The Synod of the diocese of Rupert's Land closed a week's session at Winnipeg on Saturday. A motion favoring prohibition evoked much discussion, but was lost by a voto of 40 to 10. The discussion was closed by the Archbishop, who said he wished to state distinctly that he would meta against prohibition in the plebiggite.

That clause in the new tariff which empowers the Government to remove duties on goods which are subjects of trusts and combines has created considerable alarm among the combinesters, and the eagerness with which they condemn it and urge that it be expunged, shows the necessity for this wise precaution. Keep that clause in the tariff. _ .

School inspectors are troubled these days with queties about the municipal grant, it Having been abolished during the 1896 session of the Ontario Legislature. Instead thereof, township councils were authorized to increase the \$100 formerly raised for each single-roomed school to \$150 and the \$150 raised for each double-roomed school to \$250. The amount should have been raised by the township councils in 1896.

The New York Herald assumes that although beaten in the Senate by three votes the Arbitration Treaty has not failed, for no agreement made between nations in Cretan question. time of peace was over hailed with such general acclamation. President Cleveland and his cabinet approved it. his republican successor in his message approved it, the press, the board of trade and chambers of commerce and the voice of the people in every part of the country approved it. In exciting this sympathic feeling the real purpose of the treaty has been achieved.

The contest over the vote on Sunday Cars is absorbing almost undivided attention in Toronto this week. The news papers are crowded with matter pro and con. Public meetings are held daily throughout the city. There is perfect organization on both sides and the contest will be a most exciting one. The churches are nearly all arranged against Sunday cars. A few good men are advocating this innovation in the live of Sabbath-breaking but they caunot be proud of the company they are in., Their associates are the element in the city whose highest aims are greed for money, sport, Sunday pleasure, eto., with a total indifference as to the moral uplifting and advancement of the community. About a hundred sermons and addresses were delivered in the Toronto churches on Sunday in support of maintaining the present integrity of Sunday as a day of rost in Toronto. While opinion is divided, there is a growing impression that the Sunday car proposal will be decisively defeated when the vote is taken on Saturday next.

ST, VITUS' DANCE Young Girl's Life for a Time Made Miserable--Could Not Use Her Hands and Found It Difficult to Walk--Health Restored.

Nervousness is the frequent cause of nuch misery and suffering. One of the effects of this breaking up of the nerves, particularly among young people, being chorea or St. Vitus' dance. A correspondent tells of a young lady at Selby who was badly afflicted with this trouble. He says :- "I never saw anyone suffering so badly before from nervous disorder. Shewas violently jerking and twitching all the time, and could not use ber right hand at all. Anything she would try to pick up with it would instantly fall. When the would attempt to walk, her limbs would twist and turn, the ankle often doubling down and throwing her. Lately I heard that she had been cured but doubted the truth of the statement and went out to see her. The statement proved quite true, and believing that a recital of the facts of the case would be of advantage to some one

was readily granted. The young lidy is Miss H. M. Gonyou, a general favorite among her acquaintances; and it is thought that her trouble, as is not infrequently the case, was brought on by hard study in school." Miss Gonyou gave the following statement :- "All-through the fall of 1804 school and was afraid if I said anything upon in order to prevent under-valuation pencil.
