NOTES AND COMMENTS.
The (Guelph) town Council passed a by-law granting exemption from taxation and free water for ten years to the Dominion Cold Storage Co., of Montreal, with purpose erecting a cold storage building.

The indications in Manitoba and the Northwest point to a probable rise in prices in the grain markets there, and if there then in Ontario. We trust these hopes may be realized, for money has been rather scarce and for some time past in both provinces.

North Grey Conservatives have named Mr. James McLaughlin, the defeated candidate in the last election, to oppose Hon. Wm. Patterson. Both gentlemen are wholesale biscuit manufacturers and Mr. Patterson was Mr. McLaughlin's employer until fifteen years ago.

In order to put down the Cuban rebellion Maturana Campos estimates that it will require 400,000 men. That will be almost one soldier to every living inhabitant of the island, white and black, counting in women, boys and helpless old men. This is what Spain has come to in her degenerate latter days.

The *Amorion* says: "It seems that the necessary affidavits had been secured and the other papers prepared and forwarded to Toronto for a protest against the recent election in Halton. It is said that there was a 'saw-off' between Halton and Hamilton. That Halton should be out of it when election protests are being filed is something almost unprecedented."

Complete returns give the following as the occupations of the members of the new House of Commons: There are 63 lawyers, 33 farmers, 26 merchants, 21 physicians, 19 gentlemen, 12 manufacturers, 10 journalists, 6 mill owners, 3 contractors, 3 real estate agents, 2 surveyors, 1 veterinary surgeon, 1 town clerk, 1 dentist, 1 financial agent, 1 insurance manager, 1 banker, 1 ship owner, 1 rancher, 1 oil refiner, 1 printer, and one civil engineer.

The Minister of Agriculture, Mr. Fisher, has, it is reported from Ottawa, been compelled to follow the same course as Mr. Tarte, the Minister of Public Works, and cannot a large number of appointments made hastily as the election was coming on. The appointments made were of veterinary inspectors, who were nominated apparently wholesale to the number of a hundred and twenty, without the approval of the chief inspector, Dr. MacEwen, who was consulted by the new minister before the appointments were cancelled.

The Toronto *World* suggests that it would be a good move on the part of the Provincial Government to issue a pamphlet containing the latest information about the mining industry in British Columbia, especially the character, extent and richness of the mines in the Kootenay district. Such a statement coming from a reliable source, would have the effect of keeping the prospective boom down to its proper and justifiable limits. The Ontario Government should also give the public the benefit of the latest facts in its possession as to the mines of Northwestern Ontario, which are said to be giving promise of grand results.

The United States authorities have for some time past been keeping a close watch on vessels passing up and down St. Mary's River in an endeavor to compel the captives to live up to the regulations drafted by the United States Government. These regulations are to the effect that all vessels ascending or descending the St. Mary's River shall proceed at a greater speed than seven miles an hour. It was known that a number of captains had been warned and others fined for not observing the rule, but the announcement made Saturday that no less than thirty vessels have been given penalties, ranging from \$200 to \$1000 will be a surprise. Among the boats thus penalized are five Canadian steamers.

There is quite a widespread feeling in Canada against the general circulation which United States mail and silver has obtained lately. In most of the Hamilton towns and in the city the collection of water works offices of that city order and been worked to refuse American silver and silver certificates. According to the bank managers the action is not altogether the result of the silver shortage in the States, but because of the large quantity of American silver currency that is circulating, crowding out the Canadian coin. The same action has been taken in the past, with the result that the country has been rid of a great deal of the American silver. The Standard Bank has notified the public that after August 15 American one dollar bills will only be received at a valuation of 90 cents.

HER MAJESTY GROWING FEELER.
It is Reported That Queen Victoria Will Abdicate in Favor of the Prince of Wales.

LONDON, Aug 11. The old time rumor that Queen Victoria is to retire from the throne in order that the Prince of Wales may be crowned king has been revived but attracts little attention. There is said, however, to be considerable anxiety in official circles regarding the state of the Queen's health. Common report has it that Her Majesty has decided to retire hereafter either at Osborne or Balmoral, the Prince and Princess of Wales to occupy Buckingham Palace, and Windsor Castle to be reserved for the royal family.

Owing to the oppressiveness of the weather it was a small audience that assembled in the basement of St. George's Church on Thursday night to listen to the lecture on "The Future of the Human Race," by Maurice J. Goodhue, a Harvard Law and student of Wyofilla College, Toronto. The lecture was most interesting.

The projected lacrosse match between the Kings of Toronto, and the Knives was played at Georgetown on Monday. The match resulted in a decisive victory for the home team by seven goals to none. Over 1000 people witnessed the match which, although somewhat unseasoned was a fine exhibition of the national game. The Knives were in the best of trim and combination work, which was of a superior order, proved too fast for the Kings defense.

A FIBRE CHAMOIS AD.
Men as a rule care more for comfort than for style, still no man is averse to a neat well fitting coat that keeps its shape through all kinds of knocking around. This is one of the extra that Fibre Chamoy offers when used as an interlining in men's clothing. It not only makes garments thoroughly weather proof, providing a healthful warmth which can't be penetrated by the severest wind or cold, but its fastidious and soft texture makes the coat or vest fit well and keep its proper hang till worn completely out. And the beauty is that it is so light you wouldn't know you were carrying anything extra around and so cheap that it is to every one's credit.

The returns show that the Conservative party have won a majority in the county, but they have at least been brought to a standstill. THE EDITOR'S TABLE.
"Making Fate," by Franz, illustrated, cloth, 100 pages, William Briggs, publisher, Toronto. Price \$1.25.

This is one of Pansy's best efforts and will be a most popular volume. The story of the young people of a community entering upon the realities of life is exceedingly well told and cannot fail to interest young people generally. The alacrity of trusting to fate or in good luck is impressively shown throughout the volume, while the fact that luck is a hero and self reliance commendable in people who are of good character, is practically illustrated in the important lessons brought out, the interest in the story is especially sustained from beginning to end.
