday the fine new engine and botters were started and the large staff of employees is being gradually put to work again to the various de partments. The entire works have been thoroughly refitted and everything is now u much more satisfactory and convenient shape. The new 120 h, p, engine and the two 80 b. p. boilers put in by Goldie d McColloch, Galt, are doing perfect work. The new thirty-meh 3 ply oak tanned driv ing belt was manufactured in the firm's belt factory from leather tauned by Acton Tanning Company. The line shafts bave all been replaced with new four-inch shafting. A fourth rolling machine has been put in and the new drying kilp and to new vate in the tan yard give much

greater expacity. The 912 foot well just trilled will supply abundance of water to the new department Ferther improve ments are contemplated and will be carried out this fall Manager McGrail is justly proud of the works in their improved form.

Our Position

is that we save you money by purchasing in big quantities. We have an outlet for goods such as many people scarcely dream of, and distribute merchandise in a volume the magnitude of which would overwhelm any other store in this district? Of itself, this is not sufficient to guarantee a successful business, but when you reflect that big buying power, and big selling power mean in plain English-inside prices on -the goods handled, you realize there is a great deal after all in being two or three times as big as our competitors.

Our Buying Power.

Our money is made through the advantages that come from careful buying on a large scale. Manufacturers are eager to talk business when we go to them with a big order in one hand and cash in the other. This accounts for our success. and for the volume of our business. We have buyers now in Europe doing this very thing. This buying direct from the maker, represents a bigger saving in intermediate profits than you would imagine. Then comes the advantage of CASH for our purchases, the immense sum saved each year in cash discounts alone, and you will have a clearer idea of our ability to sell you goods at prices that would mean a straight loss to other merchants.

The time of the seven miles an hour mail coach, the trading off a horse for a suit of clothes, a quarter of beef for a few pairs of boots, or a basket of butter for a lady's dress, was all right in its day, but our country has advanced with the times and is calling for a more up to date means of busi ness, the watchword of which is CASH.

We recognized the necessity for such a way in the past,

took up that watchword, and by adding department after
