THURSDAY, OCTOBER 1, 1906.

The Action Free Press is One Dollar a Year in Advance. Look at the Date on Your Label This Week and See That Your Name is Marked Well in Advance.

The date when the subscription expires on the address label of each paper, the change of which to a subsequent date becomes a receipt for remittance. Subscribers will please examine their labels before and after making a remittance.

NOTES AND COMMENTS.
The immigration returns of the Dominion up to the end of the month of August show that there will be a falling off to the extent of about 10 per cent. from the immigration of last year.

It is stated in Rome that negotiations are pending between England and Italy with a view to the latter holding in readiness a large body of troops to exit at a moment's notice to the Levant.

The Cairo correspondent to the London Times believes there is some truth in a native report that the Khedive is now making a tour of Europe incognito, and that he has taken with him a scheme for Egyptian independence.

The attention of teachers holding third class certificates is called to the fact that they should be prepared to appear before the Education Board on Monday next, otherwise they will be considered to have failed and will be required to study two or three languages.

The reduction made in Toronto assessment this year amounts to considerably over \$9,000,000. An exchange says: "Our neighbors set out a few years ago with too much steel on. The roofing process goes steadily, and by being by they get their top gear proportioned to their ballast."

A despatch this week says that the Newfoundland Government confesses that they were forced by the British Government to forbid local fishermen from competing with the French on the treaty coast. Because the natives are not permitted to fish there, they are now destitute. It is estimated that they suffer from the strict enforcement of a treaty one hundred years old, and which should never have been made.

A prominent scientist in Toronto proposes, in order to do away with the many inconsistencies and irregularities of our present calendar, to make the year 364 days in length, with two extra days added in every leap year, to make the calendar more exact and simpler to use. Instead of having 12 months in the year, ranging from 28 to 31 days in each, in the proposed calendar there would be 13 months in the year, each numbering 28 days, and every month would begin on Sunday and end on Saturday. He would do away with the old names of the month, and number them instead. These changes are held to be very necessary and important to meet the practical demands of the times. The inventor confesses that slight errors from such a change would be of small moment as compared with its advantages.

ACTION UNION EXHIBITION.
Prospects favorable for a Superior Show To-day and To-morrow.

With fine warm weather Thursday and Friday Action will see one of the best exhibitions ever held here. Secretary Hynds yesterday morning, after a busy day coming in to see very large numbers and directors notify us from several points that the attendance from their localities will be larger than ever before.

Action Union Exhibition will open this morning. Provision is made for exhibits from any point on the continent, or beyond, of live stock, agricultural and horticultural products, dairying and manufacturing interests, ladies' work, fine arts, etc. The directors make no mistake in locality whence exhibitors come. In addition to the comprehensive price list of the society, a remarkably large list of special prizes are offered. This list embraces many classes.

The programme for the proceedings of the two days will be as follows:
Thursday forenoon—Receiving entries and placing exhibits. Afternoon—Judging of exhibits in the hall. Evening—Hall programme and open to the public. Grand programme of music, including selections by Acton Concert Band.
Friday. The whole fair open to the public all day. Judging of the live stock, specialties, programme of music in hall open grounds.

In the evening the grand concert and entertainment referred to in another column will take place.
A visit to Action Exhibition To-day and to-morrow will be an event of interest to any lover of superior merit in the various departments named above.

AMERICAN EYES.
It is out strange that some of the lead writers on American newspapers are wondering how it is possible to publish so large and so excellent a paper as the Family Herald and Weekly Star, of Montreal, for one dollar a year. It must be the merest coincidence of the Family Herald and Weekly Star that enable its publishers to issue it at the price. Each issue of the Family Herald and Weekly Star contains one hundred and twenty-eight full columns and is printed on the best quality of paper and is sold at one year's right to the owner of fifty liquid volumes, each volume having two hundred and fifty pages, and such valuable matter. Every line that goes into the Family Herald and Weekly Star must cost money, for its publishers do not seem to be afraid to estimate what the publishers of the Family Herald must expend each year to explain the justification of their paper. Its great circulation sells the story.

LAST WEEK AT OTTAWA

Prorogation Likely to Take Place Next Week at the House of Commons.

THE GOVERNMENT'S MAJORITY.
Ottawa, Sept. 30. Present appearance prorogation will take place on Saturday. Mr. Laurier intimated as much in his reply to Mr. Chalmers' question on Monday afternoon. Only a few items in the main estimates are now to be passed. There is very little that is objectionable in the supplementary estimates. Further supplementary estimates, however, may probably affect duration of the session.

On the subject of the twenty seven. The House was divided for the second time at the conclusion of the debate last Wednesday and the Government's majority was 37. The Opposition was not satisfied with the vote on the Governor General's warrants the other week. Mr. Foster bent his skill to the framing of a resolution on the tariff issue, which was expected to show just where the division line of the House was. The proposition was on the vote increased to 37. All the Independent Members, including Mr. Ross Robertson, of East Toronto, voted with the Government. There has been no such success since the conclusion of a vote. The Ministerialists cheered and sang and cheered again. The Opposition sang and sang and sang. The Opposition sang and sang and sang.

The supplementary estimates contain much for discussion. The total vote asked is now about forty millions, or a million and a half more than the Conservative asked and did not get. A deficit of \$10,000,000.

The supplementary estimates contain much for discussion. The total vote asked is now about forty millions, or a million and a half more than the Conservative asked and did not get. A deficit of \$10,000,000.

THE NEW COUNTY COUNCIL.

Haltion Formed into Four Divisions with Eight County Councilors.

The commissioners appointed in form the County Council division under the new Act of the 29th June, 1906, on Monday, 27th September, the rearrangement of anything but satisfactory and equitable, and at the present outlook again to be specially unfair to Acton and Milton.

The commissioners under the divisions under the new arrangement as follows: Division No. 1—Haltion and Milton; Division No. 2—Oakville and Trafalgar; Division No. 3—Georgetown and Reesorville; Division No. 4—Milton, Acton and Seneca.

The division relating to the formation of the division read as follows: In forming County Council divisions the commissioners shall have regard especially to assessed value, and population of territory, and local municipalities, unless where in the opinion of the commission it is plainly necessary so to do in order to arrive at a fair and reasonable division.

There are good reasons for the action of the county who fail to see the sense of the division to be fair and equitable. On the spot of assessed value it certainly is not, as assessed value is only \$1,550,000, while division No. 4 was only \$1,550,000. The representation by population is almost as largely at variance.

It looks up here very much like an old fashioned guess, made by the members of the division and Milton from their respective townships, each two committees away from the township to which they are connected, is surely a singular way of having regard to a fair and reasonable division.

The division suggested at the recent meeting of the County Council, was nearly more equitable and satisfactory, and placed the rural municipalities, or sections of the rural municipalities, in relation to the towns of the County. Five Divisions were there suggested as follows:

No. 1—Oakville and Pelling Subdivisions No. 1 and 2 of the Township of Trafalgar;
No. 2—Haltion and Township of Seneca;
No. 3—Milton and Pelling Subdivisions No. 1 and 2 of the Township of Trafalgar;
No. 4—Georgetown and Township of Seneca;
No. 5—Acton and Pelling Subdivisions No. 1 and 2 of the Township of Seneca.

This would give ten councilors and each municipality would have fair chances of representation. In the Commissioners' division Acton is greatly over-represented. No doubt the next session of the County Council will give the matter serious consideration and if any provision is made in the Act for an appeal against the commissioners' division it will be made.

By the new County Council Act, the Warden is required on or before Nov. 15 to appoint a nominating officer in each of the divisions, to receive nominations for members of the County Council.

After this year the county council will have the power of nominating the officers. The nomination day will, this year, be on Monday, December 21st, two weeks before the first Monday in January, which is always polling day.

The township, town and village wardens, who held office for the past year, will be held on Monday preceding that of two weeks before polling day.

A

EPWORTH LEAGUE CONVENTION
Representatives of Guelph District Have a Splendid Meeting at Fergus.

The first annual convention of the Epworth League of the Guelph district was held at Fergus on Monday, 27th Sept. The district was well represented by J. E. Howell, M. A. and Mr. R. J. Edmundson were present from Acton.

The session opened with a prayer and program service at 11 a. m. led by Rev. W. H. Hilliard, of Marlborough, district president. An address in the evening was delivered by Rev. W. H. Hilliard, M. A. of Fergus.

The afternoon session opened at two o'clock with devotional exercises. An address in the evening was delivered by Rev. W. H. Hilliard, M. A. of Fergus.

NEWS OF THE DAY

An Epitome of the World's Doings During the Week.

Hamilton license commissioners have inaugurated a campaign against various clubs where liquor is sold.

Seven hundred telegraph operators went on strike on the C. P. R. Monday evening. These places are being rapidly worked. The probable representation by province will be: Ontario, 150, Quebec, 25, other provinces, 50.

The results of the census among the different congregations having C. E. societies connected with them, shows that 450 bills are already expired. Two hundred more bills are expected from other congregations, making a total of 650.

LI HUNG CHANG AT VIKINGHAMA.
Yokohama, Sept. 28.—The Emperor of China reached here at 1:30 p. m. yesterday having made his fastest west-bound passage. The Chinese man of war, which was sent out to meet him. The Emperor expressed great satisfaction with the voyage and the arrangements that had been made for his comfort.

A TRAPPER'S STORY.
A CALLING THAT ENTAILS MUCH HARDSHIP AND EXPOSURE.

One case in which the exposure brought on La Grippe and Stomach Trouble, which was cured by Dr. Williams' Pink Pills for Pale People.

From the Brockville Recorder.
Rockport is but a small hamlet, but it has achieved a wide reputation owing to the fact that it is the only hamlet in the county for the last thousand miles, and for this reason attracts during the summer months hundreds of pleasure seekers.

Among the residents of the village none is better known than Wilson A. Root. For many years he has followed the occupation of an organist, and none knows better than he the haunts of the gamey bear and pickerel. In the winter and spring months Mr. Root follows the occupation of trapping and this pursuit requires one to be out in all sorts of weather, and in the water frequently at a time of the year when the water is none too warm. As a result of a wetting Mr. Root took a severe cold which developed into a grippe, which took such a firm hold upon his system that for a time he was unable to leave his house.

His kidneys became affected, and he suffered from severe pains across the back. There was a feeling of constant tiredness, which was relieved by rest or sleep, but failed to relieve. The appetite was sick, and there was an indigestion to eat or work. A number of remedies were tried, one after the other, but without any beneficial result. At this juncture a friend of Mr. Root's advised that Dr. Williams' Pink Pills be given a trial. They had cured thousands of others, and why not he? Acting on his friend's suggestion Mr. Root procured a single box of the Pink Pills, and at once commenced their use.

The grippe had been given an impetus, and the patient felt that he was in for a long and painful illness. The grippe had been given an impetus, and the patient felt that he was in for a long and painful illness.

THE OTTAWA C. E. CONVENTION.

Ottawa, September 29.—One week from today the Canadian Christian Endeavor Convention, for which the C. E. of Ottawa have for months past been making active preparations, will open its sessions in Ottawa.

Judging from the reports just received from the principal C. E. centers, an attendance of 750 delegates is certain. The probable representation by province will be: Ontario, 150, Quebec, 25, other provinces, 50.

The results of the census among the different congregations having C. E. societies connected with them, shows that 450 bills are already expired. Two hundred more bills are expected from other congregations, making a total of 650.
