THUBSDAY, APRIL 20, 1897. NOTES AND COMMENTS.

The London, Eng., Times cabled con-

gratulations to Premier Laurier on new tariff on Monday. Emperor William does not believe the Turko-Greek war will remain localized very long, and that the principal European

powers will be involved. Dr. Reid, of South Grenville, has given notice in the House of Commons to regulate railway freight rates. He proposes the establishment of a commission.

The results of the bye-elections for the House of Commons on Tuesday are the return of three Liberals. Mr. Jameson's majority in Winnipeg was 1,191; in Macdonald Dr. Rutherford is returned by about 500, and in West Prince Mr. Perry is seven

Authority is now given every munici pality to expend a fixed sum for advertising information as to the advantages of the educational or residential centre. Cities to the farmer is the placing of wire fencing and towns of over 5,000 population, \$500; on the free list immediately, and binder other municipalities, not exceeding \$100.

By the legislation of last session a mar ried woman, for the purpose of recovery from her husband, shall be deemed to have been deserted when she is living apart from her husband because of repeated acts of cruelty, or because of his refusal or neglect, without cause, to supply her with the necessaries of life when able so to do.

A new provision was added to the municipal act at last session of the legislature providing that a member of the municipal council may become a candidate for election as a county councillor without resigning his office as municipal councillor, but he may not sit in the county conneil while continuing to be a member of a municipal council

In the British House' of Commons on Tuesday Sir Charles E. H. Vincent, Con servative member for the central division of Sheffield, announced he would move the following resolution a mouth hence :-"The House expresses grateful and fraternal recognition to the Government and people of the Dominion of Canada for the generous fiscal changes in favor of British trade and labor, announced on Friday by the Parliament at Ottawa and already i force, and hopes this first step towards commercial federation of the empire will be followed by Anstralasia, South Africa and the other colonies."

CANADA'S NEW TARIFF.

With Few Exceptions, Business Men are Satisfied with the New Duties Imposed.

REFERENTIAL TRADE FEATURE.

OTTAWA, April 28-Of course the new tagiff and budget debate have been the allabsorbing topic at the capital the past week. Last Thursday as announced, Hon. Mr. Fielding, Finance Minister, introduced tonson-Chisnoth-At the residence of the the tariff in a speech of great length and minutences of detail. The galleries were crowded when Mr. Fielding rose. estimated the deficit this year between \$600,000 and \$1,000,000. Next year's revenue bucestimated at \$39,500,000 and expenditures \$38,250,000. The net crease of the debt this year would \$1,250,000, and next year \$2,250,000.

> In presenting the tariff bill, he said, that to the Catholic conscience. he government adhered to the platform of the liberal party, which was tariff for most important and interesting feature pulpit. of the new tariff proposals is the preferential arrangement by which Great Britain and countries which fayor Canada will-be accorded specially favorable treatment. Imports from those countries will be classed in a special schedule and the import duties on them will be one eight less than the duties charged on similar goods in the general schedule; after June 30 the duties on these favored goods will be further reduced by one-fourth of the general rates.

be adopted but the Government claims that the way is perfectly clear. FAVORS THE YARMERS. There has been a distinct effort to please the farmer. Although it is unlikely that of his implements, it will reduce the price of several staple articles that he must buy, if it be admitted that that is always the effect of a reduction in import duties Coal oil has been reduced from 6 to 5 cents cente a gallon. Indian corn has been made free except to distillers, and this change will please stock-raisers. More important

There is doubt in some quarters as to

whether this proferential arrangement can

twine after January 1. COAL, IRON, ETC .. . The expected changes in the coal duties have not taken place as yet. The policy of the government in regard to this important item is dependent on what the U. S. tariff-makers finally agree to. In the iron and steel schedule there are material reductions, the object being to bring down the price of pig iron and scrap so that manu facturers who use iron as raw material may get it cheaper. This is a form of protection to the manufacturer. But in order that those who have invested capital in the smelting industry may not suffer losses the bounty on pig iron entering into home consumption is to be considerably in

WHISKEY AND CIGARS, ETC. The slight increase in the excise duty or spirits and tobacco will not be greatly felt while it will add to the revenue. Contrary to expectation the government has decided not to obtain any revenue by a tax on tea. The duty on refined sugar has been slightly reduced, so that "the poor man's

broakfast" will be at least as cheap as i MISCELLANEOUS. The way in which the government pro poses to check trusts and combines is t promptly place on the free list all goods which may at any time be artificially enhanced in price by the operation of a combine. This plan is fair and commendable,

and ought to prove effective. A noteworthy feature of the new tarif is the abolition of specific duties. While this change may be favorable to the importation of the cheapest kinds of litera tore, it will probably raise the price of good books, and will be regarded as a tax on education and culture.

Upon a whole, the new tariff, regarded as a compromise measure, will probably be received with favor by those who believe The St. James' Gazette regards it as the that conditions in Canada are not ripe for

THE CIRCUIT RIDER.

CHRISTIANITY OWES MUCH TO HIS ZEAL AND ENDURANCE His Life During the Early Days of Methodism in Canada was often

one of great Hardship--The story of One Now Enjoying a Ripe Old In the early days of Methodism in Can-

ada the gospel was spread abroad in the land by the active exertions of the circuit rider. It required a man of no ordinary health and strength; an iron constitution and unflagging determination to fulfil the arduous duties incombent on one who andertook to preach salvation to his fellowmen. It was no easy task that these mon set themselves to do, but they were strong in the faith and hope of ultimate reward. Many fell by the wayside, while others struggled on and prospered, and a few are to day enjoying a ripe old age happy in the knowledge that a lasting reward will soon be theirs. Most of these old timers are not now engaged in active church work, but have been placed on the superannuated list, and are now living a quiet life in town or on a farm free from the cares of the world, they await the call to come up higher.

Rev. David Williams, who lives two miles southwest of Nixon, Ont., in the township of Windham, Norfolk County, was one of these early days circuit riders. He was a man of vigorous, health and although without any advantages in the way of early education he succeeded by dint of hard and constant study in being admitted to the ministry. He was the first born in the first house built in Gleawilliams near Georgetown, Mr. Goo. Kennedy the founder of Georgetown, being a brother of his mother. To day he is seventy years old and for the past 26 years has lived in The Government policy for building the | this county. For many years he has been a sufferer from kidney and kindred diseases. He tried all kinds of remedies, and although sometimes temporarily relieved gradually grow worse until in October, 1895 he was stricken with paralysis. From this he partially recovered and recovered his powers of speech but his mind was bad! wrecked, and his memory was so poor that he could not remember the name of the person to whom he wished to speak with out thinking intently for several minutes. One day driving to church he wished speak to a neighbor who lived next to him for twenty years, but he could not recall the name for an hour or more. In addition to his mental trouble, he had intense bodily suffering; pains in the head, across the forehead, in the temples and behind the ears, across the lower part of the skull and

in the joint of the neck. He had great weakness and pains in the back, hips and legs. In fact, so much did he suffer that sleep was almost an imposibility, and he fell away in weight until he weighed only 145 pounds. By this time, Dec. 1895, he became despondent and felt that if he did not soon obtain relief, he would soon bid ndien to the things of this world. On the-20th of December he read of a cure in the Reformer by Dr. Williams' Pink Pills, and being seized with a suddden inspiration at once wrote to Brookville for a supply of that marvellous remedy. Immediate good results followed their use and he has im proved wonderfully during the past year. He has recovered his bodily bealth and strength, is comparatively free from pain and his memory is nearly as good as it over was and as the improvement continues the prospects are very bright for complete

recovery. He has gained 20 pounds in weight since beginning the use of Dr. Williams' Pink Pills. Mr. Williams says: "I can heartily endorse the many good things said of these pills in the papers, and strongly recommend them to anyone suffer-Dr. Williams' Pink Pills are a blood builder and nerve restorer. They supply the blood with its life and health-giving properties, thus driving disease from the system. There are numerous pink colored imitations, against which the public is

· About. WINNIPEG, April 27 .- The flood situation t Morris and settl ments along Red River, between there and Winnipeg, is reported to be very serious. 'I 's Red River has risen to a higher point than in 30 years, and the whole town of Morris is under water. The water is up to the tops of desks in the schools, and to the tops of store counters. People are living in barns and upper storeys of their houses, and can only move about with rowboats. The Manitoba Govornment sent a steamer from Winningg to relieve any distress that might exist, but he people were all found well supplied with provisions, though, of course, suffering many discomforts. The high water may last a couple of days longer, and then Winnipeg will get it. However, Wingipeg's location is high, and beyond the flooding of the electric power houses, and varying conditions may require.".
