It has brought home to them their dependence upon Canada for supplies and the knowledge is bearing fruit. One firm has determined to come into the country and manufacture here, and others are contemplating the same step.

rom the Sherbrooke Gazette. When a man faces what medical authorities tell him is certain death, and retains health and strength, he is naturally gratefal to the medicine that has restored him. Such a man is Mr. James Owen, one of the best known farmers in the vicinity of Johnville, Que. Mr. Owen tells his story of shattered health and renewed strength as follows :- "On the 17th of December 1894. was attacked with la grippe. A week later the trouble developed into pueumonis in its worst form, and I did not leave my bed until the first of March, 1805, and I then was so weak that I was unable to walk alone. I had however, but very little power in my legs and I could not ride more

than a mile in a buggy owing to the pain they caused me. My lungs also troubled me and I raised a great deal of matter. I then consulted the best doctor we have in this section of the province. He told me candidly that I was past medical help. He said that my left lung was in a state of collapse, and that my right long was also affected. This was in July 1895. For the next three months, every day seemed to draw me nearer and nearer the end. I was so pressed for breath at times that I could not walk any distance without stopping to regain it.
