NOTES AND COMMENTS.

The U. S. Senate has put the duties on cattle as follows: less than year old, \$2 a head; on all other cattle, valued at not more than \$14, \$3 50 a head valued at more than \$14 and not more than \$25, 25 per cent, ad valorem; valued at more than \$25, 30 per cent. The daty on hides is placed at 20 per cent. ad

. It is stated on high authority that the Queen thinks that after sixty years' reign she deserves a well-earned rest, and in so far as a sovereign can, she how proposes to let the Prince and Princess of Wales in future hold all drawing-rooms and levees, and-perform-other-public functions appertaining to Royalty. Queen Victoria may never again appear in public.

The Senate is receiving some pretty hard raps just now from the Globe and other Reform newspapers, on account of having thrown out the Drummond County Railway Bill. Of course Mr. Fielding does not relish the idea of the Upper Chamber nullifying the legislation of the Commons. And a good many thoughtful people are of the opinion that the Senate is exceeding the powers it should legally assume.

Sixty years ago the total foreign trade of all the colonies now constituting the Dominion of Canada amounted to about \$29,000,000. In 1895 the value of this trade was returned as \$224,420,000, an increase of about 071 per cent. In 1850 there were scarce 50 miles of railroad the country, in 1860 there were 1,880; but in 1894 there were about 16,000. Population has increased from 1,100,000 in 1831 to about 5,000,000 at the present.

Road Commissioner Campbell has issued his first annual report, and it is one much practical value and concise informa tion. It is a fact that should be studied carefully by every road commissioner, chairman of board of works and pathmaster in the country. The correct principles of road making and the reasons therefore are laid down clearly and concisely and direction given for testing the value of the different materials in road construction Every page in the report is of value and should be studied.

NASSAGAWEYA..

Mr. Edward Darby, of Knatchbull, putting a new roof on his stables and hay barn this week. The fine rains of Monday evening and Tuesday-will-help-the-crops-and-make-the-

prospects of a good harvest.

Rev. T. Amy preached his farewell sermon on Sunday. It was very effective and was appreciated by all who heard it. The text was in 1st Cor., 15, 58, "Therefore, my beloved brethren, be ye steadfast, ummoveable, always abounding in the work of the Lord, forasmuch as ye know that your labor is not in vain in the Lord." Mr. and Mrs. -Amy left Wednesday for their new home at Oakland. We wish them success in their new field of labor.

The public schools close for summer holidays on Wednesday of this week. The pea crop in this vicinity is very good

and some fields are in full bloom. Mr. and Mrs. Edward Kingsbury, of Acton, spent Sunday at Mr. Robert Wil-

son's home here. Another of Nassagawaya's old residents has passed away in the person of Mr. John Allison, who died at his son's residence, Moffat, on Sunday, 20th June, aged 87 years, 10 months. Mr. Allison was proceded to the better land by his wife some twelve weeks, so he did not have long to travel life's pathway alone before his

Master called him higher to join bis loved ones gone there. The funeral took place on Wednesday of last week from the residence of his son, Mr. Parker Allison, to the family burying plot in the Moffat cemetery. The Rev. Mr. Blair preached the funeral sermon and officiated in the burial service. The pall bearers were Warden Hutchson, Messrs. B. King, M. Holmes, Jacob Allison Thos. Moore and Jos. Little. Deceased was a highly respected resident of this

township. The Jubilee Anniversary of Ebenezer Church will be held on the 11th July. Rev. Mr. Fisher will preach and the Jubilee supper will be on the 18th at Mr. H. Flotcher's, Darbyville.

X RAYS AS A DETECTIVE. They Will Be Put In the Customs Offices to Reduce the Amount of Smuggling.

Panis, June 28-The French Government has adopted the X rays as a means of checking the prevailing practice of amuggling. Director Pallain of the French customs service has ordered that Crookes tubes be kept at all the larger custom offices, and all of the custom inspectors of Paris have been summoned to the chief office to have the method of their use ex-

plained to them. Hitherto vast quantities of watches, jowellery, and other dutiable articles high valuation have been concealed stowing them in the legs of deal tables and ink receptacies, and have thus escaped the notice of the quatom officers. It is believed that by means of the X rays the presence of such articles will be readily detected.

RAILWAY RATES FOR BICYCLES.

Both the Grand Trunk and the Canadian Pacific have issued new bloycle tariffe making considerable reductions in the rates for the transportation of bicycles over their lines. The rates for the carrying of bloycles-in which category tricycles are also included -- are graded on a sliding scale, according to the amount of the first class passenger fare for the distance.

The lowest charge made for handling bloycle is 5 cents, which is the rate when the first class passenger fare is under 10 ints. When the fare is from 10 to 75 cents, the bicycle charge is 10 cents.

RATEIS 17 MILLS AGAIN.

The Estimates for the Current Year Brought Down and the Bate Struck

'ECONOMY" THE WATCHWORD. The meeting of the Council on Monday evening was perhaps the most important session of the year. The importance of its deliberations and enactments rendered it such. The Committee on Finance brought down the estimates of receipts and expenditures. Its revolations showed that as a result of the economy which being exercised by the Council in its expen ditures, the rate can be continued at 17 mills. At this rate provision is made for the erection of the new bridge to replace the temporary one in Cook's survey and t make necessary repairs to streets and walks, throughout the corporation. The gravelling of Mill Street will not be continned further this susson, but it is expected that next year's Conneil will complete it up

to the Grand Trunk Railway crossing. The rate of 17 mills is very creditable .to Acton, especially when the provailing rate in municipalities enjoying similar improve ments and surroundings is almost invari higher. Brampton for instance requires 22 mills this year, and Guelph bas

struckits rate at 25 mills. Council met at eight o'clock: Reevo

Nicklin presided and all the Councillors were in their places. The Committee on Finance presented their tenth report recommending payment

of accounts as follo	W8:-

Moved by H. T. Arnold, seconded by W. E. Smith, that the estimates as brought in by the Finance Committee be adopted .-

Ex Councillor Jeans addressed the Council, requesting on behalf of Actor Cornet Band, that the band atand now located on Franklin Square be removed to the town hall square.

After consideration of the matter it was moved by Wm. Brown, seconded by W. H. Denny, that Acton Cornet Band be allowed to place their band stand now on Franklin Square on the property of the corporation at the town hall, subject to the direction of Town Hall Committee, said stand to be under the control of said committee .-

Carriedo The Council adjourned at 9.45 c'clock. LAST STATE APPEARANCE

Queen Victoria Retires From a Public Functions, Relegating Them to H.R.H. Prince of Wales.

LONDON, June 28 .- The Queen yesterday paid a visit to Kensington, which, as the scene of her birtly and summons to the throne, has ever had for her Majesty sol emn and tender recollections. It is stated on high authority that yesterday's visit to London is probably her last State appear ance in the metropolis. In future she will transact the affairs of State at Windsor Balmoral, or Osborne, and take such rest as it is possible for a sovereign to take, and leave the holding of drawing-rooms, levees. and other functions to the Prince and

Princess of Wales. A Royal garden party was given yesterday on the grounds of Buckingham palace. The Queen was present for two hours, after which she returned to Windsor. Her last appearance before proceeding to the South of France for her summer residence will be on Thursday, when the grand military re-

view will be held at Aldershot. The Queen thinks, so the statement runs, that she has done enough. The unexampled devotion to and acceptance of her obligations to her people have, after sixty years, won for her well-deserved rest. and, in so far as the Sovereign can, she The strike of the St. Lawrence pilots is now proposes to les the burden of responsi. at an end. ABSOLUTE PROOF GIVEN. That Dr. Williams' Pink Pills Cure When Other Medicines Fail--What They Have Done for Others

They Will Do For You.

No remedy of medern times has offered sample of bundreds constantly being receiv-

The Dr. Williams' Medicino Co. Dean Sins .- I have great pleasure in bearing testimony to the medicinal value of Dr. Williams' Pink Pille, as a blood purifier and health restorer. For ten years I was a victim to a complication of troubles, beginning with quineey and followed byrheumatism and bronchitis. My physicians told me the trouble had become chronic. and that every winter I would either have to house myself up or go to a warmer climate. Two years ago I was confined to my bed and room from February until May, under the doctor's care. One day while reading of the cures wrought by the use of Dr. Williams Pink Pills. I determined to try them, and I found a cure at last in this splendid medicine. I used a dozen boxes of the pills and . I have nover been better in my life than I am now, and I have not been troubled in any way with my old complaints since I discontinued the use of the Pink Pills. As I have already stated, I was a sufferer for years, and during that period spent a small fortune in doctor's medicine and drugs, only to find in the end that Dr. Williams' Pink Pills

THOS. C. MOORE & SON'S

FRUIT & ORNAMENTAL TREES

AND SEED POTATOES

WE have the largest assertment and employ the very latest and meet improved methods for propagation. All atock carefully packed under our personal supervision, and all new varieties tested at our trial farms before being catalogued. These are the only testing orchards connected with any Nursery in the Dominion. Agents Wanted to Represent Us Special attention given to Park, Cemetery, and boulevard orders. Estimates furnished for supplying entire orchards.

Why buy of foreign concerns or of middlemen when you can purchase as cheaply from us and get better value.

Our stock is Canadian grown and accllimated.

Catalogue (English or French) free on application.
