### PARLIAMENT IN SESSION.

The House of Commons Opens the Second Session of the Eighth > Parliament.

BRILLIANT OPENING CEREMONIES

OTTAYA, March 31 .- The second session I the eighth Parliament of Canada was grened last Thursday with the usual imposing ceremonics and with rather more than usual eclah. This was perhaps largely due to the fact that the present is really the first ression of the new administration, and its friends, especially its "sistors, and its cousins, and its aunts," desired to "show themselves." This they did, especially the ladies, who were present at the opening in very large numbers. The scene in the Senate Chamber was one of unusual brilliancy, and has not been excelled at any

It is an interesting coincidence that twenty-three years ago from the day of opening the first session of Parliament under the Mackenzie Government was opened and the address moved by Mr. Thos. ### A NOTABLE EVENT.

The Famine Fund sent to the Montreal Star has turned fifty thousand dollars, epresenting subscriptions from upwards of two hundred thousand persons, one hundred thousand school children, and nearly one hundred thousand church members of all faithe, besides great and small subscriptions from thousands of private citizens. We do not remember over to have seen so extraordinary a subscription anywhere. For many years to come the remarkable spontaneity with which this subscription was supported, its almost universal charac-

ter and the right good-will with which the

subscriptions were bestowed for the cause,

will be looked back to by all Canadians with genuine pride. Besides the relief that this fund provides for India, it provides a substantial evidence that Canadians have a real interest in the whole Empire and it thus serves the double purpose of philantropy and patriotism. We do not believe that any person ever imagined that it was possible for any one agency to raise so large a sum and to enlist the sympathies of such an enormous number of people as has been done by the Star. -Ottowa Free Press.

rom the Kentville Advertisor. There are very few employments more trying to the health than that of a railway engineer. The hours of labor are frequently long, meals irregular, and rost and sleep nurriedly snatched "between runs." One of the troubles which very frequently attack railway trainmen is kidney disease, which up to a late period has been looked upon as a disease difficult, if not impossible, to totally cure. Although there exist numerous remedies claimed to be cures, the truth is that nothing had been found to successfully cope with this terrible FRUIT & ORNAMENTAL TREES disease until the advent of the now worldfamed Dr. Williams' Pink Pills.
