The Actor Free Press.

THURSDAY, JULY 1, 1897. NOTES AND COMMENTS.

The Minister of Railways has given notice to the G.P.R. that the arrangement by which it uses the Intercolonial from St. John to Halifax will terminate in a year.

Mgr. Del Val has written a letter Archbishop Langevin, in which he calls for a cessation of agitation on the Manitoba school question and a suspension of judgment until the Pope has given his decision.

The figancial situation, says the Financial Journal, is entirely comfortable. Money is easy everywhere, and credit and confidence are nowhere shaken. The foreign exchange market shows very plainly that there-is no need to apprehend trouble in that quarter this summer.

Sir Michael Hicks-Beach and Mr. Gosohen have urged the colonies to contribute mier Reid of New South Wales, however, The actual population of Great takes the position that the greatest gift the colonies could give to the empire was the development of their own resources.

The Maileays: In Ottawa Liberal circles it is regarded as highly probable that Sir Oliver Mowat will at an early date be appointed Lieutenant Governor of Ontario, that Sir Louis Davies will take his position, while the vacancy thus created will be filled by Mr. Fielding, and Sir Richard Cartwright will take the portfolio of

Mr. A. Blue, director of the Bureau of Mines for Ontario, has received a letter from Dr. Coleman, at Rat Portage, stating that he has just got in from a rough exploration trip in and around Grande Presqu' Isle. He found little to change in the geology as mapped by Dr. Dawson, but he discovered a dozen hitherto unmapped lakes, one eight or nine miles in length .-

The prohibitory tariff of \$2 per 1000 ft. imposed upon white pine lumber by the United States under the Dingley Bill has been cut down by one half. A vigorous effort was made to place it on the free list which was only defeated by one vote in a Senate of 65. A compromise on a duty of \$1 per 1000 feet was then carried by a voto of 32 to 31, showing a complete break of party lines.

Mr. D. Henderson, M. P., had several unique experiences during the session of the House of Commons just closed. On the evening of the banquet tendered Sir Charles Tupper he was for a few minutes the only member of the opposition present in the House, an event strikingly unique in Parliament during a regular sitting. Mr. Henderson was the last member of the House to address the speaker before pro-

A dispatch from Winnipeg says : Messrs. contract for building eighty miles of the veyors will be put at work immediately, and as soon as they were far enough ahead | was being emancipated. work on construction of the road would

Mr. E. C. Wiman, addressing the Canadian Club in New York on the signifigance of the Queen's Jubilee told his Yankee hearers some plain truths. He said, if the the opportunity has now passed, never to from the throne :return. They have taken a method of procuring this desideratum which has not only intensified loyality to Great Britian, but has estranged them from a people who,

some day would dominate the continent.

Last Thursday Canada celebrated another birthday. Thirty years ago this portant legislation which has been the out-Dominion was formed from the various Provinces in British North America, whose only bond of connection was the common allegiance to the British Crown. To-day pleted in a manner which, I trust, will the Dominion is united as it has never been in the course of its short history, sectional differences have disappeared, pro- ing to know that this measure has been vincial jealousies no longer exist or have | recognized as one of Imperial importance, givon away to\_friendly - rivalries, racial and that it has already had a marked effect feeling is dying out, and the Provinces in strengthening the bonds which unite have become welded together into one Canada to the motherland. The arrange- Saturday evening in the River Credit, national whole. The policy of spending ments for establishing a fast steamship within a short distance of his home. No vast sums of money on public works, while line of the highest class between Great tending largely to produce this result by Britain and Canada, with the co-operation | that deceased, who was very careful about fostering inter-provincial trade and com- and assistance of the Imperial and going into deep water, stood on a log at munication, has also otherwise materially Canadian Governments, encourage me to what is known as Simpson's Dam, and benefitted Canada and promoted its devel- | hope that at no distant day we shall see opment. The great increase in-miningindustry, which this country has witnessed during the past twelve months; will doubtless have a more marked influence in the statistics of progress during the next decade, and will show how that which was hitherto regarded as barren stretches of rook and mountain have become great

The crop bulletin of the Manitoba Department of Agriculture, just issued, shows the area under wheat in the province to be 1,200,882 acres; of cats, 408,141 acres; of barley, 158,266 acres. The total area of all grops is 1,050,000 acres, an increase of 80 per cent. over last year. The total area last year was 999,500 acres, after deducting 50 per cent, of the area sown an atuhble, which proved to be wasted effort. There are 27,000 farmers in the province, and the figures indicate that the old sottlers are cropping as much land as ever, although going more extensively into stock raising.

#### A WONDERFUL ERA.

Sixty Years of Progress under Queen Victoria--Advance in the Arts of Peace, in Civilization and Social Re-

HE GROWTH IS MARVELLOUS The Globe's London, Eng., correspon dent has just written an interesting article pointing out the marvellons growth in arts. of peace, civilization and social reform during the Victorian Era. He says :-

Reference has been made to what seemed to be a defect in the jubiles procession, namely, that it was exclusively royal, aristocratic and military; that but for improvements in gaus and other war machinery it might have been shown in lustrate in any way the progress in-the arts of peace, in civilization and in social reform which is the roul glory of the Queen's reign. It must be recognized however, that these things do not lend themselves to pagentry; though much can be learned about them between the covers the eminent statistician, "National progress in the Queen's Reign." If Mr. Mulhall's facts and figures are not pictuuesque, they have the advantage of being easily transferred to paper and convoyed to Canadian omes. The work opens with a summary

of progress in the United Kingdom alone. The figures of course, are relative, no actual, the 100 representing "par" and others the ratio of increase

Mining......100 Textilo Manufactures .. 100

and Ireland has grown from 26,860,000 in 1837 to 39,470,000. England gained 14,-700,000, Scotland gained 1,500,000, Ireland lost 3,650,000. The outflow of emigration in sixty years has been about 10,860,000, of which 4.950,000 has been Irish. The United States got 7,220,000 of the emigrants, Australia 1,580,000 and Canada 1,560,000. London has grown from loss than two millions to 4,350,000, and the total urban population from 3,460,000 to 7.960,000. I do not know that these last items are altogother matters for congratulation. So enormous a city as this is hardly a nursery for the higher intellectual and moral qualities, though it is an excellent school for making sharp men of the world. This remark will sound odd in view of the splendid literary work that has been done here, and the fact that London is the Mecca of writers. But the fact is that much of that work has been done. through a process of re-action; of resistance, of protest. Witness the conditions which oused in Dickens and Thackeray the spirit

Great Britian consumes 121 pounds of

Mr. Mulhall's iast chapter deals with the colonies and is optimistic in the extreme. He is a staunch believer in free McKenzie and Mann have secured the institutions for British countries. "Our colonies have advanced in spite of the Rainy River Railway from the end of the folly, not because of the wisdom of British Port Arthur, Winnipeg and Duluth line, statesmen. In fact, their real progress over which perpetual running powers have | dates from the period of their emancipabeen secured. Mr. Mann states that sur- | tion from the tutelage of Downing street." To-day it looks as if Downing Street itself 2. We ought to sympathize with others in from the 30th August to the 11th Septem

NEW PASTOR'S FIRST SERMONS. Rev. Jas. A. MoLachlan, M. A., Inaugurates His Pastorate in

"the Methodist Church. The new pastors of the Methodist Church throughout the Conference invariably met with a warm recoption last Sunday. It here was any lack of warmth on the part of the congregation in their welcome, there

was certainly none in the atmospheric Roy. Mr. McLachlan, preached his first ermons on Sunday and his discourses created very favorable impressions. The subject in the morning was ! Matual Helpfolness" and was based upon Gal. 6, 2; "Bear ye one another's burdens, and so fulfil the law of Christ." The law of Christ, he said, is the law of love. This is law of the human heart and we can all put it into practice. Everything is held in place by sonfe principle, so in life there is or evil. The Lord Jesus Christ who has thyself." This is the law of the universe, There have been various definitions of the meaning of this term; but the most accept able one at present is that it is "The law of mutual helpfulness and co-operation.' We have in this the first gleam of the law of Christ. But it points to a higher-life. We know that the Son of God, though rich, yet for our sake became poor, in his efforts to help us. One principle pervades the whole universe, "The ministry of love." Applications of this law were made by the preacher to the various relations of life. In the family some men place all the reenousibility upon the wife, the mother upon the children, and the children upon 195 | each other, but where the spirit of love prevails in the home there is mutual help-Britain folness on the part of all the members. In

some churches the preacher is expected to haul the gospel wagon with all the efficers and all the members on board, but I know, he said, that is not your ideal. You are prepared to lend a holping hand. "A mountain ceach had seats for first, second and third-class passengers. When a very steep incline was reached the driver addressed the company saying: "First-class passengers, sit still; second-class passengers, get out and walk; third-olass passengers get out and push." We think our members here will all be of the thirdclass order; all be helpers in the work of the church. I was much helped by read ing in the FREE PRESS the kindly words of your retiring pastor, in one of his closing sermons, where he exhorted you to snoourage your new pastor. I come to you this morning to say, let us encourage each other. Lot us all speak of this church our church and put ourselves into it. In speaking of the other departments let us beheard referring to our Sunday School, our Epworth League, our Junior League, our Prayer Meeting, etc., and look for God's blessing upon all our efforts; then if the law of love characterizes these efforts we

meat per head per annum, Ireland 40, Germany 75, France 70, Austria 60 and Belgium 56. 'As to education, the percentage of adults not able to write their names is now 7 per cent, as compared with 44 per cent. in 1837. The circulation of newspapers is 60 times as great as at the begining of the Victorian epoch. The number of letters and post cards delivered yearly has increased from 82,000,000 or 3 per head, to 2,084,000,000, or 33 per head. Great progress has been made in sanitation; more-than £150,000,000 sterling has been spent in water supply, drainage, etc., and the annual death rate has been reduced from 22.5 to 18.8. This is estimated to represent a yearly saving of 146,000 lives.

His Excellency Thanks the Mem-

and the Supplies.

HON. GENTLEMEN OF THE SENATE, GENTLE-MEN OF THE HOUSE OF COMMONS: In relieving you from further attendance in Parliament, I desire to thank you for the assiduity with which you have dis charged the duties of a fatiguing session, and I congratulate you on the very imcome of your deliberations.

#### CLOSING. EARLY

000000000000000000

Late hours Saturday night along with a busy, tiresome day, are an evil which calls for a remedy. It is an evil too for which the people can easily apply a remedy. We are convinced that nearly all the purchasing which is usually done Saturday night, could just as easily be done on Friday afternoon, and we are much mistaken in the Christian and humanitarian sentiment of this city if when they understand the extent and magnitude of this evil they do not insist upon, and assist in its cure.

### We Believe People Do Not Know

hat every Sabbath is broken by the delivery of goods in the early morning, the result of orders given late Saturday night. That they do not know that in some departments the employees are forced to work dangerously near to one o'clock or disappoint valued customers, whose orders were delayed till Saturday, and that employees as well as principles are debarred Sunday morning church services, if not for the entire day, or are in no condition of body or mind to enter into the services of the day, which should be the brightest, happiest and most enjoyable of the week. These are more serious matters than appear at first sight, and lie at the bottom of much Sabbath descration directly and indirectly. We have put this matter frankly before you and kindly ask your co-operation aud assistance in bringing about a better state of things.

We have decided to Close our Stores sharp at 8 o'clock every Saturday Night, com mencing Saturday next, 10th inst., with the hope that we will soon be able to close even

FIRE LIMIT BY-LAW

THE attention of the property owners of the municipality is again called to the provisions of the Fire By-law respecting the erection of new buildings and re-building of old ones within the fire limits, as per the following 2. Within the said fire limits every dwelling-house, store, manufactory or other building hereafter erected, shall be built of stone, brick, cement or concrete, and roofed with slate, metal, tin, fireproof composition or shingles laid in mortar at least one-half an inch thick laid on roofing boards closely jointed, provided that within the said limits, stables and out-buildings may be erected of wood, plastered or rough east on the outside and roofed as herein before provided.

8. Within the said limits all roofs hereinafter made or put on any building whether such building shall have been built before or after the passing of the by-law shall be made as herenbefore provided for new roofs.

1. That within the said limits any renewal or removal of any frame or wooden building shall be considered a re-erection subject to the terms of this by-law, and that any repairs to any frame or wooden building which shall be necessary to execute to the extent of one-half of the whole value of the building shall be considered a re-erection and re-construction subject to the pro-visions of this by-law, and that all plans both

for new buildings and repairs to buildings shall first be submitted to the Council for their approval, and a permit be obtained from Council before proceeding with erection or repairs.

Notice is hereby given that in order to protect this municipality and to meet the requirements of the Board of Underwriters, the above provisions will be strictly enforced. THOS. T. MOORE Council Chamber, June 28th, 1897.

## LAUNDRY

MRS. S. ROSZELL

Having purchased the Acton Laundry Our work has been well received and we thank those who have favored us with their patronage. We have the capacity for filling many more orders satisfactorily and

Prices reasonable. Laundry in Cook's former stand.
