# Advertising Alone

Won't soll goods. If it would, there are stores on earth to-day that do enough advertising to sell fifty times the amount of goods they do. There's got to be something BACK of the advertisement. There's got to be something in the advertisement besides wind and big words. There has got to be TRUTH IN IT. There has got to be BELIEF IN IT. It's a mistake to think people don't notice what's going. THEY DO. They look at things pretty sharply. We never made the mistake of advertising a thing at a price and claiming it to be the lowest price unless we knew it. When WE DON'T know it when we only GUESS at it we don't say it. How offen do you see things advertised and the price guaranteed the flowest on earth," and then come here and see the same thing still lower? It happens hundreds of times a week. It happens on all sorts of goods. Did you ever see such value in Mantle Cloth as our 65c. Beaver? Did you ever see such a good Ladies Undervest as we give for 45c.? Did you ever see anything to compare with our 20c. Shirts and Drawers? Did you ever see such a pair of Kid Gloves as we give you at \$1 less than at \$1.25 } Did you ever see such a Suit as we give you for \$5, \$7, or \$8, or such an Overcoat at \$4.75?
